VEGETABLE MEDICINES.

By a species of instinctive feeling, the mearly all countries are greatly averse to those medicinal preparations which contain mineral substances amongst their ingredients. And yet, if the spession was asked why they objected to this class of medicines, we presume few could give an intelli gent answer. Nevertheless, the aversion is well founded.

All mineral substances, when taken into the stomach, are cumulative in their nature-that is to say, they remain either partly or wholly in the system and accumulate with each additional dose, until in many cases the result is death. For example, ar senic, although known to be a deadly poison, yet in certain parts of Switzerland is extensively used by the mountain guides as a means of giving them, rolgarly speaking 'long wind.' But although it is thus beneficial for a time, the ultimate result is al-

It therefore becomes evident that the popular dis-like to mineral medicines is well founded, and it is doubtless in a great measure to the entire absence of any mineral substance that the wonderful success of

It is prepared from the best quality of the Sarsaparilla Root, with which are combined other cleansing, purifying, and healing roots, barks, leaves, and balsamic gums-the whole, without doubt, making the best depurative and most valuable medicine known to the faculty. The preparation of this great remedy is carried on under the personal supervision of the most scientific chemists and pharmaceutists, and none but the choicest ingredients are ever allowed to enter into its composition. The result is, that its action is always uniform and reliable. Its effects upon the

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to ils original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

It neutralizes the minute particles of food todging in the mouth, and which are the prolific cause of decayed teeth, had breath, and unbeathry white-locking gums. Moreover, by the use of Morray & Lanman's Florida Water the breath is made sweet and pleasant, and the teeth white without any danger of injuring the enamel, a difficulty existing with nearly all the mouth lotions and powders for the teetb.
