MR. C. M. COUNSELL, the well-known Hamil-
ton banker and broker, has taken into his firm
two new partners, Messrs. W. H. and F. S.
Glassco. New and commodious offices have
been fitted up in the basement of the old pre-
mises, whose appearance is enhanced by a
plate-glass front. The offices are being equipped
by the Globe Furniture Co., of Walkerville;
the furniture is to be of oak, neatly carved and
finished in the modern style.

ALBERT VIPOND, of Hudson, Que., who has
been doing business also at Vars and Wen-
dover, Ont., as a general dealer, became embar-
rassed last year, and arranged a compromise at
60 cents on the dollar, the same being guaran-
teed by a Montreal wholesale firm, who were
creditors. This settlement does not seem to
have afforded Mr. V. much relief, and the stock
at Vars has been taken possession of under a
chattel mortgage, granted to the firm who se-
cured the composition, and is now advertised
for sale.

It is agreeable to observe the signs of recent
progress in London. Her residents are making
marked improvements in streets and buildings.
The old pavements and street-car rails are torn
up; new pavements, with steel rails, have taken
their place, and the electric system is now
nearly completed in every direction. London
will presently be among the foremost cities in
the Dominion for rapidity of transit in every
direction. Among the many fine new buildings
or improvements in old ones may be named the
elegant new offices and factory of D. S. Perrin
& Co., manufacturers of biscuits and candies.
The old front of the premises has been torn
down and a beautiful six story structure has
been built.

A WINDING-UP order has been applied for
and granted in the case of the Dominion
Blanket and Fibre Co., of Montreal, whose
fine new mill, recently built, is situated at
Beauharnois, Que. The company was chartered
in 1892, with an authorized capital of \$250,000,
of which \$125,000 was subscribed. It would
appear that their mill property, calculated to
cost about \$80,000, absorbed really more than
the subscribed capital. One of the directors
advanced a considerable amount on mortgage,
but friction developing on the board, bonds
were issued last year at a pretty low figure to
pay off the mortgagee, and an extension on the
general liabilities was negotiated. Of late there
has been no improvement in the state of their
finances, and the directors apparently being
unable to work harmoniously, it has been
deemed advisable that the company should be
liquidated, hence the above application, which
is unopposed.
