

## GUARANTEES

OF all the insurance plans on the market there is not one that offers more positive advantages than the Guaranteed Investment Plan of the Manufacturers Life Insurance Co. It is one of the few plans which offers the insurer guaranteed profits if death occurs during the investment period.

The Company offering this plan is, moreover, one of the best in America for the policy-holder. In 1901 its average interest rate on invested assets reached 5.08 per cent. Its death loss during the same year was \$5.60 per \$1,000 of insurance in force, whereas the average loss in Canada of all the Companies doing business there in 1901 was \$11.21 per \$1,000. Small death loss means large profits.
