DOMINION AID IN FINANCING PROVINCES.

An Ottawa despatch under date of Jan. 11th states that in order to relieve congestion in the Canadian investment market by reason of large loan offerings of provinces and municipalities, which may come up during the war, Sir Thomas White will arrange to make advances to provincial governments to assist in meeting matured obligations in the United States which may not be renewable there and for which the money must be found in Canada, and toward meeting, in part, their other necessary commitments.

This arrangement will diminish the amount of provincial government issues on the Canadian markets. By reducing these issues a better market for the large volume of municipal securities which must be sold during the coming year. When market conditions improve and securities are more in demand, provincial issues may be made and the advances made by the Dominion repaid.
