

## S.O. 43

more confidence in the federal government each day, I move, seconded by the hon. member for New Westminster-Coquitlam (Miss Jewett):

That the minister responsible for CMHC be decentralized to Vancouver in order to experience the housing emergency first-hand, where he will have to choose to between sleeping in a clothing box on the street, camping in a tent, or buying a condominium costing half a million dollars. I further move that he act now or be fired.

**Madam Speaker:** Is there unanimous consent for this motion?

**Some hon. Members:** Agreed.

**Some hon. Members:** No.

## AGRICULTURE

## PAYMENT OF INTEREST ON PFAA FUNDS—MOTION UNDER S.O. 43

**Mr. Doug Neil (Moose Jaw):** Madam Speaker, I, too, rise under the provisions of Standing Order 43 on a matter of urgent and pressing necessity. In view of the fact that the government has taken no steps to deal with the reference to the Standing Committee on Agriculture on the subject matter of Bill C-245, an act to repeal the PFA Act and set up a trust to invest \$9,066,972, presently in a non-interest bearing account known as the Prairie Farm Emergency Fund; and in view of the fact that each day of delay means a loss of over \$3,000 which should be available for research and development, I move, seconded by the hon. member for Wetaskiwin (Mr. Schellenberger):

That the government immediately begin paying interest at current government bond rates on the said \$9,066,972 of producers' funds until such a time as a trust for research and development is established.

**Madam Speaker:** Is there unanimous consent for this motion?

**Some hon. Members:** Agreed.

**Some hon. Members:** No.

## THE ECONOMY

## CALL FOR REVERSAL OF INTEREST RATE POLICY—MOTION UNDER S.O. 43

**Mr. Don Blenkarn (Mississauga South):** Madam Speaker, as a result of the government's high interest rate policy, first mortgage rates are now 17 per cent. The prime rate is once again 18 per cent and seems to be heading higher. Businesses of every kind are saddled with inflationary interest costs which are hampering production and causing tremendous distress. I therefore move, seconded by the hon. member for Hamilton-Wentworth (Mr. Scott):

That this House demand that the Minister of Finance reverse the damaging high interest rate policy that this government has imposed on business, home owners and consumers generally.

**Madam Speaker:** Is there unanimous consent for this motion?

**Some hon. Members:** Agreed.

**Some hon. Members:** No.

## ENERGY

## USE OF WASTE OIL TO GENERATE HEAT—MOTION UNDER S.O. 43

**Mr. Mel Gass (Malpeque):** Madam Speaker, I rise on a matter of urgent and pressing necessity. Thousands of service stations right across the country have problems disposing of their waste oil, and I have been informed that waste oil conversion is not covered under the Canadian Oil Substitution Program. In view of the fact that there exists an efficient waste oil burner, and considering that we need to conserve our conventional source of oil, I move, seconded by the hon. member for York North (Mr. Gamble):

That the Minister of Energy, Mines and Resources be instructed by this House to include the conversion of waste oil in the Canadian Oil Substitution Program, so that service stations can benefit, and make use of waste oil which would otherwise be disposed of.

**Madam Speaker:** Is there unanimous consent for this motion?

**Some hon. Members:** Agreed.

**Some hon. Members:** No.

## AUTOMOTIVE INDUSTRY

## MEASURES TO PREVENT DUMPING OF JAPANESE CARS ON CANADIAN MARKET—MOTION UNDER S.O. 43

**Mr. Ian Deans (Hamilton Mountain):** Madam Speaker, I rise under the provisions of Standing Order 43 on a matter which takes on increasing urgency. Given the desire by all Canadians to support a strong and vital manufacturing sector right across the country, and given the fact that Canada suffered in 1980 a \$2.1 billion deficit in trade of manufactured goods with Japan, and in light of further reports that indicate Japan may be forced to dump nearly 120,000 cars in the Canadian market, further damaging both our trade balance with the Japanese and our domestic auto industry, I move, seconded by the hon. member for Winnipeg-Birds Hill (Mr. Blaikie):

That the government outline immediately the measures it intends to take to prevent any dumping of cars into the Canadian market.

**Madam Speaker:** Is there unanimous consent for this motion?
