

ceeding to Esquimaux Harbour from the eastward, by running upon the leading mark, which has been given for clearing the shoals to the westward of Clear Water Point, until the east sides of Esquimaux and Walrus Islands come in one. Then steer for the N. E. side of Sea Cow Island, and haul round it, at the distance of not less than 2 cables, to the north-westward for the east entrance of the harbour.

GREEN ISLAND, small, low, covered with grass, with reefs *Green Island*. stretching north and south, 270 fathoms, but bold to the east and west, lies  $\frac{1}{2}$  of a mile W. N. W. from Walrus Island, and a third of a mile E. S. E. from Esquimaux Island.

GULL ISLAND lies a mile W.  $\frac{1}{2}$  S. from Green Island, which it *Gull Island*. resembles, excepting that it is rather smaller. It is distant half a mile from the S. E. point of Esquimaux Island to the S. W., but there is no passage for ships between them. The south point of Gull Island is bold, and may safely be passed at the distance of 2 cables.

ESQUIMAUX ISLAND,  $2\frac{1}{2}$  miles long parallel to the coast, and  $1\frac{1}{2}$  *Esquimaux Island*. miles wide, is 200 or 250 feet high towards its north side, sloping to the southward. From its S. W. point a shoal extends towards Fright Island, which also has a shoal stretching towards Esquimaux Island. The channel between these, leading north-eastward towards Esquimaux Harbour, (see art. 70,) is 380 fathoms wide, with extremely deep water, but as there are no leading marks for it, and the reefs on either side are extremely dangerous, it cannot be recommended.

FRIGHT ISLAND is nearly a mile from the west point of *Fright Island*. Esquimaux Island, and about two-thirds of a mile long, in a N. E. direction; it is bold on the south and S. W., on which sides vessels may pass at a cable's length, but reefs extend off it to the east, N. E., and N. W., to the distance of three cables.

QUIN ISLAND lies within, or N. E. by N. from Fright Island, *Quin Island*. from which it is distant a short half mile, it is nearly  $1\frac{1}{2}$  miles long in a N. N. E. direction, and its shores are bold, with the exception of a broad reef running out half a mile to the W. N. W. from its north point.

There is a channel, which is deep, but only two cables wide, *Fright Channel*. between Quin Island and the reefs off Fright Island. This channel may be used with a westerly wind for proceeding to Esquimaux Harbour, by hauling up to the east of Niapisca till the south
