Probable Extension of British United Moratorium Not Encouragin Factor, However.

NEW YORK, Aug. 21.—Probable extension of the British moratorium and unconfirmed reports that Germany purposes extending its suspension of specie payment for another three months constituted some of the more backward features of the world financial situation today. Otherwise conditions were calculated to make for the increasing confidence in the ultimate working out of the more serious problems which now confront the domestic markets.

markets.

A little more gold in the shape of bars was withdrawn for export, it was said, but its destination was not disclosed. The money market was even more nominal than in the early week, with no actual changes for time or call loans. Commercial paper was slightly active on further purchases by interior

Small Cash Loss. Small Cash Loss.

A very moderate loss of cash—probably less than \$3.000.000—is expected to be shown by the local banks this week, but the clearing house statement loses much of its significance in the absence of any exhibit of actual conditions. A further decrease of 1.7 per cent. from last week is shown in the local weekly bank clearings, which are almost 23 per cent. under the corresponding week of 1913.

Similar announcement is soon expected from the comptroller of New York City regarding municipal warrants largely held abroad, some of which mature in another three weeks.

WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 21.—Trading was quiet today, there being little or no speculative business. Prices were stronger, Liverpool cables being firmer than expected and American markets also showing strength, causing a feeling that wheat would be worth more money. Opening prices in wheat were 4c lower to 4c to higher and the range to noon was 4c to higher, and the range to noon was ½c to 1½c higher.

Cash grains closed: Wheat, ½c to ½c lower, the prices being for new crop, Oats unchanged to ½c higher. Barley unchanged to 1c higher, and flax 5c to 5½c lower.

MONTREAL GRAIN MARKET.

MONTREAL, Aug. 21.—A feature of the local grain market today was the stronger feeling in the market for oats. Prices scored a further advance of 1c per bushel, which is attributed to the limited supply available on spot and the small quantities offering from the west. The demand is fair for car lots. A firm feeling prevails in the flour market, with a good trade passing. Millfeed is active. Rolled oats have advanced 5c per barrel. There was a firmer feeling in butter today, and finest creamery sold at the auction sale at 27%c. There was quite a bit of excitement in the cheese market owing to the increased demand from English buyers at higher prices, which created keen competition between buyers at the boards in the country. Prices scored a sharp advance.

ket today some loans were renewed at 6 per cent, but the prevailing rate was nearer 7 per cent.

The foreign exchange situation was made more complicated by the utter lack of reichsmarks, suggesting absolute interruption with Berlin.

Sight drafts on London were up 2½ cents to 5.02½, while cables at 5.05, a rise of 3 cents, attested to the scarcity of bills. Brokers in exchange were discouraged at the failure of definite results from yesterday's conference and now look to Washington for a sclution of the problem.

Big Supporting Syndicate.

Regarding the stock exchange situation, there were rumors of the formation, in a tentative way, of a banking syndicate aggregating at least \$200.000,000, designed to support the market, once operations are resumed. Needless to say, these rumors lacked confirmation in authoritative quarters, but it is generally believed that protective measures of this or similar character will be undertaken before the exchange reopens.

Communication with Italy was more open today, a leading bank announcing its ability to forward credits to that country in moderate amounts. The most interesting news from abroad was the statement of the Bank of England, which showed increased gold holdings of \$25,000,000 and a gain in other securities of \$140,000,000, despite a further marked decrease of clearings.

### FIRM TONE IN **GRAIN MARKET**

Trade Was Light in Wheat, But Oats Displayed Activity.

CHICAGO, August 21.-The cereal narket advanced today, and all closed higher, wheat 2 3-8c to 2 7-8c, corn rowing of the September-December spread to a difference of 4 3-8c, as mpared with 5 3-4c at the close esterday. The market was strong all day and apparently had been over sold yesterday. The volume of trade was light, however. Factors in the strength were the demand for flour and strength of northwestern markets. The close was about ½c under the top. Winter wheat receipts were reported decreasing. Seaboard clearances were large. Argentina, Australian and East Indian shipments were half what they were a year ago.

The corn advance was based on sympathy with wheat and oats, rather bullish crop reports, limited country offerings and reports of export bids. The volume of business was small.

Oats Heavily Bought.

There was a large trade in oats on the resumption of export bids.. Cash and commission houses headed the buying, while a big elevator concernbought September and sold May. Country offerings were very light.

A feature of a rather eventless day in the provision pit was the investment buying of January lard.

Lard and ribs were offered freely by longs, because of a drop in the price of live hogs, but the lard was readily absorbed by packers. Pork closed 10c down, lard 7c to 17c higher, and ribs 2½c lower to 7½c higher.
