HONOR TO HUGH CLARK.

The Editor of The Kincardine Review Given a Good Send-Off on Leaving for Ottawa.

Kincardine, Nov. 5.—Mr. Hugh Clark, hitherto the editor of The Review of this town, left this morning to assume editorial charge of The Ottawa Citizen. Last evening he was waited upon by a large number of leading men from the town and surrounding townships, entirely irrespective of party, and presented with a very complimentary address, accompanied by a purse of $60 in gold. Mayor McPherson presided.

Addresses were delivered by the Mayor, Mr. John Tolmie, M.P., W. C. Loscombe, Q.C., W. M. Duck, ex-M.L.A., G. M. Mackendrick, Andrew Malcolm, David Henderson of Huron, Reeve E. Miller and many others, expressing their high sense of the services rendered to the community by Mr. Clark since his residence here. Mr. Clark was much affected by this spontaneous evidence of good will, and made a suitable reply, thanking his friends for their kindness. Subsequently he attended Northern Light Masonic Lodge, of which he is a member, and was entertained by his brethren, who turned out in large numbers at a farewell banquet. Several laudatory speeches were made and the best wishes expressed for Mr. Clark's future prosperity.

FIRE IN HER HOLD.

Red Star Liner Southwark Had Trouble After Leaving New York for Antwerp, but Got Back Safely.

New York, Nov. 5.—The Red Star Line steamer Southwark, Capt. Bence, which sailed from here on Wednesday for Antwerp, has returned, disabled.

The Southwark reached her pier at the foot of Fulton-street at 3.30 p.m. Vice-President Wright of the American Line said that at 7 o'clock yesterday morning, when the vessel was about 220 miles east of Sandy Hook, some of the crew saw smoke coming up through the ventilators in the forward part of the vessel, and at the same time there was a good deal of heat felt in that quarter. The crew immediately set to work, and dug down to the hatches in the lower hold, which is known as Number 1, where about 26 bales of cotton, with some grain, oats and dried brewers' grain were stowed. The smoke was very dense and the heat increasing, when steam was turned on into the otherwise air-tight compartment. In addition to this two lines of hose were brought to bear upon the hold and its contents, and through these lines more steam was propelled. About 10 o'clock Capt. Bence decided to turn about and go back to New York. On the way back the hold was flooded with water, which was pumped out again early this morning in order to lighten the ship sufficiently to enable her to cross the bar. The passengers were informed as to what had occurred, and there was no excitement among them at any time. Mr. Wright said that of course he could not say what damage had been done or when the ship would be ready to sail again, until the hold had been cleared up. There was no danger at any time of the fire spreading, as the modern improvements, such as bulkheads and air-tight compartments, reduced the danger by fire at sea to a minimum.

TORONTO CHURCH SCHOOL.

Annual Distribution of Prizes Yesterday—The Bishop of Toronto Presided.

The regular annual commencement exercises of the Toronto Church School were held yesterday afternoon in the basement of the school house, when the regular report was received and prizes were distributed Bisop Sweatman presided, and among others on the platform were Bishop Sullivan, Rev. Dr. Pearson, Rev. Dr. Langtry, Provost Welch, Dean Rigby, Prof. Vandersmissen, Rev. Richard Ashcroft.

Letters were read from Hon. A. S. Hardy and Hon. George W. Allan, Chancellor of Trinity University, regretting their inability to be present.

In opening the exercises the Bishop said the Church School had had a hard struggle for existence, but this year saw it in a better condition than at any previous time. The welcome change was owing, to a great extent, to the principal, Rev. F. L. Aborn.

Mr. Aborn then gave his annual report. The attendance of the school had largely increased during the year. The sad drowning of Robert McVitty at Kincardine, in July, had left one vacant chair. The work of the school could not be estimated by statistical reports. It could be seen only in the characters of the pupils. Bishop Sullivan addressed the boys and urged on them the necessity of laying good foundations for strong, manly characters. The school was now becoming a serious rival of the home in character building, hence the character of the school was of very great importance. The prizes were then distributed.

The spread between May oats and corn in Chicago is 7¼c, against 12c a short time ago. Traders are figuring that the difference will be further narrowed, and that oats will sell for nearly as much, if not as much, as corn. New York Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from New York:

The stock market suffered from a combination of Spanish scare and Democratic victory. Severe liquidation has been going on all day, resulting in a decline in value of from $1 to $5 per share throughout the list, and though there were one or two slight rallies, closing prices were near the lowest. The action of the Chamber of Commerce had more influence than anything else in scaring out lines of long stocks held by commission houses, and sales from this source have been very pronounced. There was no support. We think holders of stocks have been needlessly alarmed, and if no more unfavorable Spanish news comes the market should rally sharply. Business conditions, as they affect railroads, have undergone no change and are still favorable, as shown by the continued reports of good fat earnings, but the apprehension felt on account of this Spanish trouble outweighs all else, and that must be removed before values will advance to a point justified by earnings.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from New York:

London prices this morning on the whole were fairly firm, and in some cases showed considerable advances over previous close. Immediately the market opened here a heavy selling movement set in, based on the supposedly threatening position of the Cuban matter, and the Chamber of Commerce resolution calling for more coast defences. The attack brought heavy liquidation all through the list, and sharp decline, on which commission houses were considerable sellers. The market rallied feebly two or three times during the day, but did not recover much from the lowest, and closed feverish in temper with heavy net losses in all active stocks. Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat was weak to-day, while the news was favorable to higher prices. The seeding conditions have not shown the improvement expected after the recent heavy rains. It came too late to permit any extension of the area in the Mississippi Valley. Primary receipts larger than last year, 1,150,000 bushels, against 731,000 bushels last year. Total clearances to-day, wheat and flour, 572,000 bushels. There is evidently a large short interest in the market and the local crowd have been free sellers. The tendency has been to lower prices all day. New York reported 38 loads for export. The Northwest stocks show a large increase; estimates of 1,500,000 bushels increase in visible supply Monday, against 1,243,000 bushels a year ago. The Missouri State crop report on winter wheat for November is rather bullish, making acreage 24 per cent. below last year. We believe the market is in condition to have a sharp reaction on any little turn in sentiment.

The corn market was dull to-day, at a trifle lower range. The Missouri November crop report makes the corn crop 107,500,000 bushels, against 200,000,000 bushels in 1896. The loss is occasioned by drought. The clearances were 418,000 bushels. There was some good buying early, but later, on weakness of wheat, they turned sellers. Estimated corn to-morrow 510 cars.

Oats show good strength, and have held up well under the weakness of wheat. We believe they will do better. The cash demand continues good.

Provisions were very dull and steady. There was some scattered selling early on outside orders. Packers have bought moderately, and cash demand for meats is good. Hogs estimated for to-morrow 21,000.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from Chicago:

Wheat—The market ruled weak to-day, and closed about 1c lower than last night. Cables weaker, and there was no conspicuous demand for cash wheat anywhere. The situation looks favorable for more decline.

Corn—Market opened firm on the wet weather west and southwest, and on lighter receipts at this point and some advices of falling off in the general movement. There were good selling orders, however, and the speculative interest was not sufficiently large to absorb these offerings without some decline, which amounted to about ½c in December option.

Provisions—Opened steady at yesterday's closing prices. Receipts of hogs 4000 more than expected. Market ruled dull and towards the close became weak and lower. New York sold December lard. Estimated hogs to-morrow 20,000.
