There are now being offered for public subscription 100,000 Shares of the Treasury Stock at 50c Per Share, which will leave 400,000 Shares still in the treasury. There never has been in the world's history an industry that has made so many poor men rich in so short a time as this great wealth producer. Hundreds of instances can be given of men who have invested only a few dollars to start with, and, by keeping in touch with developments and making further investments as the conditions warranted have

become wealthy. Ten years ago this California Oil industry was so small that it was never mentioned outside the State. To-day it is attracting investments from every country in the world, and is paying in the neighborhood of forty million dollars a year in profits.

There has been no attempt made to unduly influence you, or to inflate you with wild enthusiasm, or to picture in highly glowing colors the untold and fabulous wealth stored away in the bowels of the earth. The management has honestly and conservatively outlined the possibilities of the enterprise.

limited the possibilities of the enterprise, and conscientiously told you of the progress, without any attempt to magnify; but we are sincere when we state that we believe that the DOMINION OIL COMPANY'S property is as good as any property in California, and we expect that all statements made relative thereto will be more than substantiated in the near future.
