ANOTHER UPTURN IN GRAIN PRICES

High Price of Hogs and Hot, Rainless Weather Have Bullish Effect.

Chicago, July 22.-With hog prices today equaling the topmost level ever touched the corn market developed sponding strength and closed firm 1 3-4c to 3 1-2c net higher, with Sept. 194 7-8 to 195 and Dec. 165 1-2 to 165 3-4. Oats gained 7-8c to 1 3-8 and

ascent made by the hog market. Even if there had been no other incentive ready resulted from prevailing dry hot weather. Advices from the southwest told of leaves curling and of bottoms firing because of the lack of moisture. At the same time forecasts gave no indication of relief dur.ng the next two days. Central Illinois, too, sent word of the crop going backward, wing to absence of rain. Under such imstances the instability of foreign exchange, altho closely attende failed as a check to the advance.

Despite want of export demand oats took an upward swing with corn. Country offerings were mainly held Provisions derived strength from grain and hogs. Business, however, was of only a scattered sort.

LIVE STOCK MARKET.

With a run of fresh cattle at the market yesterday, close to 1,000 head, coupled with the held over stuff which must have amounted to as much more trade was quiet and easier for anything, but the good to choice butchers and well-finished steers. There is altogether too much of the common, illinished stuff on the market, with no ap-

lower before a clearance is effected. It seems regrettable that so much of the common class should be still hanging around, but nobody seems to want it, except at lower levels.

The calf market is weaker and off from \$1 to \$1.50 from last week, but the sheep and lambs are steady, the lambs it anything firming up a bit, selling up to 20c and 21c, the latter the 10p.

There was a light run of hogs, around 600, and altho the buyers are talking lower prices, a dollar a cwt. off, they do not seem to be getting them. The American market is showing renewed strength and sales were made yesterday in at least two cases as shown in the market notes at almost record prices on the local exchange. Nevertheless the buyers affirm that these are not representative sales and that they are paying 22½c 1,0.b., and 23½c fed and watered, as intimated in their instructions.

SPECIAL MARKET NOTES

DAVIDSON MAKES FURTHER ADVANCE

Atlas is Also Strong Feature -Some Silver Stocks Are Reactionary.

advance was continued to 65½, making the net gain for the day 2½ points from the closing price of last week. Atlas, for which the closing bld on Monday was 22, sold yesterday at 25 with that figure bid for more and no stock on offer at the close. It is another than the close it is another than the close it is another than the close. Surely a Record.

Jos. McCurdy, for the Corbett, Hall, Coughlin Company, in all probability made a new record on the Union Stock Yards exchange yesterday when he sold for W. H. Gillespie of Orangeville, 72 hogs weighing in the aggregate 13,700 lb. at 24% c fed and watered. This is equivalent, of course, to 25c weighed of and as far as The World knows for a bunch like this was the high water mark in Toronto.

stock on offer at the close.

nounced that important strikes have been made on the Evelyn and No. 1 yeins of the Atlas, with much visible gold showing. Dome was easier between \$14.00 and \$13.90, while in New York the stock came out at \$13.75. The announcement that the Dome management has granted a minimum of \$4.00 a day to underground workers is hardly of a bullish nature as the wage increase will naturally lessen the wage increase will naturally lessen the profit margin on the low-grade ore, but in the matter of maintaining har-

FOURTH OF USUAL CROP PROSPECT IN ALBERTA

Saskatchewan May Have 35 to 40 Per Cent. of Normal Yield.

Winnipeg, July 22—Summing up the crop situation in the three prairie provinces, The Manitoba Free Press this morning in its third report this seat to morning in the time to make a state of the morning in the time to make a state of the considered as a statisfactory one, the start the grass.

Solvent of the summer one that come anticipated. Saskatchewan may have at the extreme best not more than a fourth of a normal crop, judging from the reports received by The Free Press up to a late hour last night. So far as feed is concerned there is still time for great improvement, and the recent rains in Saskatchewan in sure that that province, at least, its already benefiting. In [Alberta, the Calsatted counties of the constitution of the start the grass.

ON CHICAGO MARKET

Hughes. Harcourt and Company, 207 Royal Bank Building, received the following wive at the close of the Chicago market yesterday:

Corn—Scattered commission house buying of a good class based on the dry weather caused market to advance sharply. The trade is very sensitive and any change in crop, outlook for the worke will be quickly reflected in the December inture.

We Own and Offer:

\$1,750,000 Canadian Woollens, Limited

7% Cumulative Redeemable Sinking Fund **Preferred Shares**

The Preferred Shares are redeemable in full at par July 1st, 1941, or in full or in part at any prior date, after July 1st. 1922, either by drawings at 110 or in the open market at a price not in excess of 110. The Preferred dividend accumulates from 15th July, 1919, and will be payable quarterly 1st days of January, April, July and October. A sinking fund of 2 per cent. per year on the Preferred Share issue will be established commencing 1st July, 1921. Said Preference Shares are issued upon the condition that the Company covenants that no Mortgages, Bonds or Debentures will be issued by it having priority over the said Preference Shares excepting with the sanction of the holders of not less than two-thirds of the said Preference Shares for the time being issued and outstanding. It will thus be seen that the Preference Shares are practically the equivalent of First Mortgage Sinking Fund Bonds
