J. CURRY COMPANY, LIMITED, 24 King Street West, Toronto.

You Want an Absolutely Sure Investment

The investment that we have to offer you has passed beyond the experimental stage. It is a copper refinery, refining copper equal in purity to the very best product on the market.

And the supervision of this refinery is looked after by our principals, Mr. L. Sapery and Mr. H. Sapery, owners of the Syracuse Smelting Works.

Men who have spent years in experimenting and perfecting new methods for refining metals. And ours is the only copper refinery in Canada.

But you can participate in the profits from this refinery by buying shares in the Montreal Copper Co., Ltd. They sell for \$100 each and last year yielded over 17-2-3 per cent.

This proposition is open to investigation at any time. If you are in the city, telephone Main 1813, and we will make an appointment to meet you.

Or, write for our booklet—it contains interesting facts about copper.

The Wornout Nerves, The Weak Heart, The Tired Brain, The Wasted Strength.

What a multitude of women there are who feel that these words exactly fit their case. From early morn until late at night they have been on the go, year in and year out, attending to the daily household duties, looking after the wants of her children and spending the rest of her time attending to social and church work.

MILBURN'S HEART AND NERVE PILLS

They are the women's friend in every case of the kind. They will strengthen the weak heart, tone up the shaky nerves, make the brain clear, and restore the lost vitality.

Price of Oil. Pittsburg, April 2—Oil closed at \$1.58.

New York Cotton. Marshall, Spader & Co. wired J. G. Beatty, King Edward Hotel, at the close of the market.

The market was much less active to-day and reflected mixed views on nearly all influences.

Liverpool cables were about as expected in meeting our decline of Saturday, and 4000 bales were added to the spot sales.

Receipts were very light to-day, while weather news was somewhat better and a crop report from private sources of an unfavorable character was of some influence.

The market was dull and featureless with no evidence of decided support and the trading indicated a willingness on the part of professional operators to let the effect of improved weather conditions have full force on values.

The western belt forecast is somewhat threatening, but elsewhere fair.

While there is no immediate prospect or reason for a decline, the market appears to be disregarding extremely favorable influences and perhaps active speculative support is not so strong.

It is fair also to assume that the great activity displayed recently in the spot market will not be fully sustained. We believe operations confined to the latter options of the new crop will prove safer, and perhaps relatively more profitable.

Metal Markets. New York, April 2.—Fig-iron—Steady, \$18.75 to \$19.25; southern, \$18.75 to \$19.25. Copper—Firm, \$18.50 to \$19.25. Lead—Quiet, \$5.25 to \$5.45. Tin—Firm, \$27.37 1/2 to \$27.62 1/2. Plates market firm; spelter dull; domestic, \$6.12 1/2 to \$6.50.

PHILIPPINES FOR PHILIPPINES. Manila, April 2.—The inaugural of Henry C. Ide as governor-general took place to-day with civic and military display.

In the inaugural address Governor-General Ide said: "The Philippines must be the Philippines for the Philippines. This duty we have assumed. The tariff barriers existing between the home country and our island will be broken down."

Threatened General Strike. Warsaw, Russian Poland, April 2.—The revolutionists here have announced their intention to declare a general strike to prevent the government from contracting a new loan.

New York Cotton. Marshall, Spader & Co. wired J. G. Beatty, King Edward Hotel, at the close of the market.

The market was much less active to-day and reflected mixed views on nearly all influences.

Liverpool cables were about as expected in meeting our decline of Saturday, and 4000 bales were added to the spot sales.

Receipts were very light to-day, while weather news was somewhat better and a crop report from private sources of an unfavorable character was of some influence.

The market was dull and featureless with no evidence of decided support and the trading indicated a willingness on the part of professional operators to let the effect of improved weather conditions have full force on values.

The western belt forecast is somewhat threatening, but elsewhere fair.

While there is no immediate prospect or reason for a decline, the market appears to be disregarding extremely favorable influences and perhaps active speculative support is not so strong.

It is fair also to assume that the great activity displayed recently in the spot market will not be fully sustained. We believe operations confined to the latter options of the new crop will prove safer, and perhaps relatively more profitable.
