GOVERNMENT TELEPHONE

Will Be Constructed in Brandon in Near Future.

BRANDON, Man., June 7.—(Special.)—It is the intention of the provincial government to proceed immediately with the construction of a telephone system in the City of Brandon within the next few days.

Hon. J. H. Howden, minister of railways, who has charge of the telephone construction of the province, will visit Brandon, accompanied by a department engineer, to look over the ground to decide upon various matters of importance in connection with the construction of the Brandon system.

It is probable that the first long-distance line for the government system will be built from Brandon to Victoria, and from there to Hamilton and Erie, connecting up with the various municipalities systems which will be in operation along the route.

Funeral of Crossing Victim.

The funeral of Francis Hart, the second victim of the Bay-street crossing accident, took place yesterday at St. Michael's Cathedral at St. Catharines, Ontario.

The parents of the deceased have been communicated with by cable and letter, and the proper legal papers to enable the societies to take any action necessary in the case of both Fraser and Hart are now on the way from Scotland.

The death of these two men as the result of such a fatality has caused widespread interest in Scotland, and there is a very strong feeling everywhere, that the accident should be probed to the bottom.

The coroner's inquest on the coronial secretary will be asked if he can in any way assist in having a searching investigation held.

After Doctors Failed

Dr. Williams' Pink Pills Cured a Severe Case of Anemia and Weakness.

Anemia—poor watery blood—is the cause of most of the misery which afflicts mankind. The housewife especially falls an easy prey to it. The long hours and the constant necessity in performing her household duties sap her strength. She becomes run down and often suffers extreme misery. Dr. Williams' Pink Pills are the housewife's friend. They make new blood—lots of it—and pure blood banishes all women's ailments. Mrs. E. St. Germain, wife of a well known farmer of St. John des Chateaux, Que., found new strength through Dr. Williams' Pink Pills as she says: "A year ago I was extremely weak. I could not stand on my feet. I suffered from dizzy spells; my head ached; my blood was poor; I had a bad cough and the doctors feared I was going into consumption. I followed their treatment for some time but without relief. I grew discouraged and finally gave it up in despair. I was strongly advised by a friend to try Dr. Williams' Pink Pills, so I procured six boxes. Before they were all gone I felt relief. The headaches and dizziness became less frequent and I felt a little stronger. I continued the pills for a couple of months at the end of which time I had gained in weight; the pains had left me; my appetite was good and I felt as strong and well as I ever did. I cannot say too much in favor of Dr. Williams' Pink Pills for I certainly owe my good health to them."

The woman in the house, the man in the office, the boy or girl in the school will always find a friend in Dr. Williams' Pink Pills. These pills actually make new rich, red blood and good blood banishes rheumatism, general debility, kidney troubles and those aches and pains caused by overwork or overstudy; good blood builds up the tired unstrung nerves and makes pale thin cheeks rosy and healthy. The pills are sold at 50 cents a box or six boxes for \$2.50 by all medicine dealers or by mail from The Dr. Williams' Medicine Co., Brockville Ont.

HIGHER STIPEND

Continued From Page 1.

but no man could achieve his best who was unable to buy books, to travel, to meet the best men, to be a leader among his fellows.

Rev. J. R. VanWyck, Hamilton, gave a notable instance of a man in the college class of 1902 who accepted a lucrative commercial position.

Rev. Henry Young, M.A., Glasgow station, recited similar experiences. A. G. McKenzie, a farmer from Zorra, appealed to the farmer laymen to make the question their consideration, as on them lay the responsibility.

During the afternoon Justice Harlan of the supreme court of the United States was present. He felt that in a Presbyterian body while he listened to Dr. Lytle's appeal for money.

The foreign mission (eastern section) committee's report tonight was as usual picturesque in its detail. No less had occurred in the ranks and there is now a staff of 49 missionaries, and the educational work is most promising. The evangelist work is declared also to be satisfactory, and the work had inspired in various means of reaching the hearts of the natives.

In Honan, China, two more women missionaries had been asked for, and two more have been added in Macao.

Situation in India. Rev. W. A. Wilson of Indore gave a vivid sketch of conditions in modern India. With its 188 colleges, 25,000 students every year are turned loose after studying western literature, learning and sciences. Something was bound to happen from such conditions, and they found themselves disappointed in obtaining the government positions they expected they would obtain.

The Japanese war had had an immense influence. Collections were taken up near Indore to help the Japanese, and people were watching Russia, and argued that so much could be obtained by agitation there. The British government could also be coerced.

The people thought of their political rather than their real wrongs, which were social and religious. He regretted it was not a real spirit of unity that was being cultivated, but race feeling, every action of the government being twisted for the purpose of stirring up ill-feeling. It was well there were so many missionaries, for only the spirit of Christ could bridge the gap and abate racial animosity.

He had seen the Hindus at Vancouver. He had been treated so well in their country he felt he should welcome them to his.

The British government had made mistakes and was not so sympathetic with the aspirations of the people as careful of their physical and material

WILL CONTINUE MOVE TOWARD CHURCH UNION

Congregational Union Favors It—Mayor Denies Carrying Lieut-Governor's Letter 6 Months.

HAMILTON, June 7.—(Special.)—The Congregational Union this morning declared itself in favor of continuing the movement towards church union, also several speakers objected. Rev. Jos. McKillop, Montreal, was rather uncomplimentary to the Presbyterians. He said this denomination had tried to drag the Congregational Church in the mud. If the union were brought about, the Congregational Church would put itself into "a tangled web" for the bigger men of the other denomination would then step in and let the weight of the work fall on the shoulders of those who went into the union, at whose discomfort they would laugh. Church union was a thing for the distant future after the other denominations had experienced years of Christian piety. At this afternoon's session the annual meeting of the Congregational College of Canada was held. Rev. T. C. Daily presiding. The financial statement showed the receipts to be \$10,812, and there was a deficit of \$238. The endowment fund amounted to \$1500. Rev. Hugh Peckley and C. M. Black and C. Cushing were appointed governors for five years. A kick was made about the paper. The receipts amounted to \$1325.

Teamsters on Strike. This afternoon the 30 teamsters of Hendrie & Company were discharged. They met William Hendrie this afternoon, who told them that they could come back for several days. The men, who are striking for an increase from \$42 to \$45 a month, claim that the company is importing men from Toronto by offering them \$45 a month. They also say the company is offering \$2 a day for men to take the places of the strikers.

The concert given in Association Hall this evening for the benefit of the striking painters, was well attended. Aid societies were in charge. The concert was organized by the Frank E. Walker Company, was drawn for, and the lucky ticket turned out to be \$20.

Would Raise \$16,000. The Centenary Methodists have started a movement to raise \$16,000 for the purchase of a new building. It is to be used to pay the mortgage, and \$3000 for repairs.

Beautiful Picnic Grounds. At Brant Park and Pavilion, now corner Barton and Queen-streets, Hamilton, modern and strictly first-class. Rates \$1.50 to \$2.00 per day. Phone 1465.

INSPECT COBALT HOLDINGS.

Action of New York Capitalists Cause Much Speculation.

COBALT, Ont., June 7.—(Special.)—Earle and W. B. Thompson of New York and W. H. Linney, formerly superintendent at the Nipissing, have been in Cobalt to-day, inspecting the holdings of the Chamber-Russell-Ferland syndicate. The New Yorkers were accompanied by David Fasken of Toronto, whose inspection has caused much speculation as to their intentions.

It is known here that the parties named have acquired a large interest in the property. A rich find has been made at the Fisher-Epplert, and traced to within a few feet of the Beaver. The Fisher-Epplert belongs to the La-Rose merger.

PALE-FACED GIRLS.

Thousands Using Successful Cure for Paleness and Anemia.

The pallid girl always lacks appetite. What little she eats is badly digested.

Vital force must be increased, and general rebuilding must be done before she will feel like she ought.

Dr. Hamilton had invaluable experience in these cases and found nothing so prompt in building up the young women as his vegetable pills of Mandrake and Butternut.

Dr. Hamilton's Pills begin by cleansing the system and purifying the blood; they also improve digestion and render food nutritious. Additional nourishment is quickly supplied and the patient is fast strengthened and invigorated.

Full of spirit, ruddy and strong is the girl that respects her system by Dr. Hamilton's Pills.

The following recent letter from Miss E. M. McEwen of Hamilton speaks for itself:

"In using Dr. Hamilton's Pills I find my system is wonderfully built up. It is certainly the most effective remedy I ever used. I have now a good appetite, sleep more soundly, and awaken in the morning feeling quite refreshed. Formerly I felt tired and depressed. I looked as if a severe illness was near. Nothing could give quicker results than Dr. Hamilton's Pills and I strongly advise every young woman to use them. All dealers sell Dr. Hamilton's Pills 25c per box or five boxes for \$1. by mail from M. C. Folsom & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

MURDERER ORCHARD BORE RESPECTED NAME

Orwell People Who Know Him Say He Should Have Kept Identity Dark.

BRIGHTON, June 7.—(Special.)—Everybody here and in the little village of Wooler is talking about the awful crimes of Albert Horsley, alias Orchard, the assassin, who has confessed to the killing of 18 people.

Horsley is a member of a family that has lived in Northumberland County for many years, and his relations are well known.

His parents and grand-parents (long since dead) are lying in the Wooler graveyard. His brother and sisters reside there, and are highly respected.

Horsley was born at Wooler, where he attended the village school, afterwards working for several farmers. He was looked upon as a bright, steady lad. He next got employment in a cheese factory, where he met Miss Frances Fraser, whom he later made his wife. She taught him cheesemaking, and he worked in the cheese factories at Montgomery, Edwille, Hillon and Brighton.

During this period he was a total abstainer, of thrifty habits, and saved sufficient money to start in business for himself. He built a small factory about a mile west of Brighton, and all appearances were making fair progress, the season having been a good one, he had become a prosperous man. The premises and stock were insured. The insurance company made a thorough investigation into the cause of the fire, but was unable to discover any proof of incendiarism; consequently, Horsley was paid the insurance.

Having paid all his debts in the town, he disappeared suddenly with Hattie Simpson, wife of a tradesman of Brighton. So cleverly had he laid his plans that, altho the cheese factory was supposed to have been destroyed in the fire was traced to Belleville, neither the police nor the insurance authorities could obtain sufficient evidence to warrant his arrest.

Meanwhile, his wife, left with a young child, and without a cent, had to resume her former work of cheesemaking.

Mrs. Simpson was induced to return home, and Horsley, left to his own resources, seems to have plunged headlong into iniquity.

Having once assumed another name, residents consider he should have retained it, and remained silent about his past life in Ontario. His evidence, as given, has aroused the bitterest indignation, and the general opinion is that the death penalty is far too good a punishment for him. Others say he must be insane. Universal sympathy is freely expressed on all sides for his relatives, the erring lady, and her family.

The incident was well-nigh forgotten, and for him to resuscitate it, was to use the words of a prominent townsman, "an act of diabolical cruelty."

A brother representative interviewed his brother Joseph, and sister, Mrs. Snelgrove. They are both greatly distressed, and cannot conceive what impression could have brought him to such a depth of depravity.

"He was always a good sport and a good brother, and I cannot believe he could do any one of the things he says he has done," said his brother.

Asked if he knew where Mrs. Horsley and the child were, he said they were in Vancouver, doing all right. He had a letter from her only a few weeks ago.
