Evidently he falled to notice the approach of the eighne, as he kept on his way, regardless of the eighne's repeated whisting, and the excited shouts of a number of persons who witnessed the accident. The wagen was completely demolished and the contents scattered in every direction. The horses alone escaped without injury. Dr. Emmerson of Claude was immediately summoned, but when he arrived the unfortunate man was beyond the reach of his skill. A hasty examination showed that the skull had been fractured, the collar-bone broken in several places, and a number of fribs broken.

Cash Article in Demand, Late Options

Big Wheat Crop, But Farmers Are Freely-Corn and Provisions-Lo-

Saturday Evening, Aug. 13.

Cash and nearby deliveries of wheat have shown a strong upward tendency on the Chicago market during most of the past week, but at the same time the more remote options have been depressed. The cause for this is found in the fact that, while this year's crops are very large, old stocks are much depleted, and farmers are still refusing to make free deliveries, of new wheat. The shortage of immediate supplies has kept up present prices, but in the prospects of an American yield of over 600,000,000 bushels are seen the reasons for the low quotations on the September and December deliveries, which have declined 3c per bushel during the week. As the week closes the promise of large receipts next week has caused a recession in this month's article, and the outlook seems to be for lower prices for all deliveries.

The Liverpool prices reflect the same condition.

The Liverpool prices reflect the same condition. Spot and early delivery wheat is strong, and the later options are depressed. The Continental markets have acted along the same lines. The European markets have derived a slightly firmer tone the past day or two from reports of wholesale damage to Russian crops.

Wheat—The speculative wheat market has ruled moderately active and weak to-day, though there has been no great increase in actual receipts, but there is a good deal of talk about increased offerings and a good deal of selling of futures by cash interests said to be based on an increase of movement in the near future. Liverpool was a shade lower. Holiday at Paris, and Antwerp unchanged. The strain in the cash situation is confined mostly to hard wheat and for shipment not later than Aug. 20. It is likely by the 15th of the month all of this talk of tremendous strong

Reception to Their Late Rabbi.

A large congregation assembled at the Holy Blossom Synagogue Saturday, in honor of their former Rabbi, Rev. B. A. Elzas of Charleston, S. C., who occupied the pulpit of Rabbi Lazarus. A very eloquent sermon was preached on the lines of thought, that we obtain from life what we bring into it, and that happiness is only to be found in self renunciation. The choir turned out in full force under the leadership of Mr. Solomon, the Cantor. Mrs. Adele S. Youngheart rendered some solos very effectively.

My physician said my heart trouble was caused by rheumatism. It was with great difficulty that I could go upstairs, or even walk a short distance, because such exertion set my heart palpitating so violently that it made me positively sick. I could hardly breathe, and suffered greatly from smothering, often so badly that I dared not go to bed, and had to walk the floor all night for fear of suffocating. I became terribly nervous and weak, and was in a bad state, indeed, when I began taking Milburn's Heart and Nerve Pills. indeed, when I began Heart and Nerve Pills. bine to warrant much higher figures yet.

Comadian securities have been rather featureless this week, but the tendency of the market may be said to be still upwards. This is proven by the fact that, even in the absence of any general buying support from the outside public, most of the prominent stocks on the list have advanced at least fractionally since last Saturday. This buoyancy of the market is attributable, as has been before asserted, to the promising crop conditions, which entail in their train prospective prosperity for the average commercial enterprise. Two stocks are markedly strongeres. Two stocks are markedly strongeres. The former is quoted 7 points higher than a week ago, and the latter is booming again on the strength of the renewed assertion that the monthly dividend will be shortly increased to 3 per cent. C.P.R. continues weak, owing to the rate war complications.

The Toronto Exchange has this week beweak, owing to the rate war complications.

The Toronto Exchange has this week begun to pay more attention than heretofore to mining stocks. Extra sessions of the board are now held daily to deal in unlisted mining stocks, and several thousand shares change hands each day. There is little doubt that, with the development of the mining industry in Canada, transactions, in the shares of mining companies will come to form an important proportion of the business done on the Canadian exchanges.

The Minister of Education lent color to it when he assured in his speech that evening "Honorable gentlemen opposite that the ministers would not be without seats long." Mr. Richardson, it is said, is to be made Inspector of Fisheries under the new act, leaving Ald. Sheppard and Mr. Wilmott among those who also ran. Burglars on Chestnut-Street.

Burglars, effected an entrance into the home of Rev. L. Pearce, 192 Chestnut-street, early Saturday morning. The invaders got in by a kitchen window, and going up stairs succeeded in getting \$18 in bills and some silver from Mr. L'earce's pockets. The burglars then left, departing through the back door, which was found open in the morning. Canadian S & L...
