TO-DAY 10 TO 1 HOG KILLING Another one of my grand OCCASIONALS goes to-day. All arrangements have been made for another GRAND KILLING. The owner, trainer, jockey and my staff all know what I expect of them, and have given me the word that everything will come off JUST LIKE CLOCKWORK.

Good things like this one will be don't come often, for it is no easy matter to pull them off. You have to see about every horse that is going to start in the race in order that there will be NO CHANCE OF BEING THROWN DOWN, or have some rank outsider run in on you and split up the-combination. The kind I want for my "OCCASIONAL" is the kind that the owner says

that the owner says

When you get the word that way there is no outlet for excuses, and you have to make good. It takes a lot of time, ENERGY and MONEY to successfully pull off one of THESE COUPS. First, you have to have the RIGHT KIND of HORSE; then you've got to have the right man handling same, and one whom YOU CAN GAMBLE on getting a square deal from. Every indication points to reason that this horse should be

A 10 TO 1 SHOT So secretly has this horse been prepared that I feel positively sure that no one outside of direct stable connections knows anything about this horse's trial. He has been trained during the WEE HOURS of the morning, long before any of the railbirds were out of their beds. There is nothing in his past performances that would lead one to think he had a one to three chance. Hence I look for 10—1 or better; look for something better even than

MY LAST OCCASIONAL KING AVONDALE - - 10 TO 1, WON

This is the kind of bets my occasional clients get. The very best of INSIDE INFORMATION OBTAINABLE. There was positively no chance to dope King Avondale a winner on past performances; still one of the biggest killings of the season was made. The clients who subscribed to my occasional were in on it. When I notified them to get ready for this GRAND GOOD THING I said this was a POSITIVE WINNER.
