POPULAR YOUNG MAN FAREWELLED

J. P. McInerney Receives a
Wrist Watch at Function in Renforth.

The club house of the Renforth Outing Association was the scene of a most enjoyable affair last evening, when members and others numbering in the vicinity of 100, gathered in honor of J. P. "Bud" McInerney, who will leave on Thursday for Scotland, where he will take up the study of medicine. Cards and dancing were enjoyed until eleven o'clock, when all assembled in the main room and William C. Clarke, on behalf of the Renforth Tennis Club, spoke of "Bud's" departure, his success in study and sport, and the great loss to the club and community in general in his departure and extended the best wishes of all to him for a successful future. On behalf of the tennis club he presented to him a wrist watch as a token of the esteem in which he was held by his friends.

In the absence of Louis C. Armstrong, president of the Renforth Athletic and Outing Association, Fred J. Nisbet spoke for the organization and expressed sentiments as put forth by Mr. Clarke.

"Bud," who appeared to be in a difficult situation, extricated himself in bright and witty manner, and responded to the appeals made by his friends to a speech, in a few well chosen words. After three hearty cheers had been given for the departing guest, the men gathered around and sang "For He's a Jolly Good Fellow." A delightful lunch was then served by the ladies of the tennis club and dancing was continued until midnight.

In the departure of "Bud" McInerney, New Brunswick loses for a time a fine young man and sport exponent. It is remembered what he did with the High School football team last year, when, having no facilities to work with, he got a team together and came within a point of winning the interscholastic championship. In field and track sports he excels and at present holds the school shot put for Canada. In tennis he ranks among the first four in the province. Yet in his teens, even greater things may be expected of him. His career will be closely watched by all those who knew him at home. He carries with him the best wishes of all for a prosperous future.

FORD IN CITY FOR SAINTS PLAYERS

Baseball Games in Maine—
St. Peter's May Go
to Boston.

Joseph Ford, manager of the Fredrickton baseball team, arrived in the city today. He is here to secure some players to accompany his team to South Brewer, Me., where they are scheduled to play on Thursday, Friday and Saturday of this week. He has secured Jerry McCarthy, who played third base for St. Peter's, and is also anxious to sign a local catcher for the trip. He announced that Jimmy McCourt, his star pitcher, and Chas. O'Brien, his catcher, will sail from here tomorrow morning on the St. S. Governor Dingy for their homes in Boston. Dillon has already gone home as he had business matters to attend to. Mr. Ford has arranged to have McCourt join the team on Saturday in time to pitch that afternoon and is also ending for Ralph Price, formerly of St. Peter's, to join him for the series.

At a meeting of St. Peter's team last evening arrangements were made to go to St. Stephen on Friday to play two games. It is understood that only local players will accompany the team. No arrangements were made regarding any future local games.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "we had a feller out here from town fer two or three days an' he hed the fishin' bug. When he found out they was perch an' rock bass in the river he went an' dug worms an' fixed up a line an' took the old boat an' started out. The fust day he didn't catch a thing. The next mornin' he was up with the crows an' hed quite a streak o' luck. Hiram hed to fry perch an' rock bass for breakfast. D'you know—that feller almost lived in that old boat—an' said he wouldn't swap it fer a lease o' the best trout creek in New Brunswick. Folks here never thinks about fishin'—but there was a feller that thought it was about the finest thing we hed. I guess we'll hev to git into the tourist book an' tell the world what we got out here."

"Hiram," said the reporter, "if you knew how many perch, and chubs, and the fishing was good—you would expect to find bones sticking out all over me."

"Well," said Hiram, "I'll say right now I wouldn't mind gittin' into the old boat fer a spell myself." "And Mrs. Hornbeam will get out the fryin'-pan—I'm sure."

"You men'll have to clean the fish," said Mrs. Hornbeam with decision. "You won't get me to scale any perch or rock bass, either. Anybody would think you was two boys—the way you talk."

"So we be," quoth Hiram. "An' I got a reel boy's jack-knife right here. Come along—I got some lines out in the shed."

"Does the boat leak?" asked the reporter.

"Sure," said Hiram.

"Then there is nothing lacking," said the reporter. "Hurry up—we ought to be there now."

Duddy, W. A. Lockhart, H. H. Mott and A. J. Parker, secretary. TO CHANGE ON OCTOBER 1. After October 1 next, postage stamps will not be accepted for war duty on checks, receipts and bank drafts. Furthermore, it is announced by the post office department, the excise stamps used for the purpose will be sold at post offices. This, it is contended, would lead to confusion, as postal matter might be mailed with excise stamps instead with the correct postal stamps. The excise stamps are to be sold at banks "and such other places as may be designated by the department of customs and excise." On money orders and postal notes the war tax will continue to be paid by affixing postage stamps.

WEST SIDE WATER.

Commissioner Wigmore, accompanied by the city engineer, G. G. Hare and the superintendent of the water and sewerage department, Walter Thompson, paid a visit to Menzies Lake yesterday afternoon to look over the water supply of good water to the Carleton supply. The Commissioner reports that he found a body of water larger than Spruce Lake, lying at a considerably higher altitude and the water of excellent quality. He has under consideration the cutting of a tunnel from Menzies to Ludgate to ensure a plentiful supply of good water at all times. It would also ensure a better pressure on the heights on the West Side.

HYDRO NEWS.

This district will be served from the Apohaqui sub-station and the primary lines will be about 14½ miles from Apohaqui to Millstream and Berwick. It was also reported that the transmission line to handle 66,000 volts had been installed at the Manawagonish Road sub-station and this would allow the commission to carry this voltage on both lines from Musquash, where formerly they had to carry 18,200 volts on one line to serve the Westfield district.
