

**COMMITTS SUICIDE
IN EVENING GOWN**

**Wealthy New York Woman
Makes Careful Preparation
for Ending Life.**

Boston, Dec. 6.—After arraying herself in a pink silk evening gown and satin slippers, Mrs. Mary Elizabeth Fuller, a wealthy woman of New York and Boston, climbed on a chair, tied a rope about her neck, looped it over a curtain pole, then kicked the chair from under her feet and died from strangulation. Her lifeless body was discovered in a suite of rooms in the Hotel Lenox. Beautiful and of a well-to-do family in New York, Mrs. Fuller, who was about thirty-five years old, calmly registered at the Lenox as Mrs. Mary Wilson, 100 West 92nd street, New York, went to her room, attired herself in her death robe of gay colors, wrote her will, looked about for a convenient place to hang herself and then did so.

Mrs. Fuller carried only a handbag when she arrived at the hotel. Investigation showed that only a clothesline, a wood drill and a hook were in the bag. In the room she had engaged, she used the clothesline and part of a window cord and a portiere pole with which to fashion her gallows. Then wearing her pink silk gown and satin slippers she sat down at a desk and wrote her will, addressing it to Attorney Frank P. Ryan, of Worcester.

Concluding her writing the woman evidently carried the chair to a spot beneath the curtain pole, stepped upon it, adjusted the noose about her neck and kicked away the chair.

**DEATH SEPARATES TWINS
BY BUT FEW HOURS**

Ramsgate, N. B., Dec. 6.—An extraordinary chain of coincidences has ended with the death of the two daughters of J. D. Smith. They were twins, married at the same time and died from heart trouble at the age of thirty-two years within a few hours of each other.

Forty Executed Daily.

Paris, Dec. 6.—No fewer than 1,200 persons, an average of forty a day, were sentenced to death by Moscow revolutionary tribunals and executed in Moscow during September, according to the official Soviet organ, "Izvestia."

The same paper throws light on the desperate fuel situation in Moscow by stating that \$5,000 wooden houses have been torn down in Moscow to provide fuel for the people.

**"And Mother Says to Send Over
Some Pure Gold Jelly Powders"**

The children know the name of their favourite dessert and never tire of it. You can't fool them with imitations, either. The rich flavour of luscious fruits in genuine Pure Gold Jellies is not easily forgotten.

The kiddies—and grown folks as well, have a great habit of sending their plates back for more whenever these delicacies are served. Give them all they want. They're absolutely pure, and so good for them. Better get a supply and have them handy. Raspberry, strawberry, lemon, orange, red currant, pineapple, cherry and vanilla.

**SKIRTS STAY
SHORT, FOR THE
SPRING ANYHOW**

Suggestion of More Fullness, However, is the Approved Style.

Cleveland, Dec. 6.—The semi-annual meeting of the National Cloak, Suit and Skirt Manufacturers' Association here was attended by more than 300 delegates, who discussed the new fashions for Spring, as displayed by living models at the style show this afternoon.

No very radical changes are shown from the lines of Fall and Winter garments. Skirts continue short and straight. The slender silhouette predominates, and the youthful spirit is expressed in many garments shown. "Individuality is the keynote of early Spring apparel," said Philip Frankel, executive secretary of the association.

A wide choice in suits was displayed in straight boxy jackets and closer fitting suit coats, with ripples at the dices and flat hanging panels front and back. Eton and bolero models give new effects with scallops, uneven hems and cost edges. Tailored suits, with and without belts are cut severely slender. Skirts are short, with a suggestion of more fullness; in some cases with panels, tunics, hem trimming and pleatings.

**PRECIOUS METALS
OF NOVA SCOTIA**

New Glasgow, N. S., Dec. 6.—Dirt "paying five hundred dollars a ton, a rich mixture of silver and lead chlorides" has failed to quicken the pulses of blue-noses a single beat, and there is no mad rush to the scene of its reported discovery near Gordon Summit, Pictou county.

Unlike the gold-bearing quartz of Guyaboro, which is hard and granitic in appearance, the samples of the mineral from the "Rainbow Lead" are soft and break up quite easily. The cost of mining is therefore small, and even at a much lower production per ton than is estimated through the various assays made," says the New Glasgow News, "it should be a richly paying proposition from the start."

The latest discovery of gold in Nova Scotia recalls to old timers the days when digging for the precious metal in Halifax and Guyaboro counties was paying dividends. The province was never so Eldorado, but a dozen years ago when labor and material for the cautious shallow mining were cheap, Nova Scotia sold her gold for coin of the realm.

"It doesn't pay now," said a Nova Scotian who knows as much about the gold-mining history of the province as anybody, "for the same reason that it doesn't pay to mine fairly rich dirt in Africa and Australia. Perhaps when

labor is cheaper again and water power is available, or when the price of gold goes up, if it ever does, then the mines may be worked again. It doesn't pay to produce gold for sale at \$20 an ounce if it costs \$40 to get the ounce."

Other opinion holds that the gold mines of the province, full of pockets where the miners "struck it rich," were a delusion and a snare to the unwary investor of the good old days. Scores of people lost their savings in unfortunate plunges on "pockets" that eventually petered out.

RESIDENCE FOR A SMALL NUMBER OF STUDENTS existed at the university until 1904 when, on account of a clash between residential students and the professor in charge, it was abolished.

RESIDENCE FOR TWELVE DAYS. London, Eng., Dec. 6.—Leslie Scott, an attorney, spoke for 12 days steady in a suit over damages arising from a mountain slide, which it is alleged was caused by negligence. The cost of the case, which has been bitterly fought, will be \$850,000.

**U. N. B. STUDENTS
THINK BOARD IN
CITY TOO HIGH**

Hold a Meeting on Matter of Charges in Fredericton—Some of the Possibilities.

The students association of the University of New Brunswick, Fredericton, at a general meeting held on last Friday, considered the matter of rates for board charged to students in Fredericton. The argument was advanced that the cost of living had decreased to a considerable extent but that there had been no corresponding decrease in the rate of board.

A committee of the association was appointed to take up the matter and wait upon the various people of the city with whom university students board. The prevailing rate of board was said to be \$9 per week, last year \$8. The students suggested that the rate should be reduced to not more than what it was last year.

It was said the agitation may result in a movement for the establishment of a university residence. Failing that there may be a movement for the establishment of students apartment houses under student management.

**EATON FIRM NOT
TO CHANGE HANDS**

Toronto, Dec. 5.—Rumors respecting the activities of the T. Eaton Co., Ltd., have been current of late. One was to the effect that a large American company had either bought out the Eaton firm or was negotiating for its purchase. It is announced that these reports are without foundation and that the plant

will not shut down as has been rumored. The company has had several offers for its property in Toronto, Winnipeg and Moncton, but it is understood that the company is not desirous of making any change in the present control.

LADY ASTOR PLAYS OWN SEX. London, Eng., Dec. 6.—Lady Astor says one lesson which women could learn from men was loyalty. She de-

clared there was little loyalty among women now. She said a man would vote for a man, but women find fault with candidates because they are women. Women could also learn about dress from men, she said.

Horlick's the Original Malted Milk. Avoid Imitations and Substitutes

Red Rose Tea consists chiefly of selected Assams blended with the finest Ceylons.

Red Rose Coffee—crushed—not ground

**The Evidence for
Neolin Soles**

Since using Neolin Soles I have been getting from eight months' service—and have not yet had a pair of shoes re-soled. In fact I have never worn through a pair of Neolin Soles.

W. E. Trimble, Toronto, Ont.

Neolin Soles have given me absolute satisfaction. Shoes having Neolin Soles wear as long and in most cases wear longer than leather. I have a large demand for men's shoes made on this process.

G. W. Wilson, Markham, Ont.

About a year ago I had a pair of heavy Neolin Soles (190) applied at the Truro Shoe Repairing Factory. I have worn these almost every day, but they are about through now. I consider this excellent service, as I weigh 200 pounds and I am on my feet most of the time in the store.

E. G. Bishop, Truro, N.S.

Had a pair of shoes re-soled with full Neolin Soles and they gave good satisfaction—wearing them steadily for a year and a half. I believe they are better than leather.

N. K. Kennedy, Adanac Footwear, Limited, Sask.

I have found Neolin Soles perfectly satisfactory in every way, and would sooner have them than leather as they are not as slippery and stiff as leather. They wear well, outlasting the upper in some cases. I am a carpenter by trade and find Neolin Soles stand the rough work.

Leon Sherb, R.R. No. 4, Bright, Ont.

Through advertising we have stated the case for Neolin Soles. We have told you, from our own experience, that—

Neolin Soles wear very long, and make it possible for you to do with fewer shoes.

Neolin Soles are light and flexible and are always comfortable from the start.

Neolin Soles are waterproof and protect against wet feet.

Here is the evidence from other people's experience.

Read these letters. Each is someone's answer to the question of comfort and durability in footwear.

Go to your shoe store and see shoes on Neolin Soles—shoes for men, women, and children. They come in many styles.

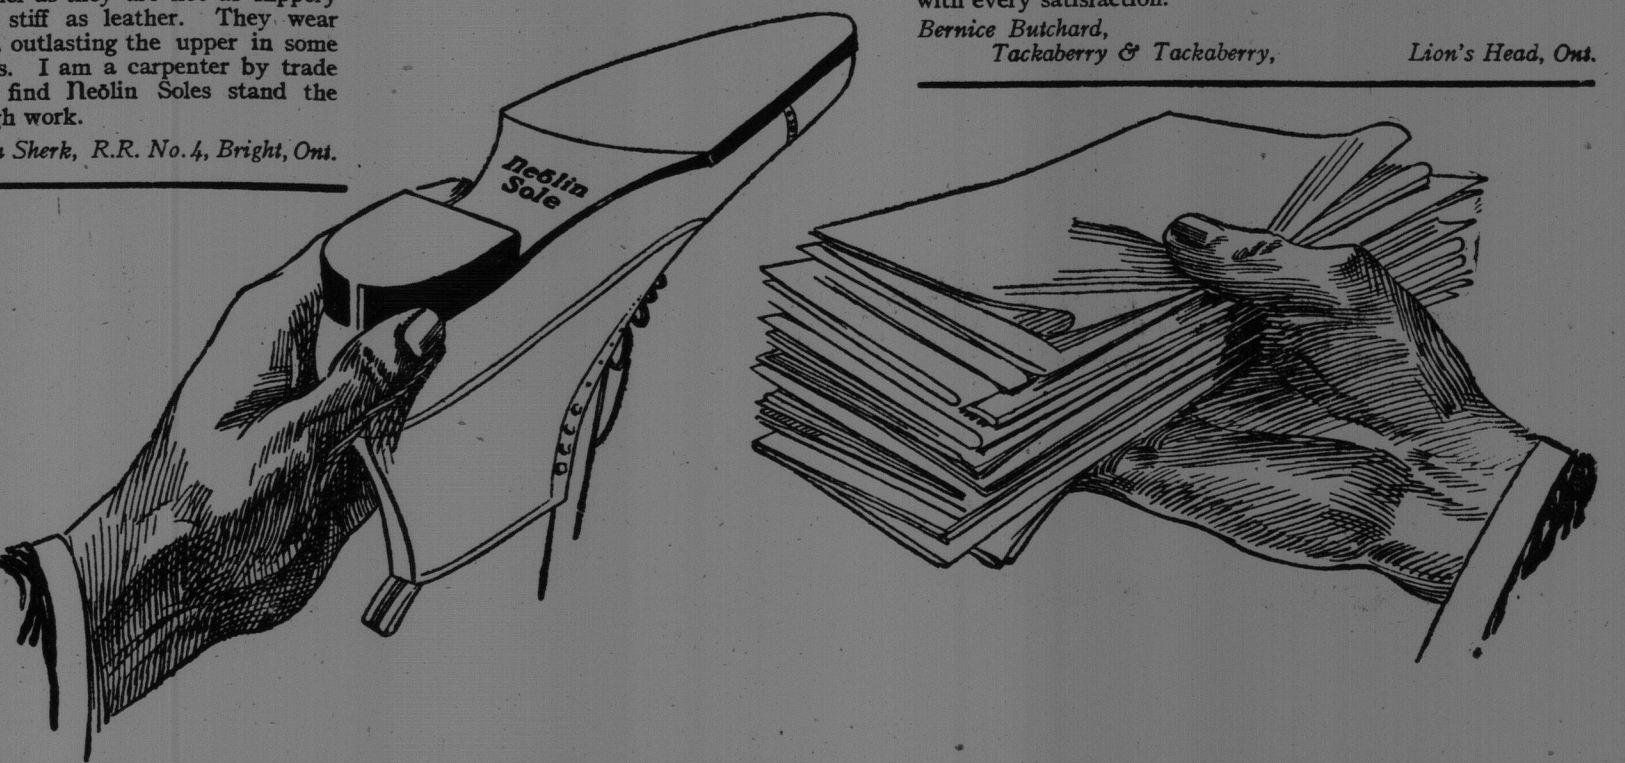

Neolin Soles—half-soles and full-soles—are nailed or sewn on all kinds of shoes by manufacturers, repairmen and at home.

Neolin Soles have been a great success—so they have imitators. But the methods and materials that make Neolin Soles superior are known only to Goodyear—you can be sure of Neolin Sole quality only when you see the trade-mark "Neolin" on the bottom of the Sole.

The Goodyear Tire & Rubber Co. of Canada, Limited

I am pleased to state that I have worn Neolin Sole shoes with every satisfaction.

Bernice Butchard, Tackaberry & Tackaberry, Lion's Head, Ont.

**Here's
What She Wants
for Christmas**

A sensible gift that will make her happier all the year. An O-Cedar Polish Mop to make her housework easier; to give her floors and woodwork a brilliant lasting polish and save reaching for the high places and stooping to get under chairs or in corners.

This is a Christmas gift she will really appreciate.

Give her an O-Cedar Polish Mop with 54-inch handle. It comes in \$2.00; and a can of O-Cedar Polish \$1.50 or \$3.50 size.

O-Cedar Polish by the bottle, 50c and 60c.
