SENATOR LODGE TO THE RESCUE

Introduces Bill in Senate to Prohibit Unauthorized "Fake" Photographs—Heavy Penalties Provided

Washington, July 30—Senator Lodge introduced yesterday a bill prohibiting the making, showing or distribution of unauthorized photographs.

Senator Lodge's bill is aimed at photographers in various sections of the country who make "fake" pictures of various persons in the act of shaking hands with the president.

A man now being sought by the immigration authorities for "white-slave" trading has used a "fake" picture of himself shaking hands with President Taft to impress and terrify his victims.

A thriving business in such photographs had been done in Washington for several years until Attorney-General Wickham recently stopped it.

Forty children from the vacation schools in New York city are to be inducted for the rest of the summer in a building known as the Museum of Safety on how to cope with lives in city streets.

There will be small trolley cars and dolls to demonstrate to the youngsters how to get off and on a car. The danger of running in front of vehicles will also be explained.

ANOTHER CASE OF SWALLOWING FALSE TEETH

Lynn Woman Suffers Similar Accident to That of Fredericton Maa Yesterday

Boston, July 30—Mrs. Carrie Smith, a cook at the Bellocast Chambers in South Common street, Lynn, will probably starve to death unless her false teeth, which are lodged in the lower end of her oesophagus, can be removed.

Mrs. Smith is at the Lynn hospital where X-ray examinations have been made to determine just how to pull the teeth, and to find out if it will be possible for Mrs. Smith to take liquid food.

Mrs. Smith was obliged to leave work at the Bellocast Chambers, where she was preparing breakfast Wednesday morning on account of a sudden illness.

At her room at 8 Fowick court, she was seized with a fit of coughing. It is believed that the coughing cracked the plate in her upper set of false teeth. Any way, she swallowed the teeth.

The woman can breathe and she can, though with some difficulty, swallow liquids. X-ray photos have been made and operations will be postponed until after a study of the prints from those negatives.

An official investigation into the claim that Jose Calvario, who died a few days ago at Turpan, Mex., was 185 years old has been made, and it is announced that it was fully established by church records that he was born in 1727.

For more than 75 years before his death Calvario was known to the people of the town where he lived as the oldest man in the world. He was active until a few days before his death. It is said.

The Chicago Tax Board of Review has decided that a man who raises 20 children on \$23 a week, should not be made to pay taxes. The decision was in the case of H. Finkelshtain, a tailor, who said 19 of his children, six of them girls, were going to school.

S. F. Chaplin, 71 years old, of Danvers, Me., who claims to be the champion hay maker for a period of his age in that part of the state, pitched on six loads of hay in the field and pitched off two loads in the barn one day last week.

A solemn festival was celebrated Tuesday by the delegates to the Student Congress in the historical University of San Marcos, Lima, Peru, which was founded in 1528, and is the oldest university in the New World.

A delegate from California delivered an address which was greeted with warm applause.
