PROSPECTUS.

Trade) the shortest and cheapest route for freight from Western Canada to the Atlantic at Saint John where there is an open harbor all the year

other articles of consumption upon Western Canada, and nearly all this trailie will come over this railway, because in addition to the shortness of the route, it will avoid the necessity of forwarding in bond through the United States, and also extra handling, trainsh pment and insurance. There will be a return traffic in West India produce, European and other imported goods. &c.

VI. The local traffic will be renamerative, the proposed line passing through a comparatively well settled and pros, erous district, especialtified with abundant, water power, with pientified timber and other raw materians for manuscutures, and with undeveloped agricultural resources capable of sustaining a very large population.

VII. The lands granted by New Brunswick will immediately produce by sales, leaves, and indiverse to the Companies apart from the traffic of the Railway.

VIII. It is estimated that the increased value of these lands will redeem the debeature, leave the Railway unencumbered in the hands of the Shareholders, and at \$2.50 per acre pay for the cost of the Railway, to whom will be given free grants of land upon condition of settlement.

X. It is intended to import laborers to work upon the Railway, to whom will be given free grants of land upon condition of settlement.

X. It is also the intention of the Company to import and induce settlers in every possible way, by sales of lands allow rates and long credits, thus value and returns from other Railways under similar contents of the same time. Specifications are being prepared and can be had within a fewl days on application at the places above named.

Tenders narked "Lenders for Bridges" and additional spans of one hundred feet, and for spans of eighty feet will also be, recived at the same time. Specifications are being prepared and can be had within a fewl days on application at the places above named.
