**Warning to Exhibition Visitors.**  
We are obliged each exhibition year to turn away hundreds who come to St. John for the sole purpose of having their teeth attended to, but who neglect the main object of their visit until a few days before returning home.

We would therefore advise all to call early and avoid the usual rush so that they may not be compelled to return home disappointed at being unable to avail themselves of our SUPERIOR WORKMANSHIP AND ATTRACTIVE FEES.

Parents should remember that the variations are drawing rapidly to a close, and that as they value the health and welfare of their own children and those of others they should see to it that their children's teeth are in proper condition. We can put their teeth in the condition they should be, without affording them any pain and we can do it reasonably.

### THE CHIPMAN MOOSE

NOT SO BAD AFTER ALL

Dan Brown Will Not Change His Politics  
—Crops Are Not as Good as Usual.

A well known farmer from Chipman dropped into the Star office today to talk about moose and deer. He had read the yarn about the moose that has been worrying Daniel Brown and said he was afraid Dr. Hay had been imagining things. Mr. Brown certainly has had trouble with that moose, and serious trouble, but the case is not so bad as represented. The animal goes on to say that moose and deer are very plentiful and that the old proverb about the funny sights a man sees when he hasn't got a gun will never be better applied than in the Chipman district at the present time.

The moose don't care a hang for the farmers, but simply walk through the fields, nibble off a few grains of wheat, oats, or corn, just as it suits their appetites, and then saunter into the woods, knowing perfectly well that the same season is not yet open and won't be for another ten days, so that Dr. Hay has that much longer in which to spin yarns.

It is added that crops around Chipman are none too good. They promised very well in the spring, but the unusually dry season has resulted in the grain not filling while the fine weather has ripened it very quickly and the crop will be light. Potatoes, too, will be small.

### A SERIOUS ACCIDENT

One respected citizen who started for the St. John Exhibition met with misfortune on the way. George Phillips, of Knowltonville, Carleton county, was walking through the railroad yard at that place yesterday on his way to take the train for St. John. While going along the track, he was struck by a locomotive. One of his arms was broken, and his head was very severely cut and he sustained other cuts and bruises besides internal injuries. He was taken to his home and Dr. McIntosh is now in attendance. Mr. Phillips is in a very precarious condition. The accident was due to the fact that he is quite deaf and in spite of warning whistles from the train did not realize his danger. No blame is attached to the train hands.
