THE GOVERNMENT'S NEGLECT GLOUCESTER COUNTY

Has Embittered Members MAGISTRATE ROASTS from That Constituency Calls the Prisoners All Sorts Service to the Island

FREDERICTON, N. B., May 29.—
The independent members for Gloucester are up in arms against the government of New Brunswick because the subsidy for the steamer Beaver which was granted by the late government this year is to be cut off. This steamer plies between the islands of Shippegan and Miscou and the mainland and is practically the only means of communication the people of these islands which are rapidly growing in importance, have. For many years little attention was given to the development of these two islands which form part of the parish of Shippegan. Their growing importance was first recognized some years ago when Chief Commissioner Labillois, built a road in Miscou, the first they ever had which has proved a great convenience to the people and facilited further settlement. part of the new government in the future of Gloucester, inspired perhaps by purely political motives.

Dr. Sormany who waited upon Mr. Flemming in connection with the subsidy was informed that the government had decided not to continue it and were sustained in this course by Messrs. Stewart and Wetzell, who had been government candidates in the recent election. These gentlemen, it will be remembered, lost their deposits. The fact that they have advised the government in the course taken indicates that the refusal to grant the subsidy or to reconsider the matter is based entirely on political grounds and given a nasty complexion to the whole affair. Hitherto the commercial needs of a community have been separated from political issues in this province, but it now looks as if subsidies were to be granted in return for political support, and refused when that support was either withdrawn or not given.

In his enquiry made to the government yesterday also, the question if the fact that the independent members for Gloucester voted with the oposition on the highway bill had anything to do with the refusal on the part of the government to continue the subsidy, there are several other enquiries along the same lipe involved in the question, the answers to which are awaited with considerable interest by all parties in the house.

HALIFAX, N. S., May 29. — Word was received today by President Lithgow from the Secretary of the Canadian committee at Ottawa that the English definition of amateur rules govern the Olympic trials and as they do not allow of any one but "Gentlemen," that is persons who do not work for a living taking part, Halifax is cut out completely. The announcement has caused a great deal of comment and much bitter feeling. Our local clubs had assurances that the Canadian definition would apply but the clubs had assurances that the Canadian definition would apply but the latest announcement is most disappointing. FREDERICTON, N. B., May 29.

The public accounts committee of the legislature held an interesting session this morning, Dr. Pugsley's tranvactions with the province being the matter chiefly under discussion. Mr. Smith a member of the committee who was not present yesterday afternoon, said he wished today to more thoroughly look into the matter. He said that he had seen it stated in this morning's papers that the ex-Attorney General forwarded a letter dated the 27th of February last to the province which contained two checks amounting to who can qualify as athletes.

The department until the 9th of March. He thought the circumstance most peculiar, the election was held on the 3rd of March and the facts to his mind justified the conclusion that the letter and checks had been antedated. Mr. Labillois did not think that Mr. Smith had any right to say this as he, Labillois, had found in his long as he, L

Mr. Babbitt said he had not noticed the Ottawa mark, as it was not his custom to do so. All he could say was that he remembered that the letter bore the date of 27th of February, and it was received 9th of March, as he deposited the checks as soon as he received them, and that was the date they were put in the bank.

Hon. Mr. Flemming was called and stated that the envelope had never come into his possession. When he assumed office the two letters of Dr. Pugsley were handed to him in one

sumed office the two letters of Dr. Pugsley were handed to him in one large envelope. The first letter dated February 22, contained the statement of an account against the province for \$3670, and the other letter February 27th, referred to the two enclosed cheeks. In the letter letter wasten checks. In the latter letter the writer said he enclosed the checks to cover his overdraft, as the government being then busy would not probably have on the claims as well as the overdrafts was ridiculous as there was no claim at the present time recognized, while the overdrafts exist. Questioned further by Mr. Smith the provincial secretary said that these overdrafts never saw the light of the day as they were carried under the suspense account and this account was never made public.

The committee also took up the exchisyements in promoting public unserving pathic transfer and the Liberal party should change its nominee. Hon. Mr. Emmerson has not merely served the Liberal party well, but has championed the interests of his constituency in every respect wherein the serving of those interests was consistent with the general, well being of the Dominion. When Mr. Emmerson's achievements in promoting public un-

penditure of the Central Railway and these were discussed at length. Members of the committee expressed the opinion that the commissioners should have given to the department a detailed account of how the money was expanded. Chairman Pinder criticized strongly the payment of \$1083.00 to Mr. Skinner as acting judge of probates for St. John during the late Judge Trueman's absence while the latter had received the full salaray, as the understanding had been that the leave of absence should be no additional expense. Other items were taken up and the meeting adjourned at 1 o'clock. Josiah Wood and H. A. Powell, the county may well rally enthusiastically to his support. Should Mr. Emmerson be opposed at the general election, great as was the majority given for the four Liberal candidates a few weeks since, Mr. Emmerson's majority in the city of Moneton and county outside will be still greater."
