ST. JOHN, N. B., APRIL 30, 1909.

THE LEGISLATIVE SESSION.

In view of the numerous promises made by Mr. Hazen it was unticipated that the session of the legislature which has now ended would have been productive of at least a few measures of benefit to the province. In reality little has been accomplished of any good, while on the other hand, the session has been marked by the enactment of legislation positively injurious. The long-promised Highway Act best and three than the started cleanin' house, leave that a wink that a win has resolved itself into a joke, yet retains the offensive feature that its provisions are of such a nature as to visions are of such a nature as to says that he can't find says that he can't find A single doggone thing he wants, and he has got a mind for political purposes. The bill dealing with the Gloucester Iron Mines is a direct blow to the industry of the province inasmuch as New Brunswick

is now setually bound to now cash and is now actually bound to pay cash, and large amounts of cash, for the privilege of having its wealth of ore carried
off for manufacture elsewhere. The
Judicature Act is an unknown quantity,
the amendments added by Mr. Hazen
having made of it an almost hopelessly having made of it an almost ho complicated measure. Westmorland has been split up for political purposes, dence of the government's well-founded fear of public opinion, and an urget desire to provide for its own safety. St. John has also suffered under this same act, by Mr. Maxwell's last minute thought. It is true that a few measures passed at the session now ended ard of some slight value and it is equally true that the legislature has performed service by falling the source of the bottom of china dishes or bric-algorithm. this gerrymander offering striking evi-

ture has performed service by failing to pass other measures brought before it. Indeed the greatest good, it would appear, considering the nature of what has been done, would have been had been rejected. Then at least the province would not have suffered by such wasteful legislation as has been recorded. The temperance people asked for prohibition. In refusing to grant their request Mr. Hazen undertook to make certain amendments to the liquor license act. Some of these amendments appears to be reliable. ments appear to be valuable, as for instance the changes regarding closing hours, but others will be found impos- Bye-lo-bye, bye-lo-bye, bye-lo , meh sible of enforcement and will certainly not tend to advance the cause of the party. Fifteen thousand dollars has been voted to fight consumption, and five thousand for the promotion of imgration. These are important mats but the appropriations are insuffint. Nothing has been done for aglture, nothing for education, and fact absolutely no attention has en given to anything which is of ect importance in the development

The most important project before the people of New Brunswick today is the construction of the Valley Railroad. This is of personal interest to every man, woman and child from St. John to Grand Falls, and the development of the rich area to be opened by the proposed line is of importance to the whole of New Brunswick. Yet Mr. Den hi-ish-a-bye, bye-lo-bye, bye. Hazen, knowing all this, and realizing that intense interest, of a practi-

the many weaknesses of the government have been exposed, and in spite of an absolutely unfair report of the legislative proceedings, the failures of the Hazen party have been made known to the province. Certainly the government ends the session much weaker in popular opinion that when it as 1 office.

"Ah, you were in luck."

"Wait. Two days subsequent, back came my poem, accompanied by an explanatory epistle from the editor. In this he said that owing to a dream his treasurer had dream the third night previous (same night as mine!) the treasurer, under the impression that his dream was a reality, forwarded my check on his own book."

"Remarkable indeed! Did you return the check?"

Seldom has a winder passed without three or four mendally injured. For the first time it is now recorded that nothing of the sort has marred the season's activity. There is no particular cause for this. No doubt the transportation companies are gradually exercising greater care as to the manner in which work is narried on. A longshoreman at Sand Point can be killed with the utmost ease; a false step, carelessness on the slippery deck

But perhaps the lessons taught by the deaths of comrades during past years have had their effect and the longat any rate all St. John people have to think about now is that an entire season has passed without any family being deprived, even temporarily, of

its earning power. HOUSECLEANING TIME.
