The eight-oared race will be rowed up stream tomorrow at 10.30 a. m., after which the fours will be sent

After the freshman eights reached the starting flags, and that was long after the time set, Harvard dragged her stake boat and for a quarter of an hour Referee Meikleham labored with the shells to get them lined up. The delay was very trying for the crews. Finally at the sound of the pistol the eights dashed away in splendid style. Yale showed in better form at the headed by British Vice Consul Keatstart than Harvard, and for the first ing. The veterans will remain in the eighth of a mile had a trifle the better of it. Then the Harvard men settled the boat tomorow night,

down and slowly drove their boat to the front. Yale was rowing 34, and the crimson 32. Raising her stroke a point or two, Harvard reached the half mile flag a third of a length in the lead. Over the next half mile the boats only changed in their relative positions by one second. Harvard finished the mile in five minutes and nine seconds; Yale in five minutes and ten seconds.

Over the next half mile the struggle was superb. Each crew raised its stroke one point. Harvard steered out of her course in order to catch better water and Yale followed her. At the mile and a half flag the two boats were exactly even, nose for nose. The time for each crew for the mile and a half was seven minutes and 50 seconds. Just as the last half-mile flag was passed Yale began a spurt that won the race. She jumped her stroke up to 36 and began to pull ahead inch by inch. Harvard did not make her effort until an eighth of a mile from the finish. Then her stroke went to 38, but it was too late. Yale was leading by the length of her canvas bow The thousands who journeyed to the as the flags dipped at the finish. The two flags went down almost simultaneously and it was several minutes before the crews knew who had won. best freshmen races that has ever been Finally the referee shouted out the hours the crowd sat in the rain and youngsters sat up in their shell and gave the Yale cheer with "Harvard" on the end of it. Yale had won by just half a second. Yale's time was 10 minutes and 20 seconds; Harvard's, 10 minutes 20 1-2 seconds. The crews and considering this fact the time was fast. The prediction made last night by John Kennedy of Yale that the freshman race was a toss up, came

true. Two crews more evenly matched had never met. As soon as the referee announced at 7 o'clock that the 'varsity race would be postponed until tomorrow, both for a little practice. The wind was more than warm up. After ten mintheir shells for the night.
