the liver and cure all  
these ills, is found in

## Hood's Pills

25 cents. Sold by all medicine dealers.

McLean's is the original and genuine Worm Syrup. Be sure that you obtain McLean's, the safe, pleasant and effectual remedy for children.

## "I Can Eat What I Like."

Many people suffer terribly with pain in the stomach after every mouthful they eat.

Dyspepsia and indigestion keep them in constant misery.

After trying the hundred and one new-fangled remedies without much benefit, why not use the old reliable Burdock Blood Bitters and obtain a perfect and permanent cure?

Here is a case in point:

"I was troubled with indigestion and dyspepsia for three or four years, and tried almost every doctor round here and different dyspepsia remedies, but got little relief."

"I then started using Burdock Blood Bitters, and when I had finished the second bottle I was almost well, but continued taking it until I had completed the third bottle, when I was perfectly well. Before taking B.B.B. I could scarcely eat anything without having a pain in my stomach. Now I eat whatever I like without causing me the least discomfort." — Mrs. THOMAS CLARK, Brussels, Ont.

Be sure you get Kendrick's Liniment.

## INDIGESTION CAN BE CURED.

An Open Letter from a Prominent Clergyman.

C. GATES, SON & CO.,  
Middleton, N. S.

Dear Sirs,—Please pardon my delay in answering yours of weeks ago. Yes, I have no hesitation in recommending your

## Invigorating Syrup.

During the fall and winter of '96 and '97 I was greatly distressed with indigestion. I tried several remedies, each of which gave me no relief. I was advised to try your Invigorating Syrup, which I readily did, and have felt grateful ever since to the one who gave such good advice. The very first dose helped me, and before half of the first bottle was used I was completely cured. Have not been troubled with the disease since. I have taken occasion to recommend your medicine publicly upon several occasions, and heartily do so now. You are at liberty to use this in any way you please.

Yours truly,

(REV.) F. M. YOUNG,  
Pastor Baptist Church, Bridgetown, N. S.

Sold Everywhere at 50 Cents per Bottle.

If your horse is run down, give Granger Condition Powders, a true tonic and blood purifier.

## Rheumatism Cured

Sufferers from Rheumatism have found great benefit from using

## Puttner's Emulsion,

the Cod Liver Oil contained in it being one of the most effective remedies in this disease.

PUTTNER'S it is  
THE BEST.

## The Farm.

### Ducks Versus Hens.

In salt meadows and creeks and by the seashore, bays and inlets, lakes and ponds, wherever they can pick up part of their food—and in some places they will find most of it—ducks are more profitable than hens under ordinary circumstances. In the absence of these natural facilities, ducks are not profitable to the average poultry breeder, although there are well known cases where they have been profitably raised on a large scale without such water facilities, but to do so requires much experience, energy and good markets. When engagements are made to supply good customers with first rate early ducklings almost double as much is realized as when they are sent to casual dealers in our large cities.

There is a great difference between the profit of the ducks and hens in autumn and winter. The ducks eat enormously, and lay few eggs at that season, while the hens lay enough to pay for their food in the least profitable times, and commence to lay heavily long before the ducks start. The latter do lay some eggs in autumn when well fed, but not enough for profit. There is a notable diversity in the habits of ducks. Some become quite attached to home, and are easily managed, while others ramble away and are very troublesome; nor is this especially the case with any particular breed. When a breeder finds his stock is reliable he should not change, but he should raise his own breeding birds.—[Fancier's Review.]

### Growing Vine Vegetables.

By vine vegetables I mean squashes, cucumbers, melons and such annuals as grow on running vines in the vegetable garden. To my mind the common way of planting such crops in hills is not the best way. For several years I have planted them in drills, and have always been pleased with the results. When planting in drills I scattered the seed along thickly, a seed every six or eight inches. In this way a good stand is secured. After the plants are well up, if they stand as thickly as the seed were sown, about half of them are cut out. Then after the bugs and worms are through with their work, and when the vines are beginning to run another thinning is done. This time the plants are left so the spaces between them shall be from three to four feet. The plan is based on the theory that the same number of plants when set singly along the row will do better than when clustered in hills.

If the soil is not rich enough and one wishes to economize in manure used, a good way to do is to run deep, straight furrows with a plough where the rows are to be, going twice in each row if necessary. Then scatter manure along the furrows until about half full. Then turn back the soil, smooth off the ground, and mark the rows for planting, getting the rows directly over the manured furrows. There will be no trouble in getting the rows in the right place if the ground is marked off with a marker before the furrows are ploughed, and then if the second marking is done with the same marker, care being taken to get the first row right. For cucumbers the rows should be about six feet apart, for melons about seven feet, and for squashes eight feet.—(C. L. Hill, in National Stockman.)

### Rotation of Crops.

While no doubt it is better to change crops—that is, not plant the same piece for a long series of years to the same crop—yet it is not often the case that a good crop can be raised on the same land for a long time by proper fertilization?

For instance, take the English hay crop. By proper top dressing a good crop can be secured for years, and where the field is clayey and stoney it is very desirable to treat it so.

We have for the last few years made a specialty of the turnip crop, and, having one field which seems better adapted than the others for turnips, we have planted it

to that crop for a number of years. We began very cautiously, planting at first but a small portion the second and third years, as our neighbors said they should not like to try it, and thought we should not get good results, but, finding that there seemed to be as good a yield on the part that had turnips the year before as on the other, we thought we would try the whole field, and for two years have raised turnips on it, and the last year we had an extra crop of good quality, and the quantity was 560 bushels of market size on the field of about an acre.

We plough in a fair quantity of stable manure in the spring, then plough the ground two or three times during the early summer, then about the middle of July make the drills and sow the seed, using in the drills six hundred or seven hundred pounds of commercial fertilizers.

We have also succeeded in getting rid of the witch grass, of which the field was very full when we commenced to raise turnips on it, and it is now one of the easiest fields to cultivate that we have.—(H. A. Turner, in Massachusetts Ploughman.)

The King of Sweden and Norway is well versed in several languages. When the Oriental Congress met at Stockholm a few years ago he addressed the assembled scholars in the language of the nationalities to which they respectively belonged, and seemed to speak with equal fluency in English, French, German, Italian, Russian and Spanish.

## A Pioneer's Story.

AN INTERESTING INTERVIEW WITH  
MR. B. L. MASTIN.

After Long Years of Perfect Health He Was Attacked with Kidney Trouble and Other Complications—Dr. Williams' Pink Pills Bring Him New Health.

From the Picton, Ont., Times.

Mr. B. L. Mastin, of Hollowell township, Prince Edward county, was a caller at the Times office the other day and during his visit told of his great suffering from kidney trouble and rheumatism, accompanied by dyspepsia, cold feet and a generally broken down constitution. Mr. Mastin is one of the first settlers of Prince Edward county. He is in his seventy-first year and is the father of a grown up family of well-to-do farmers. In the course of the conversation Mr. Mastin said:—"I had never known what it was to be sick. I have always had good health and worked on my farm every day until some months ago, when I was taken with severe pains in my back and shoulders. I consulted a doctor but received little benefit. I was told by one doctor that I had rheumatism and kidney disease, but his treatment did not help me and I continued getting worse. My appetite failed me and I fell away in flesh. I became irritable and could not sleep well at night. Nobody can conceive the intense pain I endured. Not deriving any benefit from the food I ate and having a constant pain in my stomach I soon became aware that I had dyspepsia, and the pain in my back and shoulders intensified by the stone-like weight in my stomach, made life to me almost unbearable. I was also a great sufferer from cold feet, nearly every day my feet would get like chunks of ice, and unless I was constantly by the fire the soles of my feet would feel as though they were wet. One day I told my wife I was going to try Dr. Williams' Pink Pills. Having read so much of these famous pills, I thought that what they had done for others they might do for me. I procured a box from Mr. E. W. Case, druggist, and to my great delight before I had used quite one box I had improved. When I had finished a couple more boxes I felt like a new man and I gladly tell this for the benefit of all who suffer as I did." Continuing Mr. Mastin said:—"My rheumatism is all gone and I can come and go and enjoy as good health as well as I ever did." With these remarks Mr. Mastin got up to go, but added that his wife was receiving much benefit from Dr. Williams' Pink Pills. "I took home a couple of boxes the other day and she thinks they are splendid."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People. If your dealer does not keep them they will be sent postpaid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

## Save Your MONEY.

To save your money, by getting more for it, ask your dealer in medicine to show you the new 50 cent size bottle of JOHNSON'S ANODYNE LINIMENT. It contains over three times as much as the old 25 cent style, which is a great saving to those who use this valuable family medicine. The superior quality of this old Anodyne has never been equaled.

## JOHNSON'S ANODYNE LINIMENT

Fifty years ago this month, Dr. Johnson left with me some Johnson's Anodyne Liniment. I remember him distinctly, and could tell you just how he was dressed on that day. I have sold Johnson's Liniment ever since. Can truly say it has maintained its high standard from that time to this. No medicine today possesses the confidence of the public to a greater extent. JOHN B. RAND, North Waterford, Me., Jan., 1881.

As a family remedy it has been used and endorsed for nearly a century. Every Mother should have it in the house for many common ailments, Internal as much as External. Our book on INFLAMMATION free. Price 25 and 50c. L. B. Johnson & Co., Boston, Mass.

## IS BABY CUTTING TEETH?

Watch him carefully.—On the first indication of Diarrhoea give Dr. Fowler's Extract of Wild Strawberry.

Hot weather comes hard on babies, especially those cutting teeth.

The little form soon wastes and fades away when diarrhoea or cholera infantum seizes upon it.

As you love your child, mother, and wish to save his life, give him Dr. Fowler's Extract of Wild Strawberry.

There is no other remedy so safe to give to children and none so effectual.

Mrs. Chas. Smith, Shoal Lake, Man., says: "I think Dr. Fowler's Extract of Wild Strawberry is the best medicine that was ever made for diarrhoea, dysentery and summer complaint. It is the best thing to give children when they are teething. I have always used it in our own family and it has never yet failed."

## WHEELER'S BOTANIC BITTERS

A reliable and effective medicine for cleansing the blood, stomach and liver. Keeps the eye bright and skin clear. Cures headache, dizziness, constipation, etc. Purely Vegetable, large bottles, only 25 CENTS.
