**Many Stirring and Useful Experiences During the Great
Tour---Britons Drink Much Wine---Old Edinburgh the
Most Beautiful City---The Great Enterprises at Newcastle,
Liverpool, Leeds, and Sheffield—Some Political Straws
---Social Functions.**

night, and early Tuesday morning began our tour of inspection. I had the pleasure of visiting the new buildings of the University with a score of others, under the guidance of Prof. Ashley, for the purpose of seeing the new buildings of the University of Political Science. At noon there was a luncheon at the University. Mr. Chamberlain made an important imperial address. What he said has appeared in full in the English papers and has been much commented upon. No doubt the readers of this letter have seen an opportunity of doing so. I have not the time to do so, but I will say that it was unnecessary to give a digest of it. My party was perhaps as much interested in the appearance and manner of the ex-secretary of state for the colonies as they were in the matter contained in his address. He made a favorable impression

In a previous letter I indicated the enthusiastic reception which we had received in the manufacturing cities of central England. This week we have been in Birmingham, the city of Burns and Scott. Monday we spent in Liverpool, noted for its magnificent docks stretching thirty miles along the shores of the Mersey, and for its well administered and cheap tram street car system. Electric trains run through a tunnel under the Mersey, and the Liverpool Park Road system is superior and speed over the ferry system is decidedly noticeable.

The third class fare is four cents, while the slower ride on the ferry costs two cents. By the way, one may ride almost anywhere on the trans in Liverpool.

Edinburgh.

Early next morning we were on our way to the north, to that fair Edina, the pride of Scotia, whose fame is known throughout the world. Our train bravely climbed the mountains and panted across the sheep-dotted hills, until at noon we sighted the ancient capital. It was wrapped in strong Scotch mist and we wondered if it was beautiful as we had been led to believe.

sympathy with the summer school, it was happy to believe that there is the greatest possible advances in these provinces in education. There is growth, progress, strength and results. During the vacation to associate together for the improvement speaks well for the teachers. It is a sure indication that they will do better work in the future. Laurier has said the nineteenth century was the century of the United States, the twentieth

While seated on the rocks, Dr. Baile gave an address on these subjects, explaining the causes of the diversity of the coast as due mainly to the irregular erosion

only after they had been assured most emphatically that such an arrangement was in view and that such an agreement existed between Mr. Ryan and the three trustees.

There was a meeting of the executive committee of the society today, but at its conclusion Chairman Morton said there was no business of any moment transacted.

THE CENTAUR COMPANY, 71 MURRAY STREET, NEW YORK CITY.

Kewatin Company to Erect a Fireproof Mill of 7,000 Barrels a Day Capacity.

The people of the Bahamas have been advised to grant Canada a preference. A. Bertram, attorney-general of that country, refers to the fact that the United States does all it can to discourage Bahamas' exports. Canada, on the other hand, gives a preference.

John J. Jardine, Aged 24, Drown
While in Swimming.

The drowning occurred about 100 yds. above the Western avenue bridge, where the river is nearly a half-mile wide. The ladine was born in Newcastle (N. B.), was 24 years old. He had been in this country only about six months, being employed as a machinist by the Boston and Albany railroad at Brighton.—Boston Transcript.

The body was recovered Sunday.

le

Waco, Tex., July 10.—A night of heavy rain and flood tide accompanied by a strong easterly wind, which occurred in Digby about five o'clock yesterday afternoon, small fishing boat, containing two men, a Mr. Charles Parker and a Mr. Parker, was driven on the Bay Shore, a coming to Digby Gut for bait. A heavy swell was running, and the boat was used it was very seriously in that vicinity. The boat was seen to suddenly capsize during its occupants into the water. The bodies of the two men were seen in a barrel and in that way kept him afloat for about five minutes. Rickard, on the shore, saw the bodies of the two men, and from Victoria Bay, several of whom rowed out to where the accident occurred.

The man, who is aged 25 years, was the night at John S. Hayden's, arrived here this morning. The drowned man was 27 years of age, married, and for some time past had been employed as a fisherman. The tide probably carried the body out into the bay. He is said to have had more than one hundred dollars in his pocket.

masted British schooner E. Merriam, of
Parrishboro (N. S.) for New York, with
cargo of piling, went ashore on Shoal
Sheal today. When boarded she
found to be resting easy with no leak.
Her deckload has been lightened in an
effort to float her.

**RYAN AGREES TO SELL
EQUITABLE STOCK**

New York, July 17.—From a director of the Equitable Life Assurance Society it is learned today that Thomas F. Ryan has agreed to sell the stock holding of the company. James H. Hyde, has made an agreement with the three trustees of the Ryans and the newly elected director to sell the stock he purchased back to the Equitable society.

This sale is to be made as soon as possible, it is stated, and Mr. Ryan has agreed to turn it into the society, thus thoroughly mutualizing it, for the same reason. He is paid for it \$2,000,000, plus interest, besides the date of purchase and the sale.

It was stated that a number of the newly chosen directors, those selected by the trustees, are John D. Brien, Judge J. J. O'Brien, and George Westinghouse, accepted posts in the directorate.

There was a meeting of the executive committee of the society today, but at its conclusion Chairman Morton said there was no business of any moment transacted.
