

to make arrangements for the removal to another site, to be approved of the Presbytery."

The excellent service rendered by the Choir, under the efficient leadership of Mr. Gorrie, is to be commended. It has undoubtedly been conducive to the hearty congregational singing.

We regret that owing to unforeseen circumstances the erection of the new Sunday School building has been delayed. The progress of the school has been hindered in consequence. We trust however that early in the coming year the work upon a new building will be undertaken.

The Missionary schemes of the Church have not been so well maintained during the year as compared with previous years, and it is to be hoped that an effort will be made to increase the amount this year.

Application has been made to the Session by a number of residents in the vicinity of Sunnyside who wish to form themselves into a Mission Church, under the auspices of this congregation, and the matter has been laid before the Presbytery with the result that neighboring Sessions have been called to appear for their interests before the Presbytery, when the matter will be finally settled.
