Labour men waited on Premier Hearst and asked that property qualifications for candidates seeking municipal office be abolished; auditors, J. D. Shaw and P. A. McVicar, resignation was promised, but there will be no change this session.

Felix Juneau, a young Englishman, cut the tails off more than thirty horses in a shed at Victoria Harbor last week, and sold the hair to a Toronto dealer. He said that it was merely a foolish trick. He was sentenced to twelve months in the Central Prison.

The Peabody Overall Company's plant, Walkerville, has a contract for 200,000 pairs of trousers for the British Government, and the time limit set by the war office requires that 5,000 pairs a day be turned out. There are between 700 and 800 girls now working on the contract, and about 200 more girls or women who can do hand-sewing are needed.

One year ago heavy draught horses, which were young and sound, sold at Toronto at prices ranging from \$220 to \$300 each. Last week they sold at much the same rate of the horse trade in Canada at the present time. Of course, steeds that met military requirements have found ready enough sale at profitable prices, but the ordinary trade has been rather demoralized.

Ratepayers of Dutton by a vote of 139 to 16 carried a by-law authorizing the municipal council to enter into a power contract with the Hydro-Electric Commission of Ontario. By a vote of 137 to 18, a by-law approving the issue of \$10,000 in debentures to raise funds for the local distributing plant, was also carried. It is expected that the village will enjoy the benefits of hydro for all purposes as soon as a low-tension line can be built from St. Thomas to supply this municipality and others in the district.

Pringle Shaw, father of W. A. Shaw, editor of the Tilbury Times, died last week. He was born in New Brunswick in 1825, and was a salt water sailor for a few years and visited different lands and then taught school for a number of years. He walked across the Panama peninsula in 1852 to take in the California gold field rush, and acted as Spanish interpreter in that state for some time. He wrote "Ramblings in California," upon his return to Ontario, this little book often quoted as a reference in later days. He retired in Tilbury thirty years ago.

Relieves Asthma at Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma, and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

No Cussin' on Phone.

Toronto, March 8.—Hereafter it will profit all good residents in Ontario to restrain their language over the telephone, no matter how provoking the service may be. Profanity or blasphemous language used between customers of a phone line or between subscribers and company officials will be heavily penalized by an amendment to the Ontario Telephone Act, which will be introduced in the Legislature this week by the attorney-general.

For the first offence of the kind here complained comes that ungentle language has been used which will be \$25 and costs and for increasing infractions of the law the penalties will steadily pile up.

Highgate Man Found Dead.

The Highgate Monitor says:—Just before ten o'clock on Wednesday evening the body of James Reycraft was found on the M. C. R. crossing by W. W. Scott, who was on his way to the flour mill.

Mr. Scott immediately telephoned Dr. McPhail, county coroner, who after examination of the body had it removed to his home on King St. south.

Mr. Reycraft had left home about five o'clock to attend prayer-meeting and had got past the corner of Gosnell and King Sts. and instead of turning north the church went straight north. But on discovering his mistake he turned around and was seen going south on front street shortly after 9 o'clock. It is thought he had gone past his home not noticing where to turn and when he came to the tracks he fell striking his head on the rail, where he was found lying face downward by Mr. Scott.

Mr. Reycraft was in his 33rd year and had been a resident of Orford township for about 25 years. He leaves four daughters and four sons, besides one sister and two brothers.

Beware of Agents.

The following letter has been received from a prominent Government official, under date of Toronto, March 1st, 1915:—

"Sir:—I am instructed to advise you that notification has been received from high authority that agents have been instructed to call on engineers and plumbers at different institutions and factories throughout the Dominion of Canada asking the institution or firm to try a lubricant, of which they will leave a sample in a box. It is reported that this box when opened will explode with great power and do damage to persons and buildings, as instead of a lubricant, it contains a very high and powerful explosive.

"You will inform your officers, engineers and staff of this fact, and if such agent should call at your institution offering such samples in this way you will endeavor to have him detained and at once notify the Police Department and this office by telegram or telephone.

During the existence of the war the public will do well to give strangers distributing samples a wide berth. Treat everyone that you do not know as an enemy and you will not make a mistake. Also, keep your front doors locked.

Farm Topics.

"Farmer's Advocate."

It is a good time now to oil the harness and get the implements ready for the field.

In about a month's time the farmers of Canada will have their innings in the trenches.

The worst "submarine" to war against fall wheat is spring frosts. Every farmer knows it, but like the merchantman, is almost helpless to cope with the situation.

Are there any bolts or nuts missing from the implements? You will not know unless you look, and if you do not look it may prove costly in a few weeks from now.

The pressure of sugar trade prices is going to stimulate the maple industry this season, providing good Dame Nature furnishes suitable weather, and would have still greater effect if the extra farm labor required were forthcoming.

Some claim that the "production" end of the campaign of meetings put on for the special benefit of Canadian farmers should have been dropped, and all the emphasis placed on "patriotism." Others take the other view and think that "patriotism" should have been dropped, and judging from the attendance and interest at some of the meetings the whole thing might have been dropped without seriously handicapping the farmer in his 1915 work. Most farmers will try to produce cereals at present prices; none cares to have his patriotism questioned; some would like details as to how production might be increased, but the campaign speakers, competent as they are, rarely go into details, because it is against orders.
