Mr Thomas Gordon
- Strathroy

Sir

We are engaged in the
manufacture of beer and tile
in the village of Middleham
and on the Indian reserve
convenient to our works is
a bank of sand suitable
for mixing with our clay
for the manufacture of the
same and which is not
of much account for grain
&c. &c. We would like to
make arrangements for getting
the sand if we could get
it at a price which we
could afford to pay.
