

FOR FALL, 1903.

"E" Dress Goods

We planned and are planning for the largest Dress Goods business in our history this fall. You'll not be surprised at us expecting a good business, either, when you see this excellent stock of fabrics. Many new weaves are arriving daily, so come any time, and see those that are already here, and we'll discuss the styles for the coming season.

MAPLE CITY LABOR UNIONS

Continued from page 1

are bad things, indeed dangerous. Well, let us see. In heaven there is the union of the Trinity. In England there is union in the King. Commons House of Lords. In the United States the President, Congress and Senate; in Ottawa, Laurier, the \$125,000,000 Grand Trunk Pacific and Senator Cox, and in our own very dear Ontario have we not the union of Ross, Captain Sullivan and Stratton? Then there is the union of man and wife, and yet people will say the working men should not unite for their own benefit and protection. Some fools think that liberty means only being out of goal. The working man has suddenly discovered that it means this and much more. To limit now means liberty to eat good grub and good food for his family, too; good clothes, a holiday just when he feels like it and a few silver cartwheels gingham in his breeches pocket.

The wind from heaven's every point. Even the waves of the sea. Proclaim in accents loud and sweet. We are free! We are free! Now, ladies and gentlemen, I could talk upon this great subject for two weeks at a stretch, but I will now give the next speaker a chance. Thanks for your kind attention. Needless to say that Ald. Martin was loudly cheered at short intervals during his entire address.

The committee of management of the sports had taken the contract to entertain the crowds during the afternoon, and a little bit of rain and wet grounds wasn't going to stop Tom Stanton and Wm. Draper. Just like any other contract taken by them, they were in to stay. The Peninsular Band was sent down King street to bring a crowd over to the drill shed and it performed its mission with great success. The drill was crowded to the doors. A tag of war was the first on the program and was pulled off between the brickmasons together with the wheelmakers and the laborers. The latter won after a hard struggle amid the cheers of the throngs.

The next was a boxing contest between two red men, each in a barrel. The contest was keen and exciting, and some of the blows received by each before the decisive one were heavy, and the "red ink" flowed quite freely.

The Bugle Band boys next put on an exhibition game of basket ball, a game new to almost all the spectators who seemed to take as an exciting interest in it as the players themselves. The boys worked hard, as they always do, and made the game most interesting.

Arthur Cochran and Alfred Wrigley were opposing captains, the former's side winning by the score of 24 points to 9. The line-up—

Centre—A. Cochran.
Forward—M. McCormick.
Forward—B. Symes.
Forward—W. Farby.
Back—C. Humphrey.
Back—M. Taylor.
Back—W. Tucker.
Centre—A. Wrigley.
Forward—W. Head.
Forward—E. Smith.
Forward—J. LaFrancis.
Back—S. Anquetil.
Back—B. Johns.
Back—A. Morris.
Referee—W. Plummeridge.

As a result of a little hot air communication between "Bud" Gibson and "Big" Jack Foster, these gentlemen were given the gloves and a hot two rounds decided things in favor of "Bud," who seemed to be the better man throughout. A number of the running sports were pulled off outside until rain again intervened. The watermelon contest came off in the evening.

THE BALL GAME.

Notwithstanding the sloppy condition of the diamond, seven innings of the ball game were pulled off between the Ben Hurs of Detroit and the Chatham Mfg. Co.'s team, resulting in a victory for the locals by a score of 5 to 2. The game was a very good one, considering conditions. All playing was done at a disadvantage. Finnan, a Canadian boy, who pitched for the Ben Hurs, pitched a great game and struck out fourteen men, and his opponent, Chauncey Depew, while pitching a good steady game, struck out four men. The support of each was splendid, only two errors being made by each side.

By bunching hits and securing a couple of passes in the third, the locals secured four runs, which won the game. There was no scoring by either side after the third innings.

Umpire—W. Draper.
The management of the day deserve the greatest possible credit for the way in which everything pertaining to the day's recreation was carried out, notwithstanding the many handicaps.

The last feature of the big labor demonstration was a Cook's Parade. Unfortunately the wet had a bad effect on the numerical strength of the parade, but what there was was good.

The following were the persons who made entries, with John Bruce, the secretary, and the ideas they represented:

James Anderson, Detroit and city sports at a cock fight.
G. Everitt, Union Brick Masons.
Ernest Lamon and Harry Campbell, When Reuben comes to town.
A. Macintosh and George Archer, Hooligan's Kids.
H. Budding, Barber Shop.
The prizes were awarded as follows:—Jas. Anderson 1, G. Everitt 2, Ernest Lamon 3.

When presenting the prizes Mr. Draper took occasion to express the feelings of the unions in reference to the treatment they had received at the hands of the ex-Regimental Band. They were engaged to play in the parade in the morning, he said, but never put in an appearance. They did show up in the afternoon, but he had told them that their services would not be required. Mr. Draper promised that unions of the city would not forget the manner in which they had been ignored and the shabby treatment they had received at the hands of the ex-Regimental Band.

The great feature of the evening was a water-melon eating contest in the drill shed. Frank Cady was the winner, and W. H. Hencher second, they finishing their halves of water-melon in the order named. The also eaters were Henry Bequille, W. Bogie, Geo. Macleod, C. Shaw, F. Burgess, F. Milburn, C. Wright, Fred Cornett, Clinton Peaker and Fred Legue. The contestants were given half a water-melon and had to dig it out and eat it as best they could. The judges were John Bruce, Will Draper, Andrew Riddell and Tom Stanton.

RUSSIA PROMISES.

NEUCHWANG AND MUKDEN TO BE EVACUATED.

Diplomatic Dispute Between Corea and Japan—Russian Revolution—Party Showing Great Activity.

Pekin, Sept. 8.—In a note sent to the Waiwupu, the official board having supreme control of foreign affairs, yesterday, M. Lessar, the Russian representative, engaged that Neuchwang and the Mukden province should be evacuated on October 8. He also confirmed the Chinese agreement to open the ports of Mukden and Tatungku to foreign trade.

Tokio, Sept. 8.—The Korean Government seeks to make the closure of Phenyang a condition for the opening of Wiju. Japan objects to this because 200 Japanese are settled at Phenyang. Rumor attributes the Korean proposal to Russian suggestion, but Corea has long shown a desire to exclude foreigners from Phenyang, the Emperor wishing to build a palace there.

London, Sept. 8.—Russian correspondents of The Times say that large quantities of inflammatory proclamations have recently been distributed among the workmen in the factories and the harbor of Odessa. Proclamations have also been scattered broadcast in Kieff, Baku, Vladikavkas and other working class centres. Each copy bears the stamp of the Social Democratic Revolutionary party. So far as Odessa is concerned the workmen do not appear to be inclined to join the more advanced revolutionary movement. The commission summoned to discuss measures to prevent the introduction of revolutionary literature from abroad recommends the strengthening of the police force, and the application of several thousand roubles annually for the employment of secret agents on either side of the German frontier.

WINCHESTER ROBBERY.

Two Safes Opened Early on Monday Morning.

Winchester, Sept. 7.—A daring robbery was committed about 2 o'clock this morning. The offices of M. F. Beach & Co. and the Eager, Sanderson & Co. were broken into. The combinations of both safes were worked successfully. From M. F. Beach & Co.'s safe there were taken in cash \$25 and papers, including checks to the value of \$500.

From the Eager, Sanderson Co.'s safe only a few dollars were taken. No clue as yet has been obtained.

WHY

Drop with Dyspepsia?
She was a beauty until irregularities peculiar to her sex brought on that dread dyspepsia and general misery. But there is certainly a cure for her. The woman will be beautiful again.

THE GREAT SOUTH AMERICAN NERVEINE
WILL FIRST FREE SHATTERED NERVES; then strengthened by it they will put every vital organ to work vigorously. The liver will do its share, the heart will have blood to pump, the nerves will be quiet. The woman will be beautiful again.

Mrs. James Edge, Post-Mistress of Hill, Ont., writes: "I have had indigestion and dyspepsia for nearly ten years. At times I could eat nothing. After taking two bottles of South American Nerveine I was entirely well and am in perfect health."

The Great South American Nerveine Care dissolves and washes out waste matter at once from kidneys and bladder, and simultaneously begins the building up of new tissues. Relief in six hours.

Working Garments..

We have an entirely separate factory for the manufacture of men's working garments, such as shirts, overalls and pants. The superintendence and conduct of this factory receives just as much attention and care as is shown in manufacturing the finer clothing.

Care that the patterns are correctly cut; care that proper thread is used; care that the most refined points are made doubly strong.

The result of this constant watchfulness and care has been the making of which, when once worn, are always wanted.

PURITY.

LAGER BEER

"The Beer That is Brewed in Glass"

Ours is the only plant in Western Ontario having a glass-lined, closed tank system, which is the only system affording absolute security against pollution of the beer.

Wood rots, green wood rots faster than dry, quickly seasoned wood rots quickest of all, and when exposed to air and water in brewers' cellars wet rot comes on rapidly, and the beer brewed in open tanks is injuriously affected by it.

Our tanks are like a bottle inside, clean, no mould, no slime, no chance for rot. Which is better, beer made in a closed, glass lined, steel tank, or in an old mouldy wooden one?

Color is no indication of strength as producers of thin, watery beer resort to coloring matter and other materials to conceal its weakness. A good beer gives a "full mouth" feeling when drank.

A heavy foam is no indication of good quality, in fact in many localities they demand less foam and more solid beer. Brewers of weak beer often try to tempt the consumer by furnishing a beer charged with Kreusen (beer 24 hours old) and having a beautiful cream, but if used to any extent is sure to produce sickness.

Poor goods are nasty competition and the public should sustain those producing the better goods.

A pure beer is a pleasant beverage and very healthful and should always give off a delicate aroma of hops and malt only. Any other smell or taste is almost POSITIVE EVIDENCE OF AN INFECTED AND IMPURE BEER.
