# MARKET REVIEW AND FORECAST

Toronto, Monday, May 20.—With the opening of river navigation at Montreal the export trade is now more active, with a reflected interest in many other lines of industry and commerce. Goods are still going out, but both goods and immigration are falling and there is a stronger and more hopeful tone at trade centers this week. Another feature having more than a little interest is wheat in the west is turning out better than was expected.

It begins to look as if the high price that marked the close of last year's dairy season will be experienced again this year. Dairy boards are now active all over the country, but prices are still holding their own. The demand from Great Britain is strong, as is also that of the United States, but for instance is selling between two and three cents stronger than at this time last year. There have been no marked changes on farmers' markets.

**WHEAT**  
The Canadian market has been steady. The American market has been more influenced by crop reports, and flurries have been frequent. Latest returns from the western provinces show that over 12,000,000 acres is in wheat, an increase of 100,000 to 250,000 over last year. English markets are strong. Quotations are as follows: No. 1 Northern, \$1.01-12; No. 2, \$1.01-12; No. 3, \$1.01-12; feed wheat, 60c. Ontario wheat is still in great demand. Prices have advanced to \$1.05 to \$1.06 in car lots outside.

**COARSE GRAINS**  
There have been no changes worth mentioning on the coarse grain market. Trade is very quiet. Some barley is being shipped to the United States, where prices rule 30c to 35c higher than here. Quotations are as follows: Barley, malting, 87c to 88c; feed, 56c to 72c; oats, O.W.
