if you intend equipping your Sugar Bush. We would be pleased to have you call at our Exhibit in the "Industrial Building" at the Canadian National Exhibition, Toronto, or "Machinery Hall" at London and Ottawa, where we will have a full line of up-to-date

SUGAR MAKERS' SUPPLIES

The Grimm Mfg.Co.

58 Wellington Street, MONTREAL, QUE.

Ottawa

For the profitable production of summer fed bacon a certain amount of pasture of one kind or another is essential. This, not because of the high food value of the green feed, nor yet on account of its low cost so much as by reason of its wholesomer of the certainly encouraged and most readily insured in the feeding animost certainly encouraged and most readily insured in the feeding ani-mal, especially the young one by light exercise, sanitary sur-roundings and succulent bulky food. These conditions are most easily attainable by pasturing on a limited area of the right kind of pasture.

area of the right kind of pasture.

A corner of red covere, a small statch of alfalfa, a little run of nice, juicy rape, a bit of peas and oats or a plot of millet will be paid for over and over again by reason of the improved health and continued or renewed thrift of the youngsters. This pasture should be available soon atter birth or as soon as the season permits birth or as soon as the season permits
