London Hears That Gradual Evacuation of Warsaw has Been Ordered by Russia

LLOYD GEORGE AT CARDIFF

Cabinet Ministers in Conference With Strikers-Krupp Works Having Trouble With Employes-Negotiations at Remington Factory Fail.

The London Morning Post's Budapest correspondent reports that the gradual evacuation of Warsaw has been ordered by the Russians. A Petrograd despatch says that German columns have occupied Tokum, 38 miles west of Riga, and Doblen, 18 miles west of Mitau, according to an official statement isat the headquarters of the Russian General After capturing these points they advanced outhward against Hofzumberge and Benen.

The centre of negotiations in connection with the creat strike of the miners shifted suddenly to Cardiff last night with the arrival of the Minister of Munius. David Lloyd George, the president of the Board of Trude. Walter Runciman, and the president of the Board of Education, Arthur Henderson, for a conference with the miners' leaders. Mr. Henderson is leader of the Labor party in the House of Com-The members of the Cabinet held a prelim mary talk with the representatives of the miners and arrangements were made for the delivery of an address by Mr. Lload George, to-day, before the whole body of representatives of the miners in the South Wales field. It is thought that some agreement may be reached then, although the men are still obdurate in the matter of accepting the terms previously offered them or in conceding that they

An important meeting was held at Essen on Sunday, according to advices received at Basil yesterday, between the administration of the Krupp Gun corresponding period of 1914. Works, and the representatives of the workmen in order to settle the dispute which has arisen over the demands of the men for an increase in wages. Directly and indirectly about 100,000 men are involved, liquor is needed for the army Minor cases in which machinery has been destroyed have been reported. The military authorities before that unless an immediate arrangement was reached tral ports from seizure. drastic measures would be employed.

Negotiations to bring about an amicable settle ment of the difficulties between the machinists of suffering from overwork. Bridgeport, Conn., and the Remington Arms and Ammunition Company, engaged on a gigantic scale armics, have failed. Labor leaders announced last ed. night that the first of the machinists would throw down their tools and walk out at noon to-day. They added that within a week all work in the Reming ton shops and in the shops of sub-contractors would be at a standstill. Just how far the strike might \$20,000,000. spread in other manufacturing communities of New England the labor leaders were unable to estimate

At the instance of the British Government the U. S. State Department has called on the Department of Justice to investigate the activities of certain German sympathizers in the United States who are alleged to have been employing unlawful means to has developed whether there is sufficient evidence to steps in a sunken garden at his country place. warrant prosecutions no names will be made public and officials of the Departments, as well as those of has reached the Embassy concerning all kinds of plots, ranging from schemes to wreck bridges over which railroad trains were carrying volunteers of the

The appointment of an invention board of scientimen, with Lord Fisher, recently First Sea Lord of the Admiralty, as its head, to assist the British was largely the result of a suggestion made by Lord Bryce, former ambassador to the United States, to the House of Commons, and followed upon against only \$38,000,000 in same period a year bediscussion in which similar proposals were made by Sir William Ramsay and other eminent scientists. The A dmiralty received 16,000 offers of new scientific devices during the five months of the war. Another 16,000 doubtless came under the stimulus of the last five months. Of the first 16,000 a board undertook completion by Dupont de Nemours Powder Co. 17, e chaff, to eliminate the "crank" proposals, and reduced to 25 the number which in the board's judgment were worthy of any attention. Another board has scrutinized these 25 more figidly and reduced them to just two. These for the allies, and says that company is making no two are being worked out with every precaution of thing but steel forgings which are being sent to the secrecy, and every prospect, it is declared, of giving Washington Steel & Ordnance Co. a surprise in mechanical warfare exceeding anything produced by German ingenuity.

The Heights of the Meuse have again been the scene of a sanguinary struggle. The French War rely and can rely solely on its trained men. The figures would hardly keep the present warring naOffice announces heavy losses to the Kaiser's troops untrained men don't count. They are merely an tions going more than a few days. when making two strong attacks in the vicinity of Sonvaux. Both are said to have been completely repulsed. Beyond a violent cannonade near Souchez and bomb and petard fighting in the Argonne, quiet prevaled on the rest of the front.

The various nickel companies operating in the Dominions have made very satisfactory profits duror common shares is reduced from 35 per cent. to 20 per cent., but is now payable upon an enlarged capital as the result of the re-organization carried out and 150 per cent. of new ordinary shares.

Négotiations are believed to have been practically completed between Brown Bros. & Co., heading a other companies, whether industrial, railroad, French financial interests for a loan of \$20,000,000 to invested. France. The loan, it is understood, will take the form acceptances, discounted at 5 per cent., bankers tively small, a fact which simplifies the manage charging % p.c. besides for the accepting of the notes. ment and lessens the danger that always overhange The loan is not to be used for financing the sale of an industrial in times of financial stress. munitions of war to France or her allies.

Enormous war profits are being made by many obscure companies in all parts of this country and the United States. A case in point is the New Jer-sey Zinc Company, which has just paid shareholders a dividend of 300 per cent. Of the total 250 per cent. is in the form of a stock dividend, the capital having been increased from \$10,000,000 to \$35,000,000. the first of the year three dividends totalling \$20 a than those of industrial companies.

During the past year wages in Australia increased slightly 1 per cent., or to be exact 9 per cent. The increase in the cost of living, however, more than offset this as it amounted to more than three per

Fifty-five of the principal tramway undertakings in the United Kingdom, comprising eighty-five per cent. of the total mileage, had total receipts of £225,000 for the week ended June 26th, or but £3. 000 less than for the corresponding week the previ ous year, indicating that despite the war and th interference with business reecipts are keeping very close to normal. The total length of track reported upon was 2,580 miles.

In normal times the number of women in England exceeds the number of men by 1,500,000. As a result and scattered showers. Temp. 46 to 64. Precipitaof the war which has drawn hundreds of thousands tion, 0 to 0.04. of men out of the country the preponderance of women has been greatly augmented. Women are taking the place of the men who have gone to the from it presents an interesting problem to know what the result of this innovation will be when the war is over and the men return to take up their former du-

Speculation is rife on the Street at presents as to the rate of dividend which the directors of the Dominion Bridge Company will declare when they meet to-morrow. In the three preceding quarters the declaration has been 1% per cent., but it is now anticipated that the declaration for the current quarter will Oct.-Nov., 5.21; Jan.-Feb., 5.36 1; March-April, 5.46. be at least 2 per cent., thus placing the stock back on its old 8 per cent. per annum basis. A dividend of 2 per cent. would call for a payment of \$120,000 three quarters.

Canada will soon have the longest tunnel on this The Canadian Pacific are now constructing a tunnel under the Selkirk Mountains in British Columbia which will be five miles long and will cost in excess of \$10,000,000. Heretofore the longest tunnel was the Hoosac Tunnel through the Hoosac Mountains in Massachusetts which was four and three quarter miles long. The Denver and Salt Lake Rail way have now under construction a tunnel known as the Continental Divide Tunnel, which will be miles. The world's two longest tunnels are St. Gothard, through the Alps in Switzerland, which is nine and one-third miles long and the Simplon, also piercing the Alps, which is twelve and a half miles long.

The cost of the Franco-Prussian War of 1870-71, thought to be enormous in those days, shrinks into insignificance when contrasted with the cost of the present titanic struggle. That war cost France, exclusive of the billion dollars indemnity paid to Germany, \$820,000,000. This figure does not include the value of the two provinces ceded to Germany. Those figures would make than a few days.

The New York Journal of Commerce says that certain typewriter companies in the United States have James M. Dixon, of Tobacco Products Co., who formed a war order corporation under the title of now being dealt in is only one-half of what it usual-ly is, and 1915 crop is small in acreage.
