

It Takes Oats from Wheat

Making a 99% Perfect Separation

**Sold on
Time**

This wonderful Chatham Separating Machine solves the problem of preparing clean seed grain. It is absolutely guaranteed to make a perfect separation of oats, wheat, white caps, broken weeds and straw, at the rate of 20 bushels per hour or better. The white caps, oats and absolutely clean wheat come out separately. It is the greatest invention ever offered the farmers in the Canadian Northwest, because it will increase their profits enormously! It is not a fanning mill. The

CHATHAM Separating Machine

has a riddle composed of over 4,500 pieces of wood and metal. It handles mixed oats and wheat so perfectly that not one oat is left in a bushel of wheat.

Two of these machines can be attached together and run with one crank, thus doubling the capacity. The machine is strongly built—nothing to get out of order. A boy can operate it.

Section of Riddle. The wheat goes through but the oats does not.

No farmer in the Northwest who has oats in his wheat can afford to be without this machine. Let us send you a FREE BOOK that tells all about the machine. Let us quote you a special price on the Chatham Separating Machine to introduce it in your neighborhood. Write at once and we will also make you such easy terms that you will never miss the money. Yes, Sir! Clarke's gloves are by far the best on the market to-day.

Couldn't very well be otherwise.

Best quality skins, tanned in our own tannery and made up in our own factory. Not a step in the making that's not watched over by our eagle-eyed inspectors. Perfectly finished to the smallest stitch.

Take our "Horsehide" Gloves, for example.

Real horsehide, remember—not cowhide.

Feel the soft, pliable skins. Note how neat and comfortable on the hands.

Beats all how long they'll wear—think they were iron.

Guarantee them to be heat and wet proof. Stand scalding and scorching without getting hard.

Look for Clarke's stamp on the gloves you buy, and make sure of best value for your money.

boards of trade of the province with a view to establishing industries for the development of our fuel and other resources to the end that, when the drain upon the money supply of the province caused by our large importations shall cease to be offset by immigration and railway extension, we shall be secure against a stringency in our money market or a panic.

To the furtherance of all of which we solicit the support of the farmers of Alberta.

QUESTIONS AND ANSWERS.

Miscellaneous.

SERVICE FEES FOR SHEEP.

What would be a fair charge per ewe for the service fee of a registered Shropshire ram on grade ewes, also registered ewes?

Alta.

G. D. M.

Ans.—For grade ewes twenty five cents a head, for purebred ewes, fifty cents per head. Wing states that the ram has an exceedingly vigorous reproductive system; but advises limiting a well grown male to forty or fifty ewes, four to six per day being the maximum allowed, single services being the inexorable rule.

ILLEGAL FOR A COUNCILOR TO TENDER.

Is it legal for members of a council elected for a town in Saskatchewan (without salary) during their term of office to supply material without asking tenders, and collect price? If not what is the penalty?

2. Is it legal for a council, as above, to appoint one of themselves to act as overseer on work done in the corporation at a salary of thirty cents per hour, and a further sum of twenty-five cents per hour when he worked? If not, what is the penalty?

Ans.—There is no provision requiring that contracts be let by tender.

2. For a councilor to accept a contract with the council would disqualify him as part of section 10 chapter 70 Consolidated Ordinance states, "No person having by himself or as a partner an interest in any contract with or on behalf of a corporation shall be qualified to be a member of the council."

LEGAL HOLIDAYS FOR MEN.

Please tell me through the columns of your valuable paper what are the legal holidays in a year.

2. Is a hired man on a farm entitled to any or all?

3. If he works holidays can he count them on his time at end of term?

4. If any of them falls on Sunday can he keep Monday.

Ans.—There are no recognized legal holidays for hired men but the custom is to allow May 24th, July 1st, Christmas and New Year's Day. If any of these days falls on Sunday the day on which the holiday is observed, which might be Saturday or Monday, would naturally be the holiday. If you worked on holidays you would not be justified in charging for extra days' service, nor would you be entitled to stop work unless you had an understanding with your employer. It is better in making an agreement with an employer to have it in writing and specify the particular holidays you are to have.

DOING HOMESTEAD DUTIES.

Is a homesteader doing his duties and in what way, is he not, who has fenced in his homestead, built a house 20x24 feet, a stable 30x10 feet, and cropped about ten acres and owns about 100 head of stock (cattle and horses)?

Dr. WOOD'S NORWAY PINE SYRUP

Cures COUGHS, COLDS, BRONCHITIS, HOARSENESS and all THROAT AND LUNG TROUBLES. Miss Florence E. Mailman, New Germany, N.S., writes:— I had a cold which left me with a very bad cough. I was afraid I was going into consumption. I was advised to try DR. WOOD'S NORWAY PINE SYRUP. I had little faith in it, but before I had taken one bottle I began to feel better, and after the second I felt as well as ever. My cough has completely disappeared.
