ACCURACY

Absolute accuracy in dispensing your Physician's Prescription is of the first importance.

We appreciate this fully and consequently a duly qualified and experienced Chemist is always in charge of our dispensing department. No prescription leaves our store without being thoroughly checked by him. Likewise the drugs prescribed are always of the best, in fact of standard quality and purity. Greater care, better drugs, more skilled knowledge could not possibly be employed.

This, no doubt, accounts for the large increase in our Prescription Department, and the confidence which the public place in us.

✓ The heavy rain on Tuesday must have proved very disconcerting to those who were celebrating the glorious 12th. In Athens neither the sound of a drum nor the tilt of a life was heard.

We suppose this means that the congregation will have to take their music just as it grows, without any trimmings, and minus the vain choral repetitions.

After giving a summary of Rev. W. E. Reynolds' first sermons in Kemptville, the Advance says: The Rev. W. E. Reynolds is a preacher of power. There is no striving after effect but an eloquent earnestness which holds the listener and carries home the lessons of the address with force and conviction.

The News says: "Both the bride and groom are well-known and popular young people." As former residents of Athens, Mr. and Mrs. Barnett are remembered with pleasure by many citizens.

STRUCK BY LIGHTNING

The violent storm that swept over this section on Tuesday came near proving disastrous to the family of Mr. Royal Moore. Mr. Moore was away at the time, and Mrs. Moore and her youngest daughter were returning from the berry patch when the storm forced them to seek shelter in the horse stable. Shortly after they entered, the building was struck by a bolt of lightning, which entered at the roof and passed through to the ground. The little girl escaped, but Mrs. Moore received a heavy shock and was rendered unconscious. An older daughter was passing through a doorway, carrying a tub in her hands, and the force of the shock threw the tub violently to the walk. The family were, of course, greatly alarmed at Mrs. Moore's condition, but she gradually recovered, and this morning her sight and hearing are both fully restored.

A dog which was under the stable was killed by the bolt, and a pig over one hundred yards from the building was partly paralyzed. There was no trace of fire about the building. Lightning reached the earth in several places, and a large tree was stripped of its bark for a distance of forty feet.

Mr. and Mrs. Moore and family are to be congratulated upon their escape.

A Sustaining Diet

These are the enervating days, when, as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic, say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and without any doubt averts much sickness at this time of year.

The students at the A.H.S. have completed their year, have written down at the exam's all they knew about the questions submitted (included, probably, some things that they weren't dead sure about), and have left for their several homes. The students of the past year, almost without exception, have been hard workers, and let us hope that the results will fully meet their expectations. Of the papers submitted, only two are objected to as being "catchy" and difficult, viz.: arithmetic and French prose. It is claimed that if these papers are scored closely by the examiners the percentage of passes will not be large. Anyway, the students deserve a pleasant vacation and we hope they will all have it.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial. It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"Two of my children had scrofula sores which kept growing deeper and kept them from going to school for three months. Ointments and medicines did no good until I began giving them Hood's Sarsaparilla. This medicine caused the sores to heal, and the children have shown no signs of scrofula since." J. W. McGinn, Woodstock, Ont.

Hood's Sarsaparilla will rid you of it, radically and permanently, as it has rid thousands.
