## The Letter-Box

To the Editor of The Planet:

I wish to correct a mistaken idea, which has got abroad, regarding the lots in the Athletic Ground survey on William street. Some time ago I stated through your columns that all lots except one on the portion of the William street pavement put down the first year, were sold. This is correct; but it seems that some parties got the idea that there was only one lot left on William street side. Such is not the case, as there are still seven very desirable lots for sale on this street. All but one lying between Wade and McLaren streets. There are also a number of choice ones still for sale on Queen. Thanking you for space in your valuable paper, I am,

Yours, etc.,  
D. McLAUCHLAN.

## DISTRICT DOINGS.

### DRESDEN

June 23.—C. M. Johnson, of Essex, is visiting friends in town. The ladies of Zion Church, Tupperville, gave a picnic in John Holmes' grove yesterday afternoon. Quite a number from Dresden attended, and several others drove down and took in the concert in the evening.

Miss Maisho McKim, who has been attending the C. C. L., is home for the summer holidays.

Dr. Buske, of Kent Bridge, called on friends in town yesterday. E. H. Dever lost \$52 in bills in the fire Tuesday night. Fortunately the loss to the goods and fixtures is covered by insurance and will be very slight anyway.

The home of Mr. and Mrs. Wm. Budd, Brown St., was the scene of a pretty June wedding yesterday, their second daughter, Sadie, being united in marriage to Mr. Arthur Wright, of Wallaceburg. Mr. Wright is a former Dresden boy, so both bride and groom have hosts of friends in town, all of whom wish them every happiness in their new home. The happy couple left on the evening train for the south and will make an extended trip, taking in the St. Louis Exposition before returning to Wallaceburg, where they will take up their residence. Among the out-of-town guests were the brother of the groom, Mr. L. J. Wright, Leamington and Mrs. Frank Cragg, of Detroit, sister of the bride.

The annual outing of Christ Church Sunday School will be held on Tuesday, July 5th, and will take the form of a school picnic in Mr. Jeff's woods, northwest of the town.

Bicycle Sale, Saturday, June 25th.—New 1904 Model Antelope Bicycles, Dunlop Tires, strictly high grade, regular price forty-five dollars; on Saturday only eighteen dollars and eighty-five cents. Biggest snap ever known. Brisco's, Chatham.

### BLLENHEIM

June 23.—Mr. and Mrs. Geo. Boun-sall visited relatives in Chatham yesterday.

The Blenheim bowlers visited Ridgetown Tuesday afternoon and defeated the Ridgetown bowlers by eight points. The Blenheim men won on each rink after a close contest. The game was thoroughly enjoyed by all who took part.

Burglaries have been the order of the day here lately. On Monday Mrs. D. J. Van Velsor lost her watch and chain. It was traced and found in a valise belonging to one of the members of the theatrical company that played in the Opera House on Friday and Saturday last. The arrest took place at Ridgetown on Tuesday evening. Yesterday the offender was brought before P. M. Greenwood and was fined \$50 and is out on suspended sentence. On Monday night someone entered Mr. John Connor's house from an outside window by taking out the lower sash and took \$30 from a bureau drawer. Mrs. Connor and daughter being asleep in the room.

Rev. W. B. and Mrs. Allen visited Mr. and Mrs. P. Haggart this week. The junior lacrosse team go to Dresden on Monday to play the junior team of that place.

Miss Nixon, of Ridgetown, is visiting her cousin, Miss G. M. Shilling-ton.

### TILBURY

June 22.—Mrs. Sager and son, who have been the guests of Mrs. W. A. Johnson, have returned to their home in Windsor.

Born, on Saturday, 19th inst., to the wife of R. Smith, Canal street, a daughter.

Miss Ella Tinkley returned yesterday from Albion, Mich., to spend the vacation with her mother in Tilbury East.

Miss Kate MacDonald and mother leave this week to visit relatives in Woodstock for a short time, after which they will leave to take up their residence in Armstrong, British Columbia.

Frank Benn visited his sister, Mrs. Ellis, at Maidstone, this week.

Mrs. Veale, who has been visiting her parents, Mr. and Mrs. J. S. Richardson, has returned to her home in Windsor.

The dedication of the Valetta Presbyterian church took place on Sunday, Rev. Mr. Bruce, of Toronto, preaching morning and evening, and Rev. Mr. Uren, of Tilbury, preaching in the afternoon. The services were very largely attended. On Monday evening a tea meeting and concert was given, which was most successful.

At a meeting of the village council on Monday evening the contract of constructing 100,000 feet of cement sidewalk was let to C. W. Cadwell, of Windsor, at 10 1-2¢ per foot.

## \$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhoea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay \$500 in cash for any case of these diseases which he cannot cure.

It STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for these distressing common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing and binding themselves to forfeit, as we, the undersigned proprietors of that wonderful remedy hereby do, to pay the sum of \$500 in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of women's peculiar ailments is backed by such a remarkable guarantee; no other medicine for women's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

There is no saving Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is stamped in stamp by Dr. Pierce's Common Sense Medical Adviser. Address WORLD'S DISPENSARY, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pellets cure biliousness.

Bicycle Sale, Saturday, June 25th.—New 1904 Model Antelope Bicycles, Dunlop Tires, strictly high grade, regular price forty-five dollars; on Saturday only eighteen dollars and eighty-five cents. Biggest snap ever known. Brisco's, Chatham.

## WALLACEBURG

June 23.—Mrs. Standish, and Master Beverly, of Auburn, are the guests of Mrs. J. Fraser, Pt. Lambton.

Although cool, a fine moonlight night favored the Band Boys last evening for their excursion on the St. Winona. With an abundance of good music, etc., the number in attendance were pleased with the trip.

The lacrosse excursion took place Detroit to-day, by St. Winona. The usual large number took advantage of the excursion.

Miss Stacey McRae left to-day for a visit at Hornings' Mills, Ont.

Congratulations are extended to Mr. A. Wright, whose wedding took place in Dresden yesterday to a Dresden young lady.

Mrs. Geo. Power, of Detroit, was the guest of Mrs. Walter Power and Mrs. E. Dodson.

The elections at Walpole Island took place this week for the Chippewa Band on June 20th and for the Patawatimies on June 21st. For the former the following were elected:—

Chief—James Kickanoway.

Councillors—Johnson Peters, Joseph Nahdee, Chas. Altmon, Wm. George, Chas. Jacobs, Peter Miskokoman.

For the latter:—

Chief—Amos Thomas.

Councillors—Eliza Thomas, Moses Cowell.

The election takes place every three years.

Bicycle Sale, Saturday, June 25th.—New 1904 Model Antelope Bicycles, Dunlop Tires, strictly high grade, regular price forty-five dollars; on Saturday only eighteen dollars and eighty-five cents. Biggest snap ever known. Brisco's, Chatham.

## MORE EVIDENCE

FROM MONTREAL

That Dodd's Kidney Pills Always Cure Dropsy.

It is a Kidney Disease and is Cured by Curing the Kidneys—Dodd's Kidney Pills Never Fail to Cure the Kidneys.

Montreal, Que., June 20.—(Special).—Every day brings forth fresh proof that Dropsy is caused by diseased Kidneys and that the one sure way to cure it is to make the Kidneys strong and healthy by using Dodd's Kidney Pills. Mr. Geo. Robertson, 392 St. James street, this city, is one of those who has proved this beyond the shadow of a doubt. Mr. Robertson says:

"My feet were so much swollen from Dropsy that when I got out of bed in the mornings I could hardly put them on the floor. My arms used to swell at times so that I could not put on my coat."

"I had to be tapped to relieve me of the terrible pains."

"On the advice of a friend I began to take Dodd's Kidney Pills, and before I had used the second box I began to feel better. Seven boxes cured me completely."

Rheumatism, Diabetes, Bright's Disease, are some of the many forms of Kidney Disease that Dodd's Kidney Pills never fail to cure promptly and permanently.

Use Big 45 for unnatural discharges, inflammation, irritation or ulcerations of the membrane. Painless, and not astringent, sent or poisonous.

Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00, or by mail for \$1.25. Circular sent on request.

Minard's Liniment Cures Dandruff.

## FUTURE OF THE INDIAN

THE RED MAN'S GOOD POINTS AND HOW HE SHOULD BE EDUCATED.

Given Teachers Who Realize That Life Is Spiritual, and the Mind Can Form It, and the Indian's Nature Now Unspoiled by the Errors of Civilization Will Easily Become Beautiful.

It is customary for the western ranchers to ridicule the interest and sympathy always shown by travelers in the Indian. But the intuition of the tourist—called by the residents a superficial observation—is right, whereas the resident, taking note mostly of their weak points and making no allowance for their past mode of life and their present environments, judges his red brother too severely. No uncivilized race answers as readily and creditably to education as the red man. One has but to recognize that they need stimulation and guardianship to solve the difficulty of the Indian's lack of ambition and his so-called laziness. As has been observed, they are but grown-up children. They are about as ignorant of the value of money as they were in the days of selling their land, when they had it to sell, for yards of calico and a few hatchets. It does not seem possible that they can ever be made a commercial people, but something must be done with them. In that line they cannot live a life apart—it is not for their good; they must make part of the nation. Some one must labor with them along the lines in which they are deficient. They are keen in some ways that will serve them well when they come to compete and mingle with the whites. Watch an Indian as he intently studies the face of the person with whom he is talking. He is judging his character.

Why should the Indians be other than they are? Why should they be ambitious and wish to live after our methods when no attempt is made to convince them of the desirability of such a course? Where the attempt has been made—conscientiously and with understanding—the result has been satisfactory.

It is possible to trace the evolution of the Indian. One has but to study the changes going on under western eyes along with the old usages and styles of living even now prevailing, making comparison easy. When California was discovered, the native Indians were found to be of the lowest type, and in different sections of the state, in Arizona and in New Mexico, the Indian can still be found with no ideas beyond mere living and filthy living, as they are called. Then there are those residing in the vicinity of white people who dress in a half-way decent manner, sell baskets and pottery, and have a glimmering of the desirability of progress. Another class are the descendants of those whom the Spanish mission priests labored with while they possessed the country. They show the effects of faithful but restricted methods. No ambition or energy results. Then come the Indians of the better reservations who have the beauties of nature about them, acres that they call their own, attractive school-houses and intelligent agents. The agents, instructors and matrons, if they do their duty, will show the parents what of decent surroundings and good example have without intellectual knowledge. They will impress upon the children the comforts and success to be gained through education, and instill a desire to enter the busy world and compete with others.

Last come the pupils of the big Government schools, who have almost all the advantages of the public and boarding schools, and whose appearance and attainments silence all criticism.

Given teachers who realize that life is spiritual and the mind can form it, writes Mary Atwood Harding in The Country Gentleman, and the Indian's nature now unspoiled by the errors of civilization will easily become beautiful. There is a good work being done on many of the reservations at the Government school, but the effects, naturally, are not as noticeable.

A Two-Wheeled Auto.

A two-wheeled automobile is something of a novelty, yet the wheel steering, single seat motorcycle practically comes under that head. The double frame follows the lines of the straight tube, drop frame bicycle. The engine is mounted vertically in front of the footboard between the double tubes of the frame, with drive to the rear wheel by a twisted axle drive belt. The case body is mounted on a pair of light elliptical springs, providing a comfortable

seat for the rider. The gasoline tank, battery and coil are located under the seat, with all connections carried below the leg space, which is left open to give easy access to the seat.

The motor is started by a crank, the belt being loosened by the movement of a hand lever at the right of the seat, which controls the movement of the jockey pulley. After the motor is started the belt is gradually tightened until the rear wheel begins to drive, when the rider mounts and manipulates the machine as easily as he would a small car.

MOTOR CAR BUILT FOR ONE seat for the rider. The gasoline tank, battery and coil are located under the seat, with all connections carried below the leg space, which is left open to give easy access to the seat.

The motor is started by a crank, the belt being loosened by the movement of a hand lever at the right of the seat, which controls the movement of the jockey pulley. After the motor is started the belt is gradually tightened until the rear wheel begins to drive, when the rider mounts and manipulates the machine as easily as he would a small car.
