Red Rose Tea is Clean Tea

CLEANLINESS is as necessary to tea quality as to any other food.

Tea rolled by hand, cured by hand, weighed, blended and packed by hand may or may not be clean.

Every operation of making Red Rose Tea, on the plantation and in the warehouse, is performed by machines, the rolling and curing, the blending and weighing are all done by scrupulously clean automatic machinery.

Red Rose Tea is never touched by human hands from the picking to your kitchen.

Red Rose Tea is always clean. It cannot be otherwise, because it has no possible chance of contamination.

Its "rich, fruity flavor" cannot be impaired by foreign substance of any sort whatever.

He was surprised at how the

sores healed—"I took your New

Method Treatment for a serious

blood disease with which I had

been afflicted for twelve years.

I had consulted a score of physicians, taken all kinds of blood

medicine, visited Hot Springs

and other mineral water resorts, but only got temporary

relief. They would help me for a time, but after discontinuing

the medicines the symptoms would break out again—running

sores, blotches, rheumatic pains,

looseness of the hair, swellings

of the glands, palms of the hands scaling, itching of the skin, dyspeptic

stomach, etc. I had given up in despair when a friend advised me

to consult you, as you had cured him of a similar disease 8 years ago.

I had no hope, but took his advice. In three weeks' time the sores

commenced to heal up and I became encouraged. I continued the New

Method Treatment for four months and at the end of that time every

symptom had disappeared. I was cured 7 years ago and no signs of any

disease since. My boy, three years old, is sound and healthy. I certainly

can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial

FOR THE TRAVELER.

Smart Cloak Model of Many Useful Adaptations.

The subject of traveling cloaks naturally comes uppermost at this season and each year these useful garments become an object of more exacting and critical regard. In the accompanying sketch are exploited the merits of a cloak that comes from Paris and seems of special worth and usefulness.

The ordinary cloak can hardly lay claim to be considered a thing of beauty. It is a covering from dust and dirt or lends additional warmth and protection from drafts or rain, but is strictly utilitarian; also, as a rule, it is absolutely out of the question

A USEFUL CLOAK.

where any but the orthodox tailor traveling garb of severely plain coat or skirt and skirt is worn.

Now, this French cloak goes a step further, for, while it fulfills to perfection the ordinary functions of a traveling wrap, it possesses in addition a charm of its own, so that it may do duty as a carriage wrap over the smartest of toilets at garden party or race meeting and will not come amiss on occasion if an evening cloak is not forthcoming.

The cloak is of simple enough construction, consisting only of front and back pieces, with the addition of wide winglike sleeves set into armholes of generous proportions. It is pointed both back and front, reaching in the former to a slightly greater depth than in the latter, while the full hanging folds of cloth fall in graceful cascaded fashion at either side.

At the neck the usual revers and collar specially dedicated to tailor work form a fitting completion and afford an opportunity for smartening up in the shape of a collar facing of tan kid, white, suede or delicately colored velvet.

As for material, a good thin coating which has been subjected to some waterproofing process makes an ideal garment for road traveling, while a fine smooth cloth is best for smarter wear. Alpaca, too, is in many respects unequaled for such use, being beautifully light and possessing dust resisting qualities all its own.

A thin silk lining makes both for comfort and appearance, either white or pale toned glace doing wonders toward an ultra smart appearance. These, however, would be out of place for road traveling.

At a Company Luncheon.

Pour one quart of ripe peaches, pared and pitted, into a freezer after sprinkling with one pint of fine sugar and the juice of one lemon; add one pint of plain sweet cream and turn the dasher until frozen; pack in a brick mold lined with lady fingers, on each

of which has been placed cooked citron cut into stems and petals. Place citron stems and flowers on the bottom of the mold. Cover the mixture with oiled paper, tie cover over and pour melted suet around the edge; pack in ice and salt for two hours.—Table Talk.

A Cat Table.

At every English bazaar the cat table is always a money raiser. It proved to be the hit of a New England fair. Cats and kittens, aristocratic and plebeian, came at the first request in scores, in hundreds, and they sold—how they did sell! There were other wares besides cats—baskets and blankets for cats, cat collars, cat bells, cat pillows, framed cat pictures, cat saucers: pussy in plaster, pussy in stuffed calico, to say nothing of ten cent bunches of catnip, which were all sold before the first day of the fair was over. The cash drawer held more money than that invariable winner, the doll table.—Good Housekeeping.

Butter the Bump.

I was told if a bump was well buttered the skin would not turn black and blue. I had little faith in the remedy, but happened to try it and found that no mark was left. Butter is always within reach and my little ones have been saved many ugly looking marks.—M. S.
