## The Attractive Fur Set

Quaint Muff Shapes and Becoming Neckpieces of  
Velvet, Plush or Fur—Fascinating Caps to Match.

JUST as the tinkling of sleighbells delighted the hearts of the children and grown-ups of yesterday, so are we of to-day enraptured with the thought of winter, when tiny coasters may once more be brought into use, and the snow king, zealously guards his domain—

dark green duvetyne, also banded and cuffed with seal. Gold cord, silver and gold lace, is used for the more dress muffs and neckpieces, and oftentimes there is ametal or velvet rose as an attractive bit of color.

### The Popular Tam-o'-Shanter

With the awakening of the out-of-door spirit there has come a demand for comfortable headgear, not the freakish hats and caps which were introduced when the motoring fad came in, so hideous and unbecoming, but chic, little caps and tams made up of sweater cloth, lamb's wool, the material of the coat or suit, or knitted to match sweater or scarf. These caps are extremely youthful and chic, easily made, and the height of comfort.

Sets of cap, scarf, and sports' coat, or sweater, are used for skating, cross-

mountains and streams in glittering snow-clad loveliness.

For these days of sleighing and skating, not forgetting the gorgeous wintry mornings when a brisk walk over frozen paths brings a glow to our cheeks and brightness to our eyes, clothes must play as important a part as for any other occasions.

### Attractive Fur Sets

Fashion decreed at the beginning of the season that fur was to be popular, and old Father Winter has approved the notion by sending us a brisk, crisp winter that makes the touch of fur, no matter how small or how large, quite consistent.

In muffs and neckpieces there is wide choice both as to models and materials. It is no longer considered "home-made" to carry a muff of velvet, heavy silk, or velour, with just a band or two of fur, by way of trimming, or for that matter no fur at all. These sets are often made to match suit or coat; one especially pretty set worn recently with a tailored suit of dark-brown duvetyne, was of silk plush in the same tone as the suit, trimmed with strips of beaver to match the trimming on the suit. The muff was made in the popular melon shape, the plush being shirred to a very small opening at the hand, and banded with a two inch strip of beaver. A broad Puritan collar of the plush completed the set, and a small hat, with a band of the plush around the edge and a beaver ball on the tip-top of the crown, was a chic accompaniment. This set was to be worn with the suit and also with a heavy, belted and pocketed top-coat of dark green velour, intended for sleighing, motoring and like purposes, when warmth was necessary as well as becomingness.

Another pretty set of close-haired fur, made from an old seal coat, had a barrel muff and the regulation throw-scarf. This set was completed by a long tasseled cap made of the same material as the loose, box-coat, which was of

### Barrel Muff and Throw Scarf of Seal

country walking, and motoring. One especially pretty cap with scarf or muffler attached, is being made up in chiffon for summer motoring use; the idea is wonderfully practical, as the full, gathered scarf-end may be brought over the head and face, veil fashion, protecting the complexion and eyes very efficiently.

Leather is being used for these sets quite extensively too; a fur-trimmed set of dull red Russian leather, trimmed with sable and combined with a short, tab-ended scarf, also trimmed with sable, is unusually smart and becoming. These leather sets may be made at home of suede, or a soft kid. They are practical for many purposes as they are not injured by dust, rain, or snow.

There are some attractive velveteen and velvet sets, also, trimmed with a vividly contrasting color.

### The Utility Walking-Stick

One of the novelties following the popularity of walking, skating, and general out-of-door winter sports is the walking-stick with a soft silken or velvet bag attached for handkerchiefs, powder puff and other articles necessary to Milady's beauty and comfort. Although somewhat extreme these sticks are nevertheless quite practical, especially for mountain climbs and hilly roads.
