

Hon. S. H. Blake

N. S. H. BLAKE, DEFENDER OF THE FAITH

This picture illustrates the notable activities of the notable lawyer, politician, and churchman, who passed away in Brandon, aged 79, after a long illness, on June 23rd. Mr. Blake was an Anglican, who fought to the last ditch every attempt to introduce into teachings of Anglican Church in Canada any suggestion of Higher Criticism.

GREEK EMIGRATION DEPOPULATES TOWN

THOUSANDS OF MOHAMMEDAN FAMILIES SAID TO HAVE MOVED INTO TURKISH TERRITORY

Budapest, Hungary, June 29.—The wholesale emigration of Greeks from Thrace to those places in the region on Brama and Seres which have been greatly depopulated by reason of the enormous emigration of Mohammedans, still continues. Immediately following the second Balkan war thousands of Mohammedan families fled into Turkish territory, leaving their homes and, in many cases, everything they possessed, in their haste.

At the same time the Greeks from Thrace began to arrive in those regions in masses, taking possession of any available dwellings which had been deserted by the Turks. There were not, however, sufficient houses, for at one period the Greeks arrived at the rate of several thousand a day, and it was necessary to use tents and improvised camps in order to provide shelter for them all.

Up to the present time it is estimated that over 50,000 Greeks have arrived on 35 steamships, and that at least half as many have traveled overland from nearer points. It is also estimated that about half a million persons have immigrated into Macedonia from Bulgaria and Turkey to take the place of nearly the same number of Mohammedans who have fled.

These various emigration movements in the Balkans will undoubtedly continue for some time, so great is the distrust felt by the peasant classes with regard to the new government under

which they find themselves.

Several Mohammedan deputies to the Bulgarian Sobranje have reported that the Bulgarian Christians and Bulgarian Mohammedans who have been brought under the Bulgarian government and who live together in certain districts, have lived in entire agreement, and that those reports to the contrary which have been circulated referred to Bulgarians and Mohammedans who are living at present in Greek or Serbian territory.

It should be said, however, that the Serbian and Greek governments have endeavored by means of promises and ordinances to allay the fears of their Mohammedan populations. In both countries certain political offenders have been included in general amnesties, while both the governments of Serbia and Greece have been liberal in their treatment of the Mohammedan land owners.

FRANCE NEED CRUISERS

Paris, France, June 27.—In an interview with a representative of the Petite Republique, Admiral Boue de Lapeyroue discussed the recent manoeuvres of the French fleet in Mediterranean waters. Though evidently highly satisfied with the results the Admiral pointed to one deficiency in the constitution of the French navy and that was its lack of scout cruisers.

The necessity for these ships was evident, he said, and they should be able to develop a much greater speed than any other vessels in the fleet. With 37 cruisers of 3000 tons, he considered that the French navy, when the present program was carried out, would be equal to all emergencies.

KAROLI AT HEAD OF NEW ORGANIZATION

ACTION EXPECTED TO HAVE THE EFFECT OF DECREASING THE CHANCES OF GOVERNMENT

Bucharest, Hungary, June 29.—The Kossuth or Independent party, which for twenty years was under the presidency of Francis Kossuth, has now definitely united with the Justh party, which was the party of Julius Justh, and which in reality was based upon the same political principles as the Kossuth party.

The existence of the Justh party was due to a slight difference of opinion between Mr. Justh and his followers and Francis Kossuth and the members of his party. The Kossuth group decided as a mark of respect to their former president that no president should be elected to succeed him and at the same time Julius Justh for similar reasons resigned his presidency of the Justh party.

The leaders of both parties then arranged a meeting of the two parties at which it was decided that the two should be incorporated in the new Independent party which was formed last year by Count Julius Andrássy. At the meeting Count Michael Karolyi was unanimously elected president of the new Independent party. This act will undoubtedly have the effect of increasing the ranks of the opposition and at the same time of decreasing the chances of the government in the general elections of 1915.

Lived in Italy for Years

Francis Kossuth was the elder of the two sons of Louis Kossuth. After the compromise with Austria in 1867 he lived in Hungary for a few years, and was a member of Parliament. In the '70's he returned to Italy, where his father was, and his career as a Hungarian statesman did not really commence until 1894, when he went to Budapest and was persuaded by his friends to remain in Hungary. In 1895 he was elected president of his father's political party, called variously the 48,

and the Independent or the Kossuth party.

His return to Hungary and the leadership of the party by a Kossuth resulted in a considerable increase in its representation in Parliament. Kossuth was a member of Parliament and president of his party for many years, and from 1907 to 1910 was minister of commerce in the coalition cabinet of Wekerle.

Francis Kossuth was ten years old when his father, the Hungarian patriot, was forced to flee to Turkey, whence he was subsequently transported on a United States warship to England. Relatives of the Kossuth family succeeded in hiding Francis and his younger brother and sister for some time, but finally, through the treachery of a Hungarian lawyer, their whereabouts was made known to the Austrian government, and a strong force of infantry and cavalry was sent to the village in which these three children were concealed, with orders to take them.

Captured and Imprisoned

They were taken without any difficulty, and it was announced that "three dangerous rebels" had been captured. They were then immediately placed in prison in Pozsony, where they were kept for nine months. The protests called forth in every country by this act finally forced the Austrian government to liberate them, and they were taken by a relative of the Kossuth family to Turkey, where they became subjects of the Sultan.

Subsequently, when Louis Kossuth went to America, Francis, with his brother and sister, were left in London under the care of tutors to be educated. Francis Kossuth spent many years in England and France and received university degrees in both countries. He finally established himself in Italy until 1867, when he came to Hungary for the first time since he left it as a child. He returned to Italy in 1873 and regained with his father in Turin until 1894.

The Emperor Francis Joseph bestowed many honors upon him in recent years, and if he had been willing to relinquish the principles of the Kossuth party he would probably have held many other high positions in the Austro-Hungarian government.

BANKS ADVANCE BIG SUM TO BULGARIA

Negotiations which have been going on have Had Satisfactory Ending

Budapest, Hungary, June 29.—The negotiations which have been carried on between the Bulgarian government and the group of Austro-Hungarian and German banks under the direction of the German Diskonto-Gesellschaft, have now been concluded.

M. Tonchev, the Bulgarian minister of finance, announced that by the terms of the protocol the Austro-Hungarian and German group of bankers will supply 1,500,000,000 to Bulgaria, of which sum 1,250,000 will be available immediately. Two hundred million of this will be subscribed by the German banks and 1,500,000,000 by the Austro-Hungarian banking institutions.

The Austro-Hungarian and German bank group has an option with regard to the placing of the remaining 1,250,000,000 the details in regard to which will be arranged subsequently. The bonds covering the loan will be issued at between 80 and 85 per cent and will pay 5 per cent interest.

The Bulgarian government has undertaken to amortize this loan by annual payments of principal and interest, and to give preference to Austro-Hungarian and German firms in placing orders for Bulgarian national public works and supplies.

CUSTOMS DIFFER IN AUSTRALIAN PARLIAMENT

Melbourne, Australia, June 29.—At the opening ceremony of the federal Parliament which was performed a short time ago by Lord Lennox, the Governor-General, there was a striking contrast in which many of the spectators were interested.

This ceremony is always performed in the Senate, and for the time being the president's chair is occupied by the Governor-General and the president occupies a seat near by. It is well known that the Labor party has a great dislike to all insignia of office. As the president

of the Senate is a member of the Labor party he is debarred from wearing the wig and robe usually worn by the occupier of that position, therefore on this occasion he sat in ordinary dress beside the governor-general.

The Speaker of the House of Representatives is also a member of the Labor party, and he presented an imposing appearance in wig and gown he led the members of that House into the Senate to listen to the speech of the Governor-General. Thus in the one Parliament the two houses are at variance in their customs.

KAISER ATTENDS MILITARY FUNCTION

Berlin, Germany, June 29.—The "Schrippenfest" of the Lehr infantry battalion is an interesting annual institution dating from the reign of Frederick the Great. It always takes place in the grounds of the New Palace at Potsdam, on Whit-Monday, the Berlin term for a large white roll, which is served as a delicacy to the soldiers with their dinner on that day.

The battalion is composed of picked men from every infantry regiment in Germany, who come up to Potsdam to learn soldiering. On Monday, as usual, a camp service preceded the festivity, and was attended by the Kaiser and all the imperial family with their guests. The service, conducted by the military court chaplain under the shade of the great elm trees, was very impressive and picturesque. When it was over the men repaired to the tents, where a specially good dinner was served to them.

The Kaiser, as is his custom at the Schrippenfest, paid a visit to the men during the meal, chatting with them freely. The rest of the day is a holiday, and this and the Orders Fete are two democratic festivals which are eagerly looked forward to.

GREECE AND DUTCH COURT

The Hague, Holland, June 29.—Up to the present time Greece has only been represented at the Dutch court by the Greek minister in London. Now, however, that Greece has enlarged her territory, and in view of the fact that the commercial relations between the two countries are continually increasing, the Greek government has decided to establish a separate legation at The Hague.

Another reason for this decision is the fact that various important questions in connection with Greece are to be settled at the court of arbitration. The newly appointed minister, M. Papadiamantopoulos, has been for some time minister at Bucharest, which is a very important post from the point of view of Greece. He has also acted as secretary to Prince George, the high commissioner of Crete. M. Papadiamantopoulos is one of the best-known diplomatists in Greece.

NEW ROUTE TO POLE

St. Petersburg, Russia, June 29.—About the middle of June an expedition under the command of Captain Wilkiey will leave Vladivostok for the North Pole. The expedition will consist of two ships equipped with all modern apparatus and with large quantities of supplies. An endeavor will be made to reach the North Pole by way of the Behring strait.

In addition to the usual equipment of sledges, dogs and Siberian ponies, Captain Wilkiey is taking a hydroplane, hoping that he will be able to make use of it. Although an attempt will be made to reach the North Pole, the principal object of the expedition is to make meteorological observations and to take soundings of the depth of the sea in various places.
