THE "CLIMAX"

Has Been Reached and Every Doubt Removed.
Fawcett's Furnace is the Best!

I NOW TAKE GREAT PLEASURE IN OFFERING MY

"Climax" Wood Furnace

to every one desiring of obtaining a first class Heating Apparatus at a moderate cost. This Furnace has been thoroughly tested throughout the New England States and has given perfect satisfaction, besides a large number of them have been in use in the Maritime Provinces for the past two years and from the experience of those using them, I do not hesitate in recommending them to be

Far Superior to any Furnace in the Market.

The fire box is made wholly in one piece and heavily corrugated; thus giving it great strength and a large heat radiating surface. The RADIATOR is of cast iron joined only at the base in same style as the Fire Box, so that smoke cannot possibly escape into the heated rooms, as is the case with many of the Wood Furnaces in use. An examination of most of the Wood Furnaces in use, will reveal to you the fact that they are all more or less warped and cracked with but one or two seasons wear, and cases exist where the so called cheap Furnaces have proved useless and had to be renewed within the space of one year.

I WARRANT THE "CLIMAX"

to last longer than any two Furnaces of other makes, give more heat with a less quantity of fuel and so very compact that it can be set up in many places where other Furnaces could not possibly be placed. The price has been reduced which gives the "CLIMAX" the preference far before all others. Estimates furnished and every Furnace put in Warranted to give entire satisfaction.

A CAREFUL INSPECTION OF THE "CLIMAX" IS SOLICITED.

After spending some time in playing draughts, Go Bang, &c. a rousing game of Blind Man's Buff was then indulged in. Refreshments were subsequently served, after which the Doxology was sung by all and then the young people took their departure having had as they themselves expressed it a "lovely time."

A JAILBROKEN DOG.—The following very accommodating certificate came to light yesterday in a Scott Act trial before Magistrate Cahill. Judging from the degree of mellowness of the "beast" it had been called into perpetual requisition. It will stand for a long time at the head of the record as a device for beating the Scott Act. It was issued by a Boston medical man. "Please allow the bearer to have a pint of barley whenever he requires it."

BAND CONCERT.—The Cornet Band will play at Lower Sackville on Saturday evening. For some time past the band has been preparing for the band tournament which was to have been held in Amherst in connection with the sports there this afternoon. Bands from Sackville, Parrsboro, Pugwash, Tatamagouche, and Springhill entered, but all retired, leaving the entire field to the Sackville band. The music was given by the sports then and was said that the band tournament was "off." As our band has gone to considerable trouble and expense, an attempt was made to claim the prize money which rightfully belongs to them.

SERIOUS ACCIDENT.—What came very near being a fatal accident occurred at Upper Sackville on Friday last, where by one of our most respected citizens, Mr. William F. George, had a narrow escape from instant death. His men were attempting to drive a young heifer into the barn for the purpose of killing her, when she broke away and in running came in contact with a barbed wire fence. The animal made a dash for the gate, but the barbs, suddenly became crazy. Mr. George was coming towards the barn and seeing that could do nothing, he stopped aside to allow the brute to pass, when she made a vicious plunge at him striking him on the right cheek, making an ugly wound and knocking him senseless. He was carried to the house and Dr. Thorne summoned. It was found necessary to put several stitches in Mr. George's cheek, but it is not thought he sustained any internal injury. At last accounts he was resting well and is quite out of danger. Mr. George has the full sympathy of his many friends.

He has been most successful in his work as an instructor in chemistry and physics. Last week some human demon at East Wentworth, Cumberland county mixed Paris Green with salt and placed it in three places in the pasture of Messrs William and James Cooper, the salt resulting in the death of five cows and one two year old steer. The families are left utterly destitute in the matter of milk and butter. No stone should be left unturned to discover the perpetrator of such atrocious conduct.

The races for the Maritime colts took place at Halifax on Thursday last. Dexter won the two year old in two straight heats in 3:10 and 2:57. Sir Charles, belonging to R. C. Sharp of Amherst, distanced the field and won in the three year old in the splendid time of 2:33. Al Shippi's Sea King won in the four year old in 2:39 and 2:40. All witnesses of the race are of the opinion that Sir Charles is one of the best colts in the provinces. His step is a very fine and telling one.

The property of the late Rev. G. F. Miles, Amherst, was sold at auction last week. It was bid in by the following parties:—The Homestead, Harvelock, for Wm. As the evening train was running to Springhill Junction, Saturday, the driver noticed a man lying lengthwise on the track, and the train could be stopped it had passed over the right leg of the man, who turned out to be John W. Hatfield of Macan and was evidently asleep. Dr. Hayes, who was on board, at once assisted the sufferer, who was brought back to Springhill, when the leg was amputated by the knee by Drs. Byers and Covey. Hatfield never rallied and died two hours after the accident. Hatfield was a freeman in the Lawson mine at Macan and came here Saturday seeking work. His father and brother reside at Macan.

THE AMHERST Press of Friday says: "The corner stone of the new dock at the Tidnish end of the Ship Railway was this morning laid by the Hon. C. H. Tupper, Minister of Marine and Fisheries. Among other taking part in the proceeding were H. G. Ketchum, chief engineer of the Ship Railway, Mr. Wm. Tupper, A. E. Dickey, M. P., and Messrs. Simmes & Usher. There was a very large gathering of spectators, the whole of the population of that place attending to witness the ceremony. The granite stone weighing nearly six tons was lowered by the contractor and placed in position by the minister. He then gave a short address in which he referred to the future possibilities of this kind of work and of the pluck that the five millions of Canadians displayed in carrying out their schemes when once they were formulated.

Moncton, who kindly consented to give their services for the occasion. This was the first public appearance of these talented musicians in Sackville, and their efforts on that evening were fully appreciated. The stage was very tastefully decorated with flowers and flags and reflected great credit on those who did the work. Dorchester.

—With the exception of some painting, the work on the outside of Mr. J. H. Hickman's monster stock barn is nearly completed. The barn is a good deal to be done on the inside. When completed the building will be a notable one of the kind, as well as a fine example of the completeness of its arrangements and its suitability for the purposes for which it is designed.

Mr. Hickman has entered two of his thoroughbred horses for competition in the St. John exhibition, one of which has already taken first prize at a similar exhibition last year.

Mr. A. M. Gandet, painter and two assistants, had a most miraculous escape from death or serious injury last week. While engaged in painting the roof of Mr. Hickman's barn, a staging on which they were standing gave way, and precipitated them from the very summit of the building to the ground, a distance of about sixty feet. Fortunately, the fall was broken by the roof of another smaller barn below, and the men escaped with a black eye and some severe bruises.

—Hon. Judge Landry, has been absent from the court last week in Fredericton. Miss Nellie Harris, will be absent from this town for a few weeks on account of her health. Miss Clara Lewis intends accompanying her.

Contradiction

MR. EDITOR.—Allow me through the medium of your journal to contradict the false statement made by "Mac" in your last issue, who, by the way, is not the regular correspondent, but a travelling agent whose business allows him some time to take in all the gossip of the place without looking for authentic information. When he states that I sell to any one with only the semblance of an M. D.'s certificate, he states what is false and known to be false by his advisers, who dare not make themselves liable, but makes a "cat's paw" of him, whose Bible teaches the moderate use of whiskey. Never did I give liquor to any one with the slightest suspicion of the certificate not being genuine, and never but once had I the slightest suspicion after, but I have received many with the "semblance" of M. D. upon them, but never gave liquor on one.

In reference to his "poor fallen companion," I might have withheld liquor from him without infringing on the laws of the country, but without saying much more, I do not believe in lying to journals with village gossip, but when a libel is published the courts or the press is the only refuge, and the press alone when the author is not positively known.
