The voters lists for 1882, to be revised the ment few weeks, are those upon which the Ontario elections will, in all probability, be held next year. All electors should see that their names are preparly entered thereupon or very pos-sibly some may be disfranchised, and re-gret it when too late to remedy it.

For THE GIRLS. -The youth of the Kincardine Standard thus gives himself away:—If a young man truly loves you he will always be somewhat embarrassed when with you. If a young man is not interested in you. If a young man is not interested in you at first sight the chances are five to one against you. RAILWAY TICKETS. -The act relating to the sale of railway passenger tickets in Canada is now in force throughout the Dominion. Under the new law, no person, unless he be authorized by the railway company, can sell a railway passenger ticket without being liable to a fine or imprisonment. This, if carried out, puts an end to all second hand ticket selling. Those who travel only a por-tion of a journey on a ticket can demand the return of that portion of his money within thirty days, less the ordinary fare between the two points for which the

Success ATTEND HIM. - From the Winnipeg Sun of June 20, we clip the following:—"Constable Sturday, of the Winnipeg police force, has obtained the appointment as Chief of Police for the town of Emerson. No better choice could have been made. Mr. Sturdy has for years been Chief of Police of the town of Goderich, Ont., where he was deservedly popular and respected. He is an able and conscientious officer, and although only a few weeks in the Winnipeg force, will be much regretted, as he had made many friends. The Emersonians are to be congratulated on the choice which they have made."

Mr. E. N. Lewis recently purchased the wreck of the schooner Explorer, which was sunk near Tobermorey harbor in 100 feet of water, in the fall of 1867, and securing the services of Port Huron wreckers had her raised, and brought to this port. The exact locality of the wreck was not known until some years ago, since which considerable damage withstanding her long immersion and rough usage is still in excellent condition, her hull being of good oak timber.

A MERITED PUNISHMENT.—The Society of ty for the Suppression of Vice is an organization doing a very effective work in Chicago and the Western States, and one of their present cases will interest residents of Goderich. The item is clipped from the Times of July 6th:— "Smith Whittier, alias Dr. James, Lock Hospital, Chicago, the man who has probably done more than any other one man to corrupt the youth that he might grow rich out of their shame, but who by false swearing has herevofore escaped."

Dr. Pyne of Morris, sold ten steers recently for \$500. The same gentleman bought the same steers in the spring for \$22 each, thereby netting a nice little sum by the sale. Farmers should feed more stock. It would paythem.

Mr. Alex. Forsythe, of Morris, near Brussels, returned from the Northwest last week. He had been out in Dakota visiting his son, who has a large farm and is doing well. He went as far west as Brandon, Manitoba. While there he met several old Huronites and among others Mulmin formally a resident of others McInnis, formerly a resident of Brussels who has a land office, also Messrs J. E. Smith and P. Thomson. He is so much taken up with the country that he has half a notion to sell his fine farm in Morris and remove out west.

A few weeks ago he expressed a desire to become affiliated with Britannia Lodge in this town, sa that he could be buried under the auspices of the order. His application was of course, accepted. The funeral took place on Wednerday, and was largely attended. The members of Britannia Lodge attended in a body, and marched in full regalia in the procession to the cemetery, where the last rights to a departed brother were performed. About a year ago Mr. McIntosh had his monument erected on his burial plot in the cemetery, and the inscription placed continued in the content of the last rights to more than the independence of the procession to the cemetery, where the last rights to a departed brother were performed. Amongst other countries, the example of the United States is often quoted as the best modern instance of a facility in obtaining divorces. It is, however, a complete mistake to suppose that all the States admit this laxity. In South Carolina, for instance, divorces are almost if not wholly, unknown. In Virginia and Kentucky the

Legislature alone can dissolve marriages;

and in Georgia, Mississippi and Alabama

the decree for dissolution must be pass-

But in the other States a much greater

latitude is allowed, and in some the license of repudiating wives and hus-
