Special Evening Telegram.

Mr. Editor.—Would you find a short space in your most valuable paper for a few facts I intend to speak about. I am asking the Longshoremen's Union do they think it right to give a certain party of men work every day and let another poor fellow hang around all day looking for work. Because I am not an old hand there is no work for me. How in the name of great goodness am I going to keep up the union if those wharf foremen don't give me work? I am supporting the Union as well as the men they give work to and am entitled to my share of work when there is any. Every morning when 7 o'clock comes around here comes the head man picking and choosing his men, and if there is any man there that he don't know, he will ask him his name, and if his name suits him he will give him work. Do you call this a square shake. I have a family to support and I want my share of the work, me again. Yours truly,

ONE THAT CAN SAY MORE.

At St. Patrick's.

At Last Mass in St. Patrick's Church yesterday Rev. Fr. Kelly, the celebrant, referred to the repairs on the Church, informing the congregation that \$16,000 had been collected the past two years for the purpose. The new heating apparatus and other repairs necessary would cost at least \$5,000 more, and this he felt sure the people with their accustomed generosity would finish. A bazaar will be held in aid of the Church on the 26th inst., and no doubt will be liberally patronized.

Here and There.

REACHED SYDNEY.—The schooner Dorothy Baird, keeping, has arrived at Sydney, all well, from Pernambuco. She is loading coal for this port.

STORMY WEATHER.—On Saturday the weather conditions were very unfavourable at Bonne Bay. The sea was very rough and fishermen were unable to get to their herring nets. A similar report was received from Seal Cove.

ENGINEER RETURNS.—Mr. Thos. Lumsden, chief engineer of the S. S. Bellaventure, who contracted typhoid fever while the ship was in the southern fruit trade and who was put in Hospital at Sydney, arrived by the express yesterday.

PIER BADLY DAMAGED.—Owing to the high sea which ran last week the new pier at Kelligrews, to which ships from Bell Island run, was almost totally destroyed. It is not unlikely that the ships will have to make their runs to Holyrood to connect with the trains.

IN DANGEROUS POSITION.—At 9:30 Saturday night a man was found in a stupor from alcohol and lying on the Waterford Road. He was in danger of being killed should a horse or auto come along, and the police were apprised by phone to the place and took the unfortunate to the station.

ORE SHIPMENTS.—Recent statistics show that up to last month approximately 785,000 tons of ore had been shipped this year by the Dominion Iron and Steel Co. of Bell Island. There is still over another month to continue shipping and it is estimated that the total output for the season will exceed 1,000,000 tons.

15 C.—FOR FIFTEEN CENTS you can have your Pais Pressed every week, with a good crease that will last almost the full week, with ordinary care; or the full week, with this system and have your trousers look like new every Sunday. **SPURRELL BROS., 365 Water Street, next door to Parker & Monroes. Phone 574.**

DAMAGED VESSEL HERE.—The tug Ingraham which left here at 10:30 am. Saturday for Old Perlican, arrived here yesterday at 10 a.m. with the damaged schooner Progress in tow, and left her in the stream off Baird's wharf. The tug arrived at Old Perlican at 5 p.m. Saturday and had to remain there all night owing to a gale of southerly wind prevailing.

TAKING MACHINERY TO NEW-FOUNDLAND.

The Black Diamond Line steamer Louisburg arrived yesterday morning from Port-au-Port, Newfoundland, under ballast. The Louisburg is loading a cargo of supplies and machinery and will return to Newfoundland in a few days.—Sydney Record, Oct. 30.

BOVRIL

Comprises all that is good in beef, and that only. It has for very many years been used as a beverage or pick-me-up by the traveller, the athlete, the business man and the housewife, on the principle that it is wise to take it and keep well rather than to wait until you are ill.

HENRY BLAIR.

Cable News.

CHATHAM, Nov. 3.
Great excitement was caused here to-day by the receipt of urgent Admiralty telegrams, recalling the officers and men to their ships. Messages on bicycles were despatched in all directions. The authorities are reticent, but it is believed that the orders relate to the battleships Russell and Duncan, now on the Medway.

NEW YORK, Nov. 3.
The New York American says that betting on the election is brisk. A Wall Street commissioner placed \$100 against \$250 that Roosevelt will get twice as many electoral votes as Taft; \$100 to \$400 that Roosevelt gets three times the electoral vote of Taft; \$100 to \$600 that he gets four times as many. Wilson is still 4 to 1; some got 5 to 1. It is even betting that Hedges will beat Straus; 3 to 1 on Sulzer; \$1,000 even that Roosevelt beats Taft; \$1,000 even that Roosevelt gets 10,000 plurality in King's; one bet of \$550 to \$500 that Roosevelt gets more popular votes than Taft.

ST. LOUIS, Nov. 3.
W. C. Douglas, Director of the St. Louis Trust Company, and identified with several other corporations, was burned to death, and more than 20 persons injured, three probably fatally, and 150 occupants of the Berlin Hotel, an exclusive family hotel in the center of the residential district, in their hotel. Several other buildings in their night clothes when fire destroyed the hotel. Several other guests are missing. Firemen are searching the ruins for bodies. The loss is \$250,000. The guests are believed to have lost \$100,000 in jewellery. The hose carriage on the way to the fire struck a street car and three of the reel-car crew were fatally injured.

MONTREAL, Nov. 3.
It is believed that 16 were drowned when the S.S. Cecelia, plying between Montreal and Valley-field, was wrecked during a hurricane yesterday. She went to the bottom off Isle Perrot, in Lake St. Louis. Details are meagre, but it is believed that of 20 aboard, only 4 were saved. Capt. Le Duc is among the drowned. Those who escaped did so by clinging for four hours to a frail and hastily-constructed raft, amid the buffeting of tremendous waves. Two were blown ashore at Chateaugay, landing on the beach, utterly exhausted by their long struggle. The Cecelia was built last year, of 115 tons. Several women and children were among the passengers.

Something Special.

S. H. PARSONS & SONS, Photographers, corner of Water and Prescott Streets, call attention to their advertisement on the first page of this issue.

They specially draw attention to the necessity of placing orders early, particularly for portraits in water colors, miniatures, enlargements and framing. A good line of miniature rims and frames to suit the most critical are kept in stock.

The latest addition to their outfit is a new Electric Lamp, specially made for portrait work. They can now guarantee photographs taken in the night equal in every respect to those taken in daylight, whether groups or single figures.

No day is too dull to have a photograph taken. With up-to-date and modern appliances, and an experience that is quite unique, they are now independent of weather conditions.

Good Price Paid for Fish.

We are informed that a city merchant bought a cargo of fish, which came from St. Mary's, on Saturday and paid \$7.20 a quintal for it. The quantity of fish purchased was eight hundred quintals and the quality No. 1 large merchantable. This is certainly a good price for fish and the belief expressed is that the buyer is making a big "spec."

Deaconess Sunday.

At Gover Street Methodist Church last night a large congregation attended the service and Rev. Charles Lench, of Grand Bank, President of the Conference, delivered an eloquent and impressive sermon from Zachariah 2: 1.—"A man with a measuring line in his hand." The beautiful discourse was listened to with wrapt attention, and at its close Mrs. King sang a solo. In the morning, Rev. J. W. Bartlett, though feeling unwell, preached a very eloquent sermon. Substantial sums were collected at the services in aid of the Deaconess movement.

Another Dramatic Company.

The Klark-Urban Co. presented "Capt. Clay of Missouri" to a large audience as a farewell performance Saturday night. The piece received an excellent portrayal, and just before the close the leading lady, Maisie Cecil was presented with a handsome bouquet. After the last act the whole company sang "Auld Lang Syne" and were given an ovation by the audience. Mr. Klark announced that the Young-Adams Co., a large aggregation, would play here for a season, opening at Christmas.

A Valuable Industry.

Mr. Thomas Curran, who arrived from P. E. I. on Wednesday by the express, says that almost any money can be procured there for black foxes. Foxes are worth \$5,000, and the industry of fox farming is fast becoming a most important one. Mr. Curran believes that the island will supply most of this kind of fur to the world in another decade of years.

and try to lose, dad burn your eyes, that aldermanic load." I walked five miles, and now I lie upon a couch of pain; my tendons all are pulled away, and I am one big sprain; there is a spavin on my knee, a ringbone on my shin; when I can find that doctor he will have his head caved in. "Oh, sleep out doors and get fresh air!" another doctor cried; "why do your sleeping in this air,

with swarms of germs inside? This air that heaven sends to men inhale, and breathe your fill, and when you're well and strong again, I'll send you in my bill." I slept last night upon a roof, and when I woke just now, I found some iceberg on my hoof, and more upon my brow. And I am all bunged up with cold. I cannot sing a note; and all the quinine I can hold I'm pouring down my throat. One longing rankles in my dome. I have one great desire, which is to seek that doctor's home, and set the same afire. So after this when I have fills that makes me groan and rant, I'll take the good old fashioned pills that cured my uncle's aunt.

SIX SISTERS OF CHARITY

And Three Children Were Burned to Death.

San Antonio, Texas, Oct. 30.—Trapped by flames that swept through Santa Rosa Hospital early to-day, six sisters of charity and one child were cremated and two children still are missing.

On Second Thought.

BY JAY E. HOUSE.

In the competition to decide which is the dullest day, Christmas seems to be Sunday's most formidable competitor.

There is some talk of the improved mince pie, recently invented. To be better than the old one, the improved mince pie must be able either to tell a story or to sing a song.

If you hear the alarm clock when it goes off in the morning, that is a sign that you are no longer young.

A good many men manage to keep their names before the public without observing the formality of first securing a pretext.

Mrs. F. Augustus Heinz says her husband never treated her like a wife. So many women do not know when they are well off.

The flaw in Dr. West's suggestion that every boy set aside the earnings of one cow as a protection against old age is that there are not enough cows to go round.
