## CHRYSLER FOUR

Acclaimed Everywhere As  
Typical of Chrysler Quality

America has received the Chrysler Four with the declaration—heard from one end of the country to the other—that only such a master manufacturer as Walter P. Chrysler could produce such a car.

It was a foregone conclusion that so extraordinary a development of the four-cylinder principle and so outstanding a value, would be greeted with intense interest.

In many cities enthusiasm bordered on the sensational.

Conservative opinion hails the Chrysler Four as the most modern and the soundest contribution to finer four-cylinder engineering.

Unquestionably, there has never been a four at anywhere near the price that delivers the Chrysler combination of speed, smoothness, acceleration, pick-up, roadability, riding comfort and ease of handling, fuel mileage and charm of appearance.

In every respect, it is a fitting companion to the famous Chrysler Six. It is made of alloy steels as fine; it represents the application of the same fine precision manufacture that raised the Chrysler Six to its unprecedented peak of popularity.

The Chrysler Four is, in fact, to four-cylinder practice, what the Chrysler Six is to six-cylinder practice. In its field, it puts an entirely new interpretation on ability and performance, on riding ease, and complete and perfect roadability.
