Guelph Evening Mercury

TUESDAY EVENING, AUGUST 12, 1873

Town and County News.
EXPLANATION.—It is not a bald man who advertises for the hair in another column.

THE ONTARIO TRADER.—The August number of this useful publication has reached us.

The Public Schools open next Monday.
A full supply of all the books used in the town and country schools will be found at Day's Bookstore.

MR. C. ACTON BURNERS, of the Deslaves, Printing and Publishing House, Montreal, is in town, canvassing for subscribers to the publications of that enterprising company.

THE POST OFFICE ROBBERY.—We learn that no registered letters were sent hence to Toronto by the afternoon train on Saturday, so that in all probability none from Guelph were amongst the registered letters stolen from the Toronto Post Office on Sunday.

NEW CLOTHING STORE.—It will be seen by the elephantine advertisement in another column that Mr. Pierce, of Hamilton, has taken the premises on Wyndham at, at present occupied by Messrs. Hepburn, and intends opening them as a clothing store.

THE ELORA FIRE.—We are informed by the Secretary of the Wellington Mutual Fire Insurance Co., that the only risk that company held on the burned buildings was \$500 on Mr. Mandell's dwelling house, and \$300 on his furniture, the larger part of which was saved.

CAIRO FIRE AGAIN.—On Saturday afternoon the roof of Inglis & Hunter's foundry caught fire from the blast furnace chimney, but fortunately a few barrels of water served to extinguish the incipient blaze. This is not the first time that that roof has been on fire from the same cause; and the old proverb may prove applicable here—"The pitcher that goes off to the well gets broken at last."

HAIL STORM IN ERIN.—The heavy black clouds hanging over the country to the northward of Guelph yesterday about noon were not without serious effect, although none of it was felt in town. We regret to learn that a tremendous hail storm passed over Erin village and its neighbourhood yesterday between one and two o'clock, doing an immense amount of damage. The hail fell for fully fifteen minutes with very great violence, breaking windows, shattering the grain, and destroying the fruit and root crops to a large extent. The rain also fell for upwards of an hour in torrents. Such a storm has not been witnessed for many years.

THE LINLEY TROOPS had a full house last night to witness the play of "John Lawry" and the farce of "Dodging for a Wife." Both pieces were well put down, and many times did those present show marked approval, especially of the comic interludes, which were excellently rendered. The trapeze acting was also very good; it showed great nerve on the part of the young actor to accomplish such daring feats. A considerable improvement has been effected since their first visit by substituting a string instrument for the brass one in the bass—"brassy blare" being rather too ear-splitting for so small a room.

Y. M. C. A.—The new rooms over Pringle's store are nearly ready for occupation, and the Association hope to remove from their old apartments before the end of the week. It is proposed to inaugurate the possession of the new headquarters by a social to be held on Thursday next week, Aug. 21, when a good musical programme will be gone through and other attractions provided. The news rooms are very commodious. That proposed to be used as a reading room and for meetings 70 by 90 feet, and there are two large ones above, where the Mission School, the committee meetings, &c., will be held. Gas will be used for lighting, instead of coal oil as formerly; neat papering and painting is being done.

THE ST. ANDREW'S REUNION.—An exceedingly agreeable evening was passed by the members of St. Andrew's Church and their friends on Monday night. The grounds of Mr. Davidson's residence, Sunnyside, were illuminated by the mellow light of Chinese lanterns, and their reflection in the still water above the dam presented a beautiful appearance to the passers by. A special interest attached to this social, as being the first held by the congregation of St. Andrew's, and we were glad therefore to find that it was an entire success, both pecuniarily and in affording opportunity under pleasant surroundings for worthy folk becoming better acquainted. From 130 to 150 visitors were present. The feature of the evening was an exceedingly witty affair entitled a Comic Art Gallery. Numerous "works of art" were suspended on the walls and laid on shelves, each labelled with appropriate title. Under the guiding title of "Sweet Sixteen," candles to the number of twelve eight were displayed; "Whaling implements" were represented by a fine assortment of switches; "The Waterfall and the Old Mill" by a coffee grinder and chignon; "The Lynx" by a section of chain; and "An endless variety, making altogether an effect that was very amusing. Refreshments were ample and good; and the weather during the evening was all that could be desired.

Dr. Inglis, of New York, is in Hamilton and preached on Sunday at his old church.

BY TELEGRAPH.

THIS MORNING'S DESPATCHES
The Kidnapping Case.

Vienna.
Steamboat Disaster Investigation.
Caledonians.

London, August 11.—The office of Master of the Rolls has been offered to Sir John Duke Coleridge, but he refuses to accept it.

The state line steamship *Alabama* was spoken on Tuesday at a considerable distance west of the locality where the wrecked matter, supposed to have been from that vessel, was discovered.

Vienna, August 11.—Many strangers are leaving Vienna, and the number of visitors to the Exposition is decreasing daily.

Omaha, August 11.—Doctor L. Van Trosor, late of Albany, New York, committed suicide to-day by cutting his throat.

Kansas City, Mo., August 11.—The Widows' and Orphans' Home near this city was burned to-day.

Apprehensions are felt of the failure of the corn crop throughout this section for want of rain.

Washington, August 11, 1 a.m.—Probabilities for New England, falling barometer, higher temperature, easterly winds, partly cloudy weather, followed by local rains in the western portion. For middle States, falling barometer, south-easterly and westerly winds, warmer and cloudy weather, with occasional local rains. For lower lake region, south-westerly winds, low barometer, partly cloudy weather and occasional rains.

San Francisco, August 11.—Wm. K. Johnson, who was shot by John Curtin, died to-night.

Philadelphia, August 11.—The games of the Caledonian Association came off to-day at Oakdale Park. About 15,000 persons were present. The games, for which \$700 in prizes was offered were not all completed. There was a lively competition. Among those participating was Professor Goldie, of Princeton College. To-morrow the annual meeting of the Caledonian Association will commence.

Washington, August 11.—Governor Austin and the Mayor of Minneapolis have had another interview with Secretary Fish relative to the Manitoba kidnapping case. The President said to him that the subject should receive the prompt attention of the Government, and that he should see the rights of the American citizens should be protected. The matter has not assumed a diplomatic aspect, although Sir Edward Thornton and Secretary Fish have had several formal interviews.

News has been received of the overdue steamer *Arnot*. She was seen on the 23rd and again on the 24th of July under canvas, with a broken propeller. She did not ask for assistance.

Washington, August 11.—The Supervising Inspector of steamboats for this district has arrived here and will, by order of the Secretary of the Treasury, commence on Wednesday next a full investigation into the recent wreck of the *Arnot*. A thorough account of the number of dead bodies already recovered puts the lost at 67, nearly all of whom have been identified.

Y. M. C. A. Annual Convention.
The sixth annual convention of Y. M. C. Associations of Ontario and Quebec is to assemble in this town on the 27th inst., and continue in session during the 28th and 29th. The convention will meet for organization at 2 p.m. on Wednesday in the Congregational Church, where the day services will be held. The welcome meeting on Wednesday evening will be held in the Wesleyan Methodist Church, and the farewell meeting in Knox Church.

The following subjects have been selected for discussion: 1. "How can it be best promoted?" 2. "How can the mercantile class of our young men be reached and benefited by our organizations?" 3. "Bible study in our associations—its need and value." 4. "How far can we make the social element meet in our associations?" 5. "Personal consecration to Christ, and our individual responsibility to work for Him." Mr. R. C. Morse, Secretary of the Ex. Com., N. Y., will be present at the convention. We hope the convention will be numerously attended and a successful one.

THE LATE BASE BALL CHAMPIONSHIP.
Those persistent admirers of the Kingston Club who have been telegraphing reports of matches between their favorites and other clubs during their tour can now see the folly of their ways, and take a lesson from the rules of the Association, so it would be difficult for them to claim championship even if they beat our boys on their own ground, where all such games must be played. But they can't do that. To settle the whole affair we would like to see both the Kingston and Toronto clubs here again soon, and all those other crack clubs on the line—one at a time, of course—and we will promise them a game for the championship if they wish it, and a good one, too.

Four tracks on the New York Central, and the Erie double-tracked! This is what is proposed and will shortly be carried into effect. In view of the importance to Canada of the Western trade, a contemporary remarks that the action referred to points directly to this—the Grand Trunk Railway should be made a double-tracked steel railway with the least possible delay.

School Board.

The Board met last night: present Messrs. Knowles, (in the chair) Kennedy, Newton, Murton, Inglis, Raymond, Stephenson, Bell, Robt. Mitchell, Harvey, and Drs. Keating and McGuire.

COMMUNICATIONS
The minutes of last meeting were read and confirmed.

A letter was read from the Elora Board of High School Trustees, stating that they had resolved to petition the Ontario Government, asking a repeal of the regulation recently issued respecting pupils admitted since August, 1872, and asking the Guelph Board to co-operate; also from A. Simpson, the new caretaker, stating his intention to commence his duties immediately, and that he had been delayed in moving to Guelph on account of the difficulty in getting a team.

From Mr. Ferguson Black, stating his surprise at the refusal of the Board to accept his resignation, and explaining that he intended no discourtesy to the Board in wording his letter of resignation as he did, inasmuch as on signing his agreement he stated that he should probably not be able to remain the entire year, and was given to understand that the agreement was merely a formal one; he knew also that it was customary for the Board not to place obstacles in the way of teachers wishing to better their position. In view of these facts, he respectfully requested the Board to reconsider their determination.

THE NEW CENTRAL SCHOOL.
In reply to Mr. Kennedy, as to the progress which had been made in commencing the new building.

Mr. Raymond said that the architect had been on the ground with the contractor for excavating and masonry work, and had struck the preliminary lines; the architect had also taken away with him all the papers necessary for preparing the contract for signature, and he (Mr. Raymond) had since sent him a copy of the contract on the subject.

Some conversation ensued on the question of the contractors' sureties, and it was agreed that the sureties should be submitted to the whole Board in order to decide as to their sufficiency.

MR. BLACK'S RESIGNATION.
In answer to Mr. Murton, the Secretary stated that when Mr. Black signed his agreement he mentioned that there was a possibility of his wishing to leave, and the Secretary then told him that he had never known a case in which the Board had refused to allow a teacher to leave if he had an opportunity of bettering his position.

Dr. Keating, as the seconder of the motion refusing Mr. Black's resignation, said that as Mr. Black was given to understand that he would be allowed to resign, and as there was no personal feeling on the part of the Board against Mr. Black, but only a desire to maintain a principle, he (the speaker) would give notice of a motion to rescind the resolution on the subject passed at the last meeting. At the same time it was now the determination of the Board to insist upon all agreements with teachers being strictly carried out, and he would add an expression of the public generally to his resolution.

Mr. Mitchell supported this view of the case.

The following resolution was then moved by Mr. Mitchell, seconded by Dr. Keating, and passed:—That the Secretary be instructed to advertise for a candidate to fill the situation of an assistant High School teacher, applications to be laid before the Board at its next meeting.

WEST WARD SCHOOL.
The Secretary was instructed to advertise in the local papers for an assistant teacher for the West Ward School. The Board then adjourned.

MURDEROUS AFFRAY IN ST. CATHARINES.
A murderous affray occurred on Sunday night in a house of ill-fame, kept by an abandoned woman named Maria Hart, in the suburbs of the town, known as Hamilton Farm. Two boarders of Mr. Alexander Bain's went out to Hart's last night, and Bain sent out a man named Stonehouse to bring them home. On arriving there, Stonehouse found an argument in progress between one of the boarders and a rough from Buffalo, named Forrester, as to which of the girls possessed the best fighting qualities. Loud and angry talk grew out of the argument, when finally Forrester offered to bet ten dollars he could whip any man in the house. The man with whom he was disputing said he could find a man that could beat him, and named Stonehouse as the party. During this time Stonehouse was sitting outside on the veranda, taking no part in the affray, and apparently waiting for the men whom he came after to accompany him home, nor was he made aware of the state of affairs until Forrester made a rush for him, striking him on the head, probably with steel knuckles, and following up his blow with all the skill he possessed, and continuing to beat the unfortunate man until his countenance was unrecognizable. Blood was gushing from his nose, ears and mouth. During this time the others stood by in a most cowardly manner, without offering assistance. After Forrester had left his victim apparently lifeless he walked away uninterrupted. The beaten man was taken home, where he now lies in an almost hopeless condition. The Chief of Police was not notified until 12.30, after which he proceeded to the scene of the disturbance with all haste, but unfortunately no trace of Forrester could be found. After scouring the neighborhood until 4 a.m., the police returned unsuccessful. The police say this place is a fearful den of infamy and a resort for every villainous character of the district. They were driven out of town last spring owing to the vigilance watch kept on them by the police, who had them fined repeatedly. They have since located outside of the corporation, where they are beyond the jurisdiction of the authorities. Great blame is attached to the township authorities for allowing this state of things to continue.

THE MATCH GAME YESTERDAY.

The lately celebrated Kingston club have come and gone, taking a goodly number of those marvels of base ball with them—goose-eggs—and Guelph sports are happy. A large number of admirers of the Maple Leaf assembled on their ground yesterday afternoon to witness, as many expected, the most exciting game of the season, but which from the second innings proved—as most other games of the kind have done on this ground—to be a very one-sided affair. In fact, the Maple Leaf had it too much their own way all through the game for it to be interesting to the admirer of an exciting contest. Long before the commencement of the game many who pretended to know were betting freely that there would not be five runs difference in the score, and as the first striker took his position near the home plate the excitement grew intense and not a few manifested unmistakable signs of uneasiness as to how the game would result. At 2:50 play was called by the umpire—Mr. D. Moore, of London—with the Kingstonians to the bat. Guelph won the toss, and took the field. Some sharp fielding was now done, and the Kingstonians retired in one, two, three order. The Guelphites next took the bat and before the last striker was out, Jones, Goldie and Tommy Smith had reached the home plate amid the hearty plaudits of the assembled crowd. The Kingston boys now seemed determined to give the scorers something to do, Rafferty making a splendid fly cut and reaching his second; Wright got his base on called balls; and the next striker, knocking the ball too near Jacky, gave the latter a good chance for double play, which was quickly taken advantage of, and two of their men were sent to their seats. Rafferty and Wright shortly after reached the home plate, and thus ended the only innings worth speaking of on the Kingston side. During all the others, excepting the fifth, the visitors were put out in one, two, three order by our boys. It will be seen by the score that Anglin and the two above-mentioned were the only ones fortunate enough to reach the home plate in safety during the entire game. We must not omit to mention some fine running catches made by the visitors, one in particular being beautifully taken in the one hand style by McCammon on the right field. Johnny Goldie made some fine catches on our side, so also did several others of the infield. Muffing was not omitted—some most glaring errors being made on the second innings by the Kingston boys, which caused the Leafs to run up the large score of eight runs. On the whole some very fine batting was exhibited by the Maple Leafs, which told pretty badly on the hands of the Kingston boys, some of whom were not at all in a proper state for playing base ball when they arrived here. Some superb fielding was put down by our boys, as will be seen by the long row of eggs which were served out; none of the latter undesirables having been handed over to us during the entire game. We must not omit to mention the good-natured disposition of the Kingston boys at their disastrous defeat; only once was the umpire called to task for his decisions, which on the whole were (as is always the case when Mr. Moore acts in that capacity) fair and impartial. The game throughout was composed of a series of bruises and wounds, and showed great pluck on the part of the players on both sides to stick at it as well as they did; but Billy's stitch was too much for him, and he had to retire to centre field, and Johnny Colson took his place, the slow pitching of whom seemed to be the source of annoyance to Charley Maddock rather than a pleasure, but had a telling effect on their opponents' striking. We might mention in justice to the visitors that their slow pitching after the 6th innings also caused our boys some difficulty until they began to see into the thing; and we doubt very much if the score would not have been much smaller if the slow pitching had been instituted at the first outset of the game. In the evening the two nines enjoyed themselves seeing Lindley, and this morning the visitors left for Cobourg to play with the Travellers to-day, apparently well pleased with their reception and game in Guelph. The following is the individual score:—

MAPLE LEAF.			
	R.	B.	P.O.
Jones, s.	4	3	0
Goldie, r.	4	3	0
T. Smith, f.	4	3	0
Maddock, c.	4	3	0

Guelph.	1	2	5
Kingston.	0	0	0

Duration of game, 2 hours 30 minutes. Umpire, Mr. A. Moore, of Toronto. Scorers, Matthew Tinker, Maple Leaf, and T. H. Durbin, St. Lawrence.

THE Stratford papers have been warmly discussing during the last few weeks the recent appointment of a stipendiary Magistrate in that town. The Herald gets into a passion, vows Stratford does not want a Stipendiary, and rails at the tyranny of the Mowat Government in imposing this burden on Stratford, while the Beacon warmly defends the appointment of Mr. O'Loane.
