London is kicking because one third of its population is tacked to the county by the gerrymander. The city is big enough for two members; but the Government dare not do it justice by putting it on a level with Hamilton and Ottawa. The funeral services took place Sunday afternoon, and he was buried in Oakwood Cemetery beside his wife, lately deceased. Extraordinary Arguments.

According to Mr. Monerieff, Judge Elliot had a perfect right to act as one of Mr. Care

had a periest right to act as one of Mr. Carling's partisans during the recent election campaign in London. The member for East Lambton argues that a judge has a perfect right to announce what his decision is to be in a particular case before he has heard either evidence or argument, and that he is acting quite properly when he contributes articles to a Tory newspaper discussing the merits of issues upon which he must afterwards pass judgment; that, in short, a judge's usefulness is not in the least impaired because he chooses to become an active election heeler for one of the political parties. This is how the Conservatives propose to uphold the dignity and inhad a perfect right to act as one of Mr. Car parties. This is how the Conservatives propose to uphold the dignity and integrity of the bench. If our judges are to be allowed to become political partisans and to publicly avow themselves as such, then the American system of electing judges, and thus making those functionaries directly responsible for their conduct to the people of the districts in which they administer justice, is preferable to the practice at present in vogue in Canada—under which Ministers from Nova Scotia, New Brunswick and Quebec are able to pitchfork political partisans upon the bench of this Province, and Ontario Ministers have a voice in the election of judges for other Provinces.—[Ottawa Free Press.
