L'Original, Que., June 4.—Larocque, the Cumberland murderer, was hanged at 8:05 this morning. His crime was one of the most atrocious ever perpetrated in America—the cold-blooded murder and outrage of two little school children, Mary and Eliza McGonigle, aged 14 and 12 years.

He died without a word and without the faintest sign of fear. He made no confession. The execution was probably the most expeditious on record.

The Prohibition Debate De clared Off for a Time.

And the Budget May Possibly Brought Down on Friday.

OTTAWA, June 3.—The new member for Algoma took his place to-day in the House. Mr. Laurier asked the Minister of Justice if he was in a position to-day to lay on the table the papers in connection with the Washington negotiations, and Sir John Thompson replied that he expected to present a part of them during the afternoon. Sir John Thompson then referred to an agreement which had been come to with regard to the resumption of the debate on Mr. Jamieson's prohibition resolution, which, according to the order paper, would come up this evening. It had been arranged, he said, that this debate be suspended. It was an important subject, involving a change in the policy of the Government. Sir John Thompson said he was convinced of the farmess of the promises of the act of 1889 and the necessity of its proclamation. He still entertained the views he had expressed as to the right of the Parliament to pass such a law. This expression, heard so frequently, is used only by those consumers who at cigar stores, hotels and restaurants, simply say: "Give me a Cigar."

Those smokers who ask for an "El Padre" "Madre e Hijo,," "La Cadena," "La Flora," "Cable or "Mungo," and insist upon having the brand they ask for, "It is difficult to obtain a good Cigar."

The consumer who permits dealers and others to hand him any brand they choose has himself to blame if he is dissatisfied with his purchase. It is Human Nature for business

to push the sale of goods that pay the larg est profit. It is Policy for the consumer to apon having Reliable Brands.

There are some dealers who decry brands, more especially the "La Cadena" and "La Flora" (the cream of the Havana crop), solely on account of their desire to push the sale of Inferior Goods and Private Brands that pay a larger profit If the same attention is given to the purchase of cigars as to wearing apparel, the complaints that are frequently heard would

soon cease to exist. We manufacture only the Highest Grade of Cigars. We are not cheap cigar manufacturers. We aim to give the best of quality consistent with prices charged, and do not pretend to offer the public Gold Dollars for Ninety Cents.
