Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new man. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because

WEEKLY REVIEW.

Quite a few changes in values and the quantity of the receipts have occurred on this market during the week just closing, notable among which are the declines in the price of wheat and oats. The receipts of neither of these lines were heavier than usual, and the drops are entirely due to the general situation of the world over. Other kinds of grain show very little change. Eggs closed at 10c to 11c by the basket at Tuesday's session, and a value of 1c per dozen, and closed steady.

Butter shows no change in prices. Chickens sold at 35c to 40c per pair dressed, and 30c to 35c live. Beef was steady at 55c to 60c. Lamb a little more plentiful at 3c to 3c. Dressed hogs look a little stronger; the price of nice light stuff was \$4 to \$5. Live hogs closed at \$4 to \$4.75 for lots.

The hide and skin trade was steady. Wool took a little spurt; 17c was the top price on Tuesday. Among the fruits and vegetables the new features were the arrival of home grown peas which, also imported potatoes. Strawberries were offered in surprisingly large quantities for so early and prices were practically demoralized; during the week they ranged from 25c to 10c, with the close 3c to 5c.

Gooseberries were lower at 6c, and rhubarb was completely knocked out by the strawberries; only 15c per dozen could be got for it. General quotations for latest transactions were as follows:

American Markets.
CHICAGO, June 14.—P. D. Armour today bought all of Joseph Leiter's cash wheat in the Northwest, amounting to four or five million bushels. Sensational information is also obtained that Armour will take up all of Leiter's wheat. It is generally admitted that the sale to Armour clears the atmosphere to a considerable extent.

and if trustees are necessary to liquidate the rest of Leiter's cash wheat in this city, New York, and in European storehouses, it will not require much time to dispose of the remaining 2,000,000 bushels or more. There apparently will be little difficulty in winding up the deal, inasmuch as it is authoritatively stated that bids have been received for all the cash wheat that Leiter has. There is a fair prospect that Leiter's creditors will lose nothing, and that the wheat will bring in sufficient, with recovering markets, to pay all claims.
