Miss Lonsdale's "Fairies" and the "Ship That Sailed Into the Sun," and Miss Kirkwood's "If No One Ever Marries Me" and "The Swing," were gems, and had to be repeated several times. Harold Wilde, tenor, was another host in himself, his tones being as clear as a bell and produced with the true artist's Edouard Parlovitz, the pianist, had to nearly double his contributions to the programme. The Chopin "Sherzo in B flat minor," in expression and echnique was a treat.

Much homely humor is found in Wm. B. Gray's beautiful new production, "The Volunteer Organist." Its characters being drawn from a locality in Vermont that seems to be quite apart from the rest of the world, are many of them rare studies. The eccentricities of the rural Vermonter are, while clearly drawn, not one whit exaggerated. Like the Irishman, the humor of the Vermonter is spontaneous and it bubbles out in unexpected places at unlooked-for times so that one is actually at a loss as to whether each suc-With "Mrs. Temple's Telegram," at one to laugh with glee or to let one's ceeding line in the play is to cause sympathy go out to some of the other at the Madison Square Garden in New characters. A new musical comedy will be secured ists. The writers in France are today house's clientele, will receive 65 per a good house has played to \$230 a night

A good theater has its own clientele which will come to it regardless of the performance billed there. It is akin to the situation out of which a man buys a novel because of a publisher's imprint on the title page. And in this comparison the position of the publisher in bringing out a book and that of the theatrical manager who cpens up his house to a new production is identical. The theater manager occasionally discovers that a play has failed dismally in his house; why it failed, neither he nor the company manager can guess!

It is through the clientele that his house has established that the theater manager finds much leverage with companies seeking his playhouse. Here he may eliminate a good deal of the element of chance. For instance, he will have come into business touch with certain companies whose appearance in his house means standing room only for the period of the stay. They are \$10,000 a week companies without a single element of chance that they fail of the mark. But to reach this mark they must play in the house with the clientele that has accepted them in the past. One of these companies that had office.
