Upwards of a dozen buyers were anxiously awaiting for a supply this morning, and it was after 19 o'clock when the first load was off-red. Bedroom **Decorations**

In searching foreign and American markets for novelties in the way of home decorations, we found that for bedrooms, Cretonnes had the lead.

This season finds your bedroom walls, curtains, draperies, furniture and furnishings all agreeing in some simple design. Imagine the delightful harmony this scheme of decoration affords. Your walls and ceiling hung in some delicate shade of paper, with just enough strength of color and design to give character to the room, finished with cutout floral borders, that finish both ceiling and walls.

Borders on ceiling and on side walls above the base, as well as at the ceiling, seem to be the latest way of finishing these rooms.

To match these walls is Cretonne used as bedspreads, curtains, bureau covers, window seats, boxes, chair coverings, in fact every article in the room must be finished in the Cretonne to be the correct thing this spring.

, A visit to our showroom will be well worth your time, when we will give you our newest ideas in bedroom arrangement.

The lady who really loves an artistic home will readily appreciate these designs in Cretonne effects.
