ATTITUDE OF NEUTRALS GIVES GERMANY SCARE RUSSIANS GETTING READY TO DRIVE OUT INVADERS

ANOTHER "LEGACY" LONDON CITIZENS FORCED TO PAY

Last Administration Purchased 23 Acres For Sewage Beds
and Storm Sewer Outlet When Consulting Engineer of
City Reported Seven and Half Acres Would Do.

Legacies, for the most part, are popular. Stage and fiction have made them so. But there are exceptions to the rule. Already has been mentioned the one of 438,000 left in connection with Victoria Hospital. Now comes another in connection with the construction of the storm sewer system of last year.

Wills Chapman, the consulting engineer employed by the city in connection with the storm sewer construction, prepared plans for a sewage disposal plant and sanitary sewer in connection with the big storm trunk built down Euston street. His report was that seven and one-half acres of ground would be necessary for the sewage beds and for the outlet of the storm sewer.

The last administration purchased TWENTY-THREE ACRES WHERE ONLY SEVEN AND ONE-HALF WERE REQUIRED. This surplus of fifteen acres of ground, that is about as useful to the city as two ticks to a dog, is one of the legacies of the last administration.

Another Administration Legacy. The sanitary sewer of Euston street is another administration legacy. It is "blind" at both ends. It is said that it will cost \$18,000 to connect it with the sewage disposal plant and with the east end sewer. It is supposed to drain. On its construction \$30,000 was spent,

and NOT ONE CENT OF THIS WAS AUTHORIZED BY DEBENTURE OR ANYTHING ELSE SAVE THE ORDERS OF THE MAYOR OF LAST YEAR. It is claimed that this expenditure was not only UNAUTHORIZED, BUT ILLEGAL.

Those who know, declare that the sewer was put down without proper authority. The money has been paid for its construction from the city treasury, and it will cost the aforementioned \$18,000 (estimated) to make this \$30,000 illegal expenditure worth a nickel to the citizens of London.

Still Another "Legacy." In connection with the 23-acre purchase is still another "legacy." The Crawshaw property, comprising about seven acres in all, was purchased for STORM SEWER PURPOSES. This means that it cannot be used for anything else. All the city can do to make it a park, and that a very dangerous one, for the OPEN CONSTRUCTION of the storm sewer makes it a constant menace to those who drive or walk near it. This open construction was decided on by the administration of last year. It would save land damages, said the mayor, and therefore it went through. It has saved land damages all right, but the crop of personal injuries suits that it may bring forth will be in excess of even those damages.

Remarkable Picture of Entire 18th Battalion at Test Mobilization, Queen's Park, Today

Advertiser Illustration.
In this picture the whole 1,100 men are seen after the command "break ranks" had been given. A finer number of clean-cut, strong, healthy, virile soldiers it would be impossible to find anywhere. They are all eager to get at the enemy and, in all likelihood, they will have the chance.

RUSSIANS PRESS EVER ONWARDS

Now Seriously Threaten the
Germans With Great Out-
flanking Movement.

VON HINDENBURG IS BUSY
Still Continues Costly Lunges
To Break Through To
Warsaw.

RUSSIAN COUNTER-BLOW
May Indicate a Decision To
Expel Invaders From
Russian Soil.

[Canadian Press.]
London, Feb. 6.—12:45 p.m.—On his chosen ground to the west of Warsaw, Gen. Von Hindenburg, the German commander, is continuing his costly lunges to break through to the Polish capital. At the same time the Russians, further to the north, have pressed forward, and after crossing the Dnieper River, they are seriously threatening the Germans with an outflanking movement.

Tens another great battle for Warsaw is one causing perhaps greater loss of life than any other conflict in the war. The issue is still undecided, but the Russians claim that the initiative has passed to them, although further furious German attacks are expected.

No Decisive Turn.
The more complete and strategically the more important struggle in the Carpathians is dragging on without any decisive turn. Broadly speaking, it appears that in the western half of the battle region the Russians are making progress, while in the eastern half they appear to have fallen back on the Lupkow and Beskid passes on prepared positions, where they are attempting to stem the rush of large Austro-German forces.

To Expel Invaders.
The Russian counter-blow on the massed assaults of Gen. Von Hindenburg's men is the most interesting development in the east. It overshadows for the moment the operations of the Russians in East Prussia, and is taken in some quarters to indicate that they have ceased playing the role of merely holding their lines to the west of Warsaw and have determined on an effort to expel the invaders.

No Change in West.
The western war zone has seen virtually no change during the week, but there are many reports of German preparations for renewed assaults in Belgium. The German threat of a submarine blockade may be a factor in this situation, the theory being advanced that the Germans expect the Allies to attempt to force them back from the coast, with the idea of destroying their submarine base.

OFFICIAL STATEMENT.
[Canadian Press.]
Paris, Feb. 6.—2:45 p.m.—The French war office this afternoon gave out a report on the progress of the fighting, which reads as follows:

"No infantry engagement has been reported as having occurred during the day of February 5."

"From Arras to Rheims there were artillery engagements with results satisfactory to us. The heaviest fighting was in the vicinity of Perthes and Arras."

Train Set On Fire.
"In the Argonne and in the Woëvre district, French artillery yesterday dispersed convoys of enemy and set fire to a convoy train of 25 wagons."

"There has been no change in the situation on the rest of the front. We brought down a captive balloon behind the German lines at a point to the northeast of Somme."

FORMER LONDON BOY WALKS FROM THE FAR NORTHWEST TO ENLIST

Advertiser Illustration.
HORACE HANEY, a brother of Aid. George H. Hane, of this city, who lived here for many years. He is now in training with the second contingent at Winnipeg. Private Hane was a clerk in the freight office of the C. N. R. at its northern terminus at Athabasca Landing, Alberta. Yearning for adventure, he left that post and went with a trading expedition up the Athabasca River to Fort Churchill. Learning of the outbreak of war, he cut the trading party and walked back to the "Landing" in order to enlist. When he arrived in "civilization" again he was rejected because he was under the age of 18. A friend found him employment in the Bank of Commerce in Fort William, and on his 18th birthday he left the bank, joined the second contingent, and is now in Winnipeg, waiting to go to the front.

Private Hane was born in Woodstock, Ont., and was brought to London when his father was moved here to take charge of C. P. R. construction work. Some years ago his father left the C. P. R. and went with the Grand Trunk Pacific as a bridge contractor. He there, for moved his family to the West, and although so young, Horace has been leading a most adventurous career in the little-known regions in Canada's most northern territories.

Man Who Was Stabbed by Countryman in Local Hotel, Better.

John Kohnovitch, the Russian, who was stabbed in a drunken brawl in the Windsor Hotel last Monday night, is rapidly recovering from his injuries according to the Victoria Hospital authorities. In a statement, the hospital authorities said that Johnovitch will be in the hospital for about another week, but there is not the least danger he will die unless someone steals into the hospital and kills him.

Russian, who is charged with the stabbing, will likely be remanded for another week when he will appear for trial.

Will Bring More American Farmers into Essex County

Men All Corn Growers—Convinced That W. Ontario Is Place To Grow Corn.

Walter Stigleman, of the Maumee Valley Land Company, an American organization, which has brought hundreds of American farmers into Essex County, was in London today.

Mr. Stigleman says his company will bring in about thirty-five families from Illinois, Ohio and Indiana in the spring. These men are all corn-growers, and those who have come before have convinced them that Essex, Lambton and Kent are great corn counties.

Mr. Stigleman's praise was given to the Advertiser's Stay in Ontario movement. He thought that this section of the country was not nearly as much developed as it should be.

He received a good impression of London, its soundness and business strength impressing him most favorably.

Cunarder in Danger

Berlin Has Report That Thracia Is Drifting in White Sea, Having Lost Propeller—Has Valuable Cargo.

[Canadian Press.]
Berlin, Feb. 6.—Officials here have branded as false the report printed in the Bucharest newspaper Adevartul that Germany had requested Bulgaria to attack Roumania if Roumania took the field against Austria-Hungary.

A dispatch from Christiania states that it has been learned there that the Cunard Line steamer Thracia lost her propeller, and is drifting in the White Sea, with a cargo worth \$4,000,000.

JUST LIKE A LAKE

Parade Ground at Park Only Fit for Web-Footed Soldiers.

The parade ground of the Thirty-third Battalion in the ring at the fair grounds is a regular lake today, and in consequence the men have been drilling in front of the palace, to the south, and in odd corners of the park. Lieut.-Col. Wilson has returned to camp, and is once more personally in command.

REV. McCAMUS GOING TO BLENHEIM CHURCH

Pastor of Colborne Street Methodist Church Leaving London.

Rev. D. N. McCamus, pastor of the Colborne Street Methodist Church, has formally accepted the invitation extended from the Blenheim Methodist Church, asking him to take that pulpit.

Mr. McCamus will leave the Colborne Street Church about July 1, but his removal is subject to the ruling of the Methodist stationing committee. Some time ago the Colborne street congregation invited Rev. Dr. Louis Barber, of Listowel, to take the place of the present pastor. He has accepted.

AMERICAN STOVES FOR CANADIAN SOLDIERS

Reflects Adversely on Government's Policy of "Made in Canada."

About a score of the gas stoves and gas plates used in the Winter Fair Building at Guelph for the soldiers are American stoves.

This has been learned on good authority, and has been commented upon as a rather unfavorable reflection on the Government's policy of "Made in Canada" goods.

The stoves were supplied by a jobbing firm in an eastern city.

Many firms in Canada manufacture gas stoves, including the McClary Manufacturing Company in this city.

RUSSIAN RECOVERING

Man Who Was Stabbed by Countryman in Local Hotel, Better.

John Kohnovitch, the Russian, who was stabbed in a drunken brawl in the Windsor Hotel last Monday night, is rapidly recovering from his injuries according to the Victoria Hospital authorities. In a statement, the hospital authorities said that Johnovitch will be in the hospital for about another week, but there is not the least danger he will die unless someone steals into the hospital and kills him.

Russian, who is charged with the stabbing, will likely be remanded for another week when he will appear for trial.

WILL DEVELOP BUSINESS SPIRIT

Board of Trade and Builders Exchange Getting Together On Splendid Plan.

REQUIRES UNITED EFFORT

Loan Companies, Contractors, Architects Will Join Hands To Further Prosperity.

A plan, which it is believed will develop the spirit of "business as usual" in a marked degree, has been brought to the attention of the board of trade, and when the details have been worked out in accordance with a co-operative scheme, it is promised that the public will be encouraged to proceed in the spring with a measure of construction of normal proportions.

Appointing Committee. A committee of the board of trade was appointed at a meeting of the executive, held yesterday afternoon, to discuss the situation with representatives of the Builders' Exchange, and when the proposition has been thoroughly evolved it will be set forth in a manner that it is believed will prove most attractive, in that it cannot do other than redound to the advantage of owners, contractors and labor.

Requires Concerted Action. The proposition is one which requires a certain concerted action of loan companies, contractors, architects, and a preliminary investigation by a committee of businessmen, in which those concerned have been approached and brought to a common understanding of the situation.

The plan is being worked out in very fine detail and, as part of the general scheme, it is the intention to approach various municipal bodies where reasons will be submitted that will no doubt convince those in charge of civic funds that it is in the best interests of the public to proceed with any works which have been projected as part of a normal 1915 program.

Expendable and Advisable. It will be shown that it is not alone expedient, but advisable, that the erection of new schools and other buildings should be commenced as early as possible. It is argued that in case of the schools, the accommodation is urgently required by the board of education, and such public works will relieve, in a large degree, the pressure of the problem of the unemployed.

LOCAL GROCER HELD UP

William Loughrey "Slugged" and Relieved of \$65 Last Night.

William Loughrey, grocer, Horton and Burwell streets, was "slugged" while walking along Horton street near the street railway switch about 7:30 o'clock last night and relieved of \$65.

Mr. Loughrey, who is up in years, was walking towards his place of business when he was suddenly attacked and struck over the head with some kind of an implement, which felled and stunned him. When he came to, he discovered that his pockets had been rifled and \$65 he had on his person was missing.

Detectives Harry Down and Robert Egleton have been assigned to the case, and they are now looking for a man who was seen near the spot of the hold-up a few minutes prior to when it happened.

CAR JUMPS TRACK—A north belt car, leaving the rails at the corner of Dundas and Adelaide streets, shortly after 9 o'clock last night tied up traffic on that line for half an hour. The car was up-town bound.

GERMANY BACKING DOWN ON THREAT TO SINK ANY SHIPS TAKING FOOD TO BRITAIN

A SHORT SERMON

To the Editor of The Advertiser:
When women can exercise the right of franchise throughout the world, there will be no more wars.

When women can cast the ballot, the liquor traffic—with all its attendant misery and crime—will perish from the earth. That's all. F. C. BUZZELLI.

London, Feb. 6, 1915.

TEST MOBILIZATION OF 18TH REDOUNDS TO CREDIT OF MEN

Test Ordered For Purpose of Seeing How Quickly Recruits Could Be Lined Up To Leave The City Should Marching Orders Come.

For the first day or so there has been considerable excitement among the men of the Eighteenth Battalion owing to rumors that they were to leave the city immediately. The cause of all unrest and surmises lay in the fact that Lieut.-Col. Wigle had ordered a test mobilization for the sole and simple purpose of seeing how quickly they could be lined up to leave the city should marching orders suddenly arrive.

By 9 o'clock A. B. and D. Companies were on the parade grounds, awaiting the arrival of C Company from the barracks. There was a radical difference in the appearance of the men from that of ordinary, every-day parade occasions. One spectator best described it in the comment, "They look heavily-laden." But notwithstanding the weight of knapsacks, haversacks, blankets, flasks, ammunition and arms, they carried themselves with a soldierly rectitude that contradicted any idea of being bowed down. Literally "armed to the teeth" and with swords gleaming at their sides, the officers presented a very gallant and dashing appearance.

Men Marched Valiantly. Though the footing was bad, owing to alternate sheets of ice and tracks of ankle-deep slush, the men marched valiantly up and down in different formations, under the direct command of the colonel. Fifteen or twenty minutes were spent on the parade grounds after which the different sections were dismissed one at a time, cooks on duty first, then pioneers, etc. Marching off to their quarters the members of C Company were enthusiastically cheered as they passed by a squad of the Thirtieth that was on drill.

Ambassador at Washington Says Enemy Will Not Seize American Vessels With Supplies For Civilians, Unless Wilhelmina Seized by Britain.

AGAIN RECOUNTS THE NEUTRAL FLAG STORY

(Canadian Press.)
Washington, Feb. 6.—The German embassy declared in a statement issued today in regard to the decree placing the waters around the British Isles in the war zone, that Germany "does not intend to molest or seize American vessels laden with foodstuffs for the civilian population of enemy countries."

The statement expresses the hope "that Britain will not make necessary a reconsideration of this attitude by seizing American ships like the Wilhelmina." The statement follows:

NOTHING NEW.
"The German ambassador has not received instructions regarding the decision of the German admiralty, but according to the text of the decision, the following seems clear:

"There is nothing new in the communication made on February 4 by the German admiralty with respect to the attitude of the German imperial navy toward ships of the enemy or toward neutral commerce. It is absurd to describe this as the proclamation of a paper blockade of the British Isles. The communication is simply a statement of what has been, since the beginning of the war, the attitude of the navies of all the belligerent powers toward ships of the enemy."

Not Censuring Waters.
"A few months ago, the British admiralty proclaimed the waters of the North Sea, the waters of the English Channel, the waters of the North Atlantic, as neutral. Germany does not profess to molest or seize American vessels laden with foodstuffs for the civilian population of enemy countries; it is to be necessary a reconsideration of this attitude by seizing American ships like the Wilhelmina."
