

GREATER PRODUCTION
AND RIGID ECONOMY
WILL HELP WIN WARPresident of Bank of Montreal
at Annual Meeting.FVORS IMMIGRATION
General Prosperity of Business
Commented Upon
in Report.

"Canada, inspired by a deep-rooted loyalty to the Empire, has given and is still prepared to give freely her gallant youth and monetary means to the great cause," said Sir Vincent Meredith, president of the Bank of Montreal at the annual meeting of the shareholders held in Montreal.

He said that there were three objects towards which every effort of the country must be bent.

"Economy—that we may be enabled to provide the Government with funds to do our part to win the war, and to make provision for taxes, which we shall undoubtedly be called upon to pay."

"Keep Up Production." "Production—that we may increase our exports and furnish more plentifully our home markets."

"Immigration—which may bring about increased production so necessary to our well-being, to be promoted at all times and under all circumstances, more particularly of settlers who seek the land."

Sir Vincent also touched on the important problem involved by the railway situation in Canada, and the desirability in any way to anticipate the findings of the special commission appointed, asked to be allowed to express his hope that neither government ownership nor government operation would ensue, either of which he was convinced would prove detrimental to the best interests of Canada.

End Not in Sight. In referring to the principal developments of the year, and the plans that should be laid to cope with them, he said in part:

"I hoped when I last had the pleasure of addressing you that before this annual meeting the end of the cruel and devastating war, which has convulsed Europe, would be, if not reached, at least within measurable distance, so that this expectation we have been disappointed."

"The year has again been one of considerable anxiety to all those engaged in financial matters, and the conditions of the year, and the plans that should be laid to cope with them, he said in part:

"Our profits have been curtailed by payments of Government taxes at home and abroad, while earnings on loans in Canada have been affected by reduced borrowing on the part of our customers. It is not, however, an unfavorable feature that the prosperity of our large manufacturing industries and business in general has produced a curtailment of bank loans, and converted borrowers into depositors."

Conditions Good. "As the result of the phenomenal crop of a year ago, coupled with vast expenditures by the Allied Governments in this country for munitions and by our own Government for requirements in connection with the war, high wages are being paid for the usual time, and the conditions at the moment in Canada are buoyant in nearly all lines of business."

"Owing to unusual adverse climatic conditions and the fact that the yield of wheat this season will probably not exceed in quantity in the north-west one-half of last year's bountiful crop, and will fall somewhat below the average in the older provinces, but the farmers will be largely compensated for the diminished yield by the high prices being paid for grain and all other farm products, and it is not for the fact that our shipments of grain to Great Britain will probably be curtailed by a shortage of ocean tonnage, the results might be looked upon as not unfavorable on the whole."

CHARLES IS JOYOUS. London, Dec. 7.—A Reuter dispatch from Amsterdam says that Emperor Charles has been in a very good mood, and that the Austrian Government has borrowed in New York \$5,000,000. The Emperor's mood is a matter of pride and congratulation. So far a depletion of bank deposits in consequence of these contributions has not taken place, in fact they show month by month a gratifying increase."

After War Problems. "Looking to the future," Sir Vincent said, "the thoughts of many men are turned towards the problems that will confront us after the war. A temporary check in business activity may be looked for when peace is in sight, but I do not anticipate that any lengthened cessation of our commercial and industrial activities will be the result."

Two Belmont Burials. London, Dec. 6.—The death of William Belmont, only son of Mr. and Mrs. Orville Belmont, took place here on Monday morning, aged 2 years and 3 months. He was slightly ill on Sunday, but not considered seriously ill. The funeral took place today at the Dorchester Union Cemetery.

The funeral of Isabella Blair took place from the home of her son, Robert Blair, on Monday, when the remains were taken to the D. H. Mills Cemetery for interment. Services at the house and grave were conducted by Rev. L. Bartlett of Belmont.

TEMPERATURE. Sir Frederick Williams, general manager of the bank, also addressed the meeting, and laid particular stress on the temporary character of many of the conditions that now prevailed in Canada.

SOLDIERS' AID TEAROOM. WALKERTON, Dec. 6.—The Soldiers' Aid Tearoom was opened tonight by Warden McNab, who entertained the members of the county council and his friends. He has been recently elected to four successive terms, and each time elected without opposition. At present it is his intention of retiring, but much pressure is being brought to bear to get him to remain in the council in some capacity.

BULLET NOT LOCATED. BLENHEIM, Dec. 6.—Andy Bolus, the young lad who was shot Saturday while out hunting with some other young lads, is reported to be getting along nicely. Dr. Williams of Chatham was called in consultation with the attending physician and it was decided that no operation would be performed at present to locate the bullet, which did not pass through the leg, as was at first reported, but the lad was taken to Detroit as soon as he can be moved and the bullet located.

CARD OF THANKS. Mrs. McKenna, of Ashbridge, wishes to thank her many friends and neighbors who have been so kind and helpful in their many kind words and sympathy shown in her recent bereavement, and for the many floral designs.

DEFENDANT ALLEGES HE
USED RAZOR FOR DEFENCEBrener Also Says Ketchum Was Too
Intimate With Mrs. Brener.

The case of George Brener, 17 Briscoe street, charged with assaulting and wounding Miles K. Ketchum, was called at the opening of the general sessions of the peace at the court house this morning at 10 o'clock.

The evidence of five witnesses was heard before adjournment at 1 o'clock. At the opening of the afternoon session one witness remained to be called after which the addresses of counsel to the jury will commence.

It was expected the case would go to the jury shortly after 3 o'clock.

Miles K. Ketchum, the complainant, and Dr. Ferguson, who dressed his wounds, repeated the evidence they gave at the preliminary hearing in police court on Monday last.

Miss Ida Ketchum, sister of the complainant, testified that her brother had arrived home at 90 Langarth street on the night of November 25th at 10:25 p.m., and she had rendered first aid in dressing his wounds.

Mrs. Walzen Brener, wife of the defendant, corroborated the testimony of Ketchum as to the negotiations for the sale of a violin and as to Brener's breaking in the window.

Brener, on his own behalf, testified that he had stabbed Ketchum with a razor after the latter had struck him several times over the head with a stick. He gave evidence tending to show that intimate relations between complainant and witness' wife and pleaded, as his justification, as well as self-defence, when Ketchum attacked him with the stick.

"Production—that we may increase our exports and furnish more plentifully our home markets."

"Immigration—which may bring about increased production so necessary to our well-being, to be promoted at all times and under all circumstances, more particularly of settlers who seek the land."

Sir Vincent also touched on the important problem involved by the railway situation in Canada, and the desirability in any way to anticipate the findings of the special commission appointed, asked to be allowed to express his hope that neither government ownership nor government operation would ensue, either of which he was convinced would prove detrimental to the best interests of Canada.

End Not in Sight. In referring to the principal developments of the year, and the plans that should be laid to cope with them, he said in part:

"I hoped when I last had the pleasure of addressing you that before this annual meeting the end of the cruel and devastating war, which has convulsed Europe, would be, if not reached, at least within measurable distance, so that this expectation we have been disappointed."

"The year has again been one of considerable anxiety to all those engaged in financial matters, and the conditions of the year, and the plans that should be laid to cope with them, he said in part:

SARNIA IS PLACID
REGARDING ELECTIONNo Interest Shown, Even by
Present Office-Holders.

MAYOR WANTS TO QUIT

Hydro System Is Progressing
Well—One Firm Already
Has Power.

(Special to The Advertiser.)

SARNIA, Dec. 6.—With the municipal elections only three weeks away, interest in probable candidates still remains at a minimum. When approached on the subject the present aldermen have nothing to say. An effort is being made to have the present mayor, W. J. Brett, stand for re-election for 1917. He is not favorably inclined, as he has served the city in some capacity or other for the past 25 years, and would like to see some one else take up the chief magistrate's duties. The citizens in general have shown no interest in the coming year, and are apparently not worrying over the municipal body for the coming year.

(Special to The Advertiser.)

SARNIA, Dec. 6.—Following the example of various other municipal bodies in endeavoring to improve the quality of the milk delivered by vendors in this city, at least once a month, and the results of the test published in the papers. Complaints have been numerous to the effect that despite the fact that the dealers were selling the highest priced milk, the quality was not up to standard, and this monthly inspection will force the dealers to keep their product up to standard.

Another measure worthy of commendation is the announcement that the sanitary inspector is requested to take samples of the milk delivered by vendors in this city, at least once a month, and the results of the test published in the papers. Complaints have been numerous to the effect that despite the fact that the dealers were selling the highest priced milk, the quality was not up to standard, and this monthly inspection will force the dealers to keep their product up to standard.

The Municipal Engineering Department of this city, who contracted for this power, are now being supplied, and it is anticipated that the Stone Company at Point Edward will be able to turn on the juice in a short time.

FOUR DRUNKS IN COURT.

SARNIA, Dec. 6.—Walter Roper, LeMay, Joseph Dearth, David Napper, on charges of intoxication, were taken by the police, Roper, Dearth and Napper today paid the usual fine, but LeMay, who is a Frenchman, was returned to the cells, until an interpreter appeared, as he does not understand English.

The case of William Fern, charged with an infraction of the Ontario Temperance Act, will probably come up for trial tomorrow morning. Fern is charged with having liquor in a place other than a private dwelling house, and had previously secured an adjournment of a week.

\$50.59 IN PENNY BAGS.

SARNIA, Dec. 6.—The local Red Cross Society reports that the second collection of the funds under the penny bag scheme netted the handsome sum of \$50.59. The district between the London and George streets was again in the lead, the donation amounting to \$100.29. The district north of the London road came next with a contribution of \$34.65.

CHURCH FAIR TONIGHT.

SARNIA, Dec. 6.—The teachers and scholars of St. George's Church will hold a school room for the church Thursday evening, the proceeds of which will be used for the erection of an addition to the Sunday school. The committee in charge anticipates a record-breaking attendance, and has made arrangements accordingly.

DEATHS AND FUNERALS

FUNERAL OF MRS. JONES. The funeral of Mrs. Naomi Jones, whose death occurred on Tuesday, took place today at 2 o'clock from the house, 29 Wilson avenue. The service was held at 2:30, in charge of Rev. H. Richardson, of the Empress Avenue Methodist Church. The pallbearers were Richard Gaffney, William Service, William Walsh, Richard Culver, Lawrence Graham, and John Lockie. Interment was made at Mount Pleasant Cemetery.

FUNERAL OF JOHN TENNANT.

The funeral of John Tennant, who died on Monday, was held from his late residence at Hyde Park Wednesday afternoon to Woodland Cemetery. The services were conducted by Rev. H. H. Tennant. The pallbearers were J. H. Tennant, P. A. H. Tennant, E. Tennant, James Haskett, Henry Haskett and M. Douglas.

BURIED AT WOODLAND.

Mrs. Ellen Irene Vandusen, who died on Sunday, was buried at Woodland Cemetery on Wednesday. Funeral services were conducted by Rev. W. J. Ashten.

FUNERAL OF MRS. ANGUS.

The funeral of Mrs. Josephine Angus, who died at Victoria Hospital on Tuesday, was held this afternoon to Mount Pleasant Cemetery. The services were conducted by Rev. A. C. Bingham and Rev. H. H. Bingham.

THE DASH BYLAW.

WATERLOO, Dec. 6.—The town council will submit a bylaw at New Year's asking the ratepayers to give their consent to purchase the Snider estate. For the next three weeks it will be referred to as the "dash bylaw." The property in question contains approximately 23 acres, several of which were used for factory sites. The purchase of the mill dam will insure the retaining of the lake at the park.

ANNIVERSARY IN MAPLETON.

MAPLETON, Dec. 6.—Rev. W. J. Hastie of Toronto conducted anniversary services at Disciple Church, Mapleton, Sunday morning and evening. On Monday evening he gave a patriotic lecture, illustrated by lantern slides, of the great British war machine. Rev. G. W. Charlton presided.

Tommies Dine Amongst Ruins

The British troops on the western front. This British official photo shows a Tommy's billet among the ruins of one of the many homes destroyed by artillery fire. The soldiers shown are enjoying lunch.

CANADIAN CASUALTIES
SUBSTANTIAL ADVANCE
TO COTTON IN NEW YORK

(Reported by Thomson & McKinnon.)

New York, Dec. 6.—A decidedly more cheerful tone prevailed in cotton today. There were few cables and a better market here, the recent decline having been by reason of liquidation and short selling. We have reached a point where the market is directly under the influence of two Government reports, the export and the spinning. The Government report on spinning is to be issued tomorrow. The only question remaining is whether the effect on values, Grant, Adams, and the spinning, will be a crop as far as the largest and most important of the world's cotton is concerned. There is of course, always a price that discounts conditions, but the price has been reduced, that such a conservative course of buying should be followed. There is nothing in the situation to justify a bearish attitude.
