Special to The Advertiser:
Wall Street, New York, Aug. 22.—To-day's market was generally strong and rather more active, passing over lightly impleasant incidents in the outside news reports that there had been unpleasant price cutting in the mid-continent oil fields, were accepted and had a some-hat depressing effect upon the oil shares.

Railway stocks, most of them, were hield back by the fear that the July traffe report would show the large gross carnings increases absorbed by heavy maintenance charges.

There was little or no special setting. There was more activity also words. Amount of the hard coal amines, it would have shown in stocks like Norfolk & Western and Baltimore & Ohio, which when serious apprehension regarding a syntown of the hard coal mines, it would have shown in stocks like Norfolk & Western and Baltimore & Ohio, which the other rails.

Locomotive shares were among the soft coal interests. There sending the soft coal interests. The present moment of the present moment of the present moment of the soft on the present moment. TODAY'S OPENING PRICES. Chicago, Aug. 22.—Higher quotations at Liverpool gave strength to the Chicago wheat market during the early dealings. Offerings increased, however, after the start and the early advance was checked. Predicted frost for parts of Canada failed to materialize and fair and warmer weather is expected in the domestic wheat regions. There was some scattered commission house business on both sides of the market, but trade was light and prices soon became steady. Opening prices, which ranged from unchanged to % higher were followed by a little further rise, and then a dea little further rise, and then a de-cline to a trifle below yesterday's fin-

ish.

Realizing sales gave the September corn delivery a weak start, opening ½ to ½ lower, December and May were unchanged to ¾ up.

Enduring Values

THE trade-in price of a 1921 Ford is equal to the trade-in price of other 1921 cars which cost 30 to 50% more than the Ford when new.

This is proof of the Ford quality and the guarantee that the purchase of a Ford is an investment as distinguished from an expenditure.
